Including mobile hydraulics, the semiconductor industry, the food industry, aerospace, medicine, pharmacy, oil and gas transport technology, environmental engineering, laboratory and testing technology, household and sanitary systems, as well as in mining and in the field of steelworks, power plants, wind power installations, machine tools, transfer presses, plastic injection moulding machines; Hydronpneumatic storage units being machine parts; Piston accumulators, bubble memory devices, diaphragm accumulators, bellows accumulators, spring accumulators, in each case being parts of machines and accumulator installations consisting of such accumulators, being parts of machines, including in the field of offshore and deep sea applications; Hydraulic, hydronpneumatic and reflective sound, vibration and pressure dampers, resonators, silencers, in each case being parts of machines; Filtration devices and filters, being parts of machines, for filtration and separation technologies, usable for all technical, chemical, biological, and process engineering applications; Replacement parts for all the aforesaid goods; Coalescers, high-pressure, medium-pressure and low-pressure filters, liquid filters, line filters and process line filters, gas filters, including for seal gas systems, cyclone filters and other separating filters, filling filters and ventilation filters, full flow filters and bypass filters, multistage filters, return flow filters, including suction filters and return flow suction filters, tank-integrated filters, including ventilating and drying devices, drum filters and strip winding filters, perforated plate filters and screen filters, offline filters and inline filters and spin-on filters, plastic melt filters, membrane filters; Filter aggregates, stationary and mobile dewatering apparatus, in particular for hydraulic oils, thin gear oils and fuels, including diesel fuels; Dewatering apparatus; Coalescing devices and filter elements therefor, in particular for joining water droplets to form large droplets and separating the latter from fluids, including oil, by means of gravity; Removal apparatus for removing particle contamination including from gases, including air, from liquids, including oil, in each case being parts of machines; Dehumidifiers being parts of machines; Filter elements, perforated plate and screen filter elements, gauftype filter elements, rheological filter elements, flow filter elements, filter candles, filter cartridges, filter housings, filter discs and disc filter elements, filter mats, filter pots, filter cloths, filter bags, filter strips, filter packets and deep filter elements, including filter fabric materials, in each case being parts of machines; Cooling and heating devices, including heat exchangers (parts of machines) for stationary and mobile applications for exchanging heat between liquid and/or gaseous media; Shut-off equipment, shut-off apparatus, stop valves, switch-over devices and valves being parts for machines, in particular for hydraulic and pneumatic fuels and media, in particular inflow pressure and circulating pressure balances, flow control valves, priority valves, shuttle valves, seat valves and slide valves, throttle valves, diaphragms, directional control valves, non return valves, pressure valves, pressure control valves and pressure limiting valves, optionally with indicators and monitors, vent valves; Control apparatus being parts of machines, in particular for hydraulic and pneumatic installations, in particular flow-dividers and control blocks, including valve control blocks; Hydraulic or pneumatic operating cylinders, being parts of machines; Hydraulic and pneumatic motors and engines, Gearboxes, Clutches, Pumps and compressors, including being machine parts; Hydraulic or pneumatic drive units for land, air and water vehicles and being parts of machines, in particular for process engineering, for general machine construction and for vehicles, in particular for construction machines, for machine tools, for machines for manufacturing plastics, for
drives for tools, for presses, for transport installations, for shipping and aeronautics, for chemical and reactor technology, for mining and iron and steel works, and for rolling mills, in particular consisting of at least one hydraulic pump, at least one drive motor and at least one container of metal or plastic for liquids; Tanks and other storage equipment, including droplet tanks for fluids; Hydraulic motors and engines; Control apparatus, in particular electric, electromechanical and electro-hydraulic control apparatus (included in class 7); Lubricating apparatus and equipment, lubricating installations, supply apparatus, in particular distributors, for stationary and mobile application; Mechanically operated clamping apparatus, clamping machines and clamping tools; Motor-driven hydraulic pressure and feed pumps, being parts of machines, adjustable and non-adjustable; Hydraulic drive units for elevator controllers, transport controllers and lift controllers, in particular consisting of a hydraulic pump, a drive motor and a liquid container of metal or plastic; Machines for industrial washing and cleaning; Electrical engines.

CI.9: Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments; Electric installations and components of all kinds, included in class 9, namely for use in the automobile industry, including mobile hydraulics, the semiconductor industry, the food industry, aeronautics, medicine, pharmacy, oil and gas transport technology, environmental engineering, laboratory and testing technology, household and sanitary systems, as well as in mining and in the field of steelworks, power plants, wind power installations, machine tools, transfer presses and plastic injection moulding machines; Control equipment and apparatus for elevator controllers; Control apparatus and vehicle stabilisation systems, including roll stabilisation devices; Resonators; Indicating, checking (supervision) and control apparatus for level, pressure, temperature and quantity for gaseous and liquid media, including for dehydrating apparatus and separators; Manometer monitoring switches; Dosage dispensers; Switching equipment, Monitoring apparatus and diagnostic apparatus for technical applications; Apparatus, Instruments and components for conducting. Switching, Converting, Storing, Regulating or controlling electricity; Transducers; Actuators; Sensors, including pressure sensors, Flow sensors. Temperature sensors. Level sensors. Sensors for detecting state variables of liquids and gases, fluid flow sensors. Viscosity sensors, Gas sensors. Conductivity sensors, Sensors for determining relative permittivity, moisture sensors. Optical sensors, Magnetic sensors, Capacitive sensors. Chemical sensors. Thermolectric sensors. Distance sensors. Incline sensor. Particle counters, piezoelectric actuators, electrostatic actuators and magnetic actuators; Active and passive electric and electronic components; Active and passive electric and electronic components manufactured using thick-film and thin-film technology; Microwave antennae; Magnets, including in combination with valve switching components, except ignition magnets for motors and engines; Optical equipment and apparatus, including cameras, microscopes, optical recording apparatus, in particular for analysis and metrology; Optical particle counting apparatus; Individual parts for electronic apparatus, in particular logical elements, electrotechnical and electronic component parts and units consisting thereof, in particular printed circuits, semiconductor component parts, integrated circuits, memory components, resistors, microprocessors; Circuit boards with electrotechnical and electronic assemblies and component parts of computers and data processing installations, and electric and electronic installations for monitoring, testing and controlling industrial working processes and of apparatus and instruments in the mechanical engineering field, in particular semiconductor components; Electronic, electrotechnical and mechanical apparatus, equipment and instruments, in particular for computers and systems constructed from the aforesaid goods, including peripheral apparatus for the acquisition, display, output and transmission of data and for manufacturing and process technology; Computers, in particular computers for research, scientific and industrial purposes, in particular for technical and natural science applications; Data processing programs for these computers recorded on machine-readable data carriers, in particular magnetic disks and tapes and diskettes; Computer software; Electronic and electrotechnical instruments, devices and equipment parts for manufacturing and engineering.

CI.11: Filter devices and filters for heating, steam-generating, refrigerating, drying, ventilating, water supply, water treatment, air-conditioning, and sanitary installations and apparatus; Spare parts for the aforesaid goods; Gas- and water-separating filters; Coalescers, high-pressure, medium-pressure and low-pressure filters, liquid filters, line filters and process line filters, gas filters, including for seal gas systems, cyclone filters and other separating filters, filling filters and ventilation filters, full flow filters and bypass filters, multistage filters, return flow filters, including suction filters and return flow suction filters, tank-integrated filters, including ventilating and drying devices, drum filters and strip winding filters, perforated plate filters and screen filters, off-line filters and inline filters and spin-on filters, plastic melt filters, membrane filters, filter units together with dewatering apparatus; Filter elements. Perforated sheet filter and screen filter elements, gap-type tube filter elements, rheological filter elements, flow filter elements, Filter candles, filter cartridges. Filter housings, Filter sheets and disc filter elements, Filter mats. Filter pots, filter cloths, filter bags. Filter belts, filter packs and depth filter elements, including woven materials for filters; Gas technology installations and components, included in class 11, in particular for use in the automobile industry, including mobile hydraulics, the semiconductor industry, the food industry, aerospace, medicine, pharmacy, oil and gas transport technology, environmental engineering, laboratory and testing technology, household and sanitary systems, as well as in mining and in the field of steelworks, power plants, wind power installations, machine tools, transfer presses and plastic injection moulding machines; Heat exchangers for stationary and mobile applications for exchanging heat between liquid and/or gaseous media; Cooling and heating installations for media therein; Air dehumidifiers.
