Cl.1; Chemical products used in industry, science, photography, as well as in agriculture, horticulture and forestry; unprocessed artificial resins, unprocessed plastics; manure for agriculture; fire extinguishing compositions; tempering and soldering preparations; chemical products used for preserving foodstuffs; tanning materials; adhesives for use in industry; unexposed sensitized films; synthetic resins; thermoplastic and thermosetting synthetic resins and organic compounds for molding, for general use in the industrial arts; chemical intermediates; organosilicon compounds, namely polysiloxanes and silanes in the form of resins, pastes, fluids, elastomers, vulcanization and acceleration products; anti-foaming agents; catalysts for paints; chemicals for development and setting of x-ray films and other chemicals in connection with the development of said films; phosphorescent substances; chemical substances used as nuclear fission materials; fuel for nuclear reactors; fused quartz in various forms, such as disks, ingots, rods and tubes for general use in the industrial arts; adhesives substances for industrial purposes; polycrystalline alumina ceramic for general use in the industrial arts; brazing and soldering fluxes and products; thermoplastic and thermosetting adhesives; chemicals, biochemicals and reagents for use in industry, science and research; chemical products, kits and reagents, for analysis or diagnosis for scientific purposes, namely chemical preparations for cell separation and culture, nucleic acid purification, nucleotides, florescent nucleotides, oligonucleotides, peptides, proteins, amino acids, organic molecules and markers for DNA/RNA synthesis; reagents for luminescence; reagents for gene expression quantification; reagents for polymerase chain reaction processes; reagents for rolling circle amplification processes; reagents for DNA cloning and vectors, enzymes for modification and restriction; reagents for labeling, sequencing and fragment analysis of nucleic acids and proteins and customized synthesis; reagents for recombinant protein expression and purification; chromatography media; reagents for electrophoresis, biocomputing, spectrophotometry and fluorometry; radiochemical products for scientific research; reagents for scintillation proximity assay; test kits and products for high data rate analysis for producing medicines; reagents for high-resolution laser microscopy, fluoroscopic microscopy and confocal microscopy; specialized chemicals for use in industry, science and research; gases and gas mixtures for use in industry, research and science; chemical products and substances for the manufacture of pharmaceutical products, diagnostic products and substances; chemical testing reagents, saline solution and paper coated with reagents, all for scientific use and for use in laboratories; fissile chemicals for scientific research; Radioactive elements and isotopes for use in industry, science and research; radioactive norms and sources for radiographic technology; radioactive sources for non-destructive sterilization, purification and testing, technology; radionuclides for scientific research; chemical compounds and chemicals for use in the treatment of water supply systems, wastewater treatment systems, cooling water circuits, boiler water and steam generating systems, boiler condensate systems, liquid separation systems, systems for water purification and dehydration in aqueous systems, conditioning systems, gas purification systems, industrial process systems, fuel treatment systems, hydrocarbon and gas treatment systems, petrochemical systems and oil and gas treatment systems, paper and pulp making systems, plastic and metal coating systems, metal processing systems; chemicals, namely chemical additives for gasoline, additives for heating oil and additives for improving the efficiency of turbine engine fuel; chemically-treated bagged water-absorbing granular materials for placement into fuel tanks; testing kit comprising reagents for determining the presence of algae and active organic organisms in diesel fuel; bacterial cultures and nutrients for sludge and wastewater treatment; polymeric chemicals for dispersing particles in steam generating equipment; chemicals and chemical compounds used as anti-fouling and demulsifying agents in operations for producing coke by-product operations of steel industries; chemicals, catalysts, plastic semi-processed goods used as materials, filtering materials for removing acid gases, unprocessed plastics, crystal whiskers and zinc oxide; radio-pharmaceuticals for scientific use and for research; polymeric membrane materials for liquid separation.

Cl.2; Paints, varnishes, lacquers; preservatives against rust and against deterioration of wood; dyestuffs; mordants; raw natural resins; metals in foil and powder form for painters, decorators, printers and artists; corrosion inhibitors in the form of coatings for use in the metal finishing industry, namely acid aqueous products for final rinsing; corrosion inhibitors in the form of coatings for cooling water circuits; corrosion inhibitors in the form of coatings, namely resinsous coatings for metal and masonry surfaces; coating materials, etching fluids; toner cartridges for printers; ink cartridges for printers; toners, toners for copiers, toners for facsimile machines.

Cl.3; Bleaching preparations and other substances for laundry use; cleaning, polishing, degreasing and abrasive
preparations; soaps; perfumery, essential oils, cosmetics, hair lotions; dentifrices; cleaning preparations containing chemicals and chemical compounds for cleaning steel, aluminum, galvanized and mixed metal surfaces for general industrial use in the manufacture of metal products; cleaning agents containing chemicals and chemical compounds for industrial use for removing contaminants in industrial process systems; paint stripping preparations containing chemicals and chemical compounds for removing paint from equipment surfaces in spray-painting booth operations.

Cl.5: Pharmaceutical and veterinary products; sanitary products for medical purposes; dietetic food and substances for medical or veterinary use, food for babies; food supplements for humans and animals; plasters, materials for dressings; material for dental fillings and dental impressions; disinfectants; products for destroying vermin; fungicides, herbicides; pharmaceutical preparations for diagnosis; veterinary pharmaceutical preparations for diagnosis; pharmaceutical and veterinary substances for medical use; diagnostic reagents and preparations for medical use; diagnostic substances for medical use; contrasting substances for medical imaging; scanning diagnostic reagents for use in vivo; diagnostic imaging agents for magnetic resonance imaging (MRI); radiopharmaceuticals for clinical and medical use; Radiopharmaceutical norms and sources for nuclear medicine; radioactive pharmaceutical preparations and non-radioactive pharmaceutical preparations for products for in-vivo diagnosis or for therapeutic use; gases and mixtures for medical imaging; pre-filled vials containing reagents for medical diagnosis; pre-filled cartridges containing chemical solutions for medical use; pre-filled cylinders containing gases and gas mixtures for medical use; implantable radiotherapy devices consisting of encapsulated radio-isotope brachytherapy sources; radiotherapy administration system consisting of radioactive pellets and of a bioabsorbable carrier set; disposable paper or cellulose diaper-pants, diapers and napkins.

Cl.7: Machine tools; motors and engines (other than for land vehicles); machine couplings and transmission components (other than for land vehicles); agricultural implements other than hand-operated; incubators for eggs; automation machinery, measuring instruments for production, national industrial and wind energy generators generating electricity; turbines; turbines for energy production; wind turbines linked to wind farms, turbine-powered production installations, namely installations for electricity production; power-generating engines; and parts and components of all the aforesaid goods; solar powered energy electricity generators; machines and machines systems, including parts and accessories for electricity production, transformation and conversion; dynamos, electric motors of all kinds, steam and gas turbines and their parts, electrical generators and their parts, aircraft engines, compressors; laundry washing machines, dishwashers, waste grinders and compactors; pumps, namely centrifugal pumps, diaphragm pumps, bellows pumps, pumps and transfer pumps; liquid control devices, namely valves, regulators, actuators, ejectors, liquid separation cartridges and their parts, including semi-permeable membranes; filtering cartridges for various industrial machines for filtering applications, including for filtering of coating solutions for the manufacturing of magnetic tapes and for filtering of petrochemicals, drinking water, beer in the brewing industry and other special chemicals; machines for supplying and applying chemicals for industrial use; axial-flow and centrifugal compressors; reciprocating compressors; screw and sliding-vane compressors; rotary, vacuum, electric, submersible and centrifugal pumps; turbo-expanders, namely, air and electric compressors; CNG refueling machines for land vehicles and industrial equipment and accessories and parts of all the aforesaid goods, namely pumps, valves, fuel filters, filter housings, distributor rotors, blades, bearings and mechanical joints; steam condensers; boat engines; turbo-compressors for engines; fuel injectors; welding machines, industrial robots, machines for insertion of electronic components, dry etching machines, electric micro-discharge machines, optical discs productions systems, precision connection equipment, treatment machines for printed wiring panels, welding rods, machines for assembling parts, brazing machines, machines for fixing screws, electrical tools; electric motors, electric generators; elevators (lifts); washing and drying machines, electric washing machines, electric dishwashers; compressors (non-surgical); pumps, electric pumps; mixing, cutting and chopping machines, blender machines, electric centrifuges, electric food processors, electric meat grinders, electric can openers, electric knife sharpeners, electric coffee grinders, electric ice crushers, electric waste-processing machines; garden tools, electric lawn mowers, garden vaporizers for disinfectants and insecticides; electric apparatus for cleaning, electric vacuum cleaners, electric floor polishers; electric window cleaners; hand-held electric tools and implements; welding machines, metal cutting machines by arc, gas or plasma; blowers, centrifuges, hand-held mixers, food processors; electric door-opening devices; carbon electrodes for welding; electric arc-welding apparatus; welding electrodes; electric wrenches (tools); fuel pumps for service stations for aircraft engine refueling; fuel distribution equipment, namely calibrated fuel pumps.

Cl.9: Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signaling, checking (supervision), life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; apparatus for recording, transmission or reproduction of sound or images; sound recording disks; mechanisms for coin-operated apparatus; cash registers, calculating machines, equipment for data processing and computers; software; extinguishers; protective helmets for sports; glasses, sunglasses, sports goggles; computer game software; fuel distribution equipment, namely electric fuel-level gauges, control valves for regulating gas flow and fuel lines; automated systems for service-station management comprising operating software for calibrated fuel pumps, flow control panels, fuel lines and pump nozzles for refueling of land vehicles, marine vehicles and aircraft; gas meters; on-board and roadside signaling and communication systems, train inspection systems, crossing notification systems, apparatus for electric control of switching; GPS tracking and monitoring systems for the transit and railway industries; electrical distribution devices and products, namely capacitors, circuit breakers, circuit-breaker patch boards, circuit closers, contact breakers, commutators, contactors, current rectifiers, current limiters, electric contacts, electric collectors, electric conductors, electric connectors, electric controllers, electric inductors, electric power supply systems, distribution boards and branch boxes (electricity), electrical distribution consoles, electrical switchboards and switchboxes; software for persons in charge of troubleshooting and maintenance of programmable controllers, software for cardiac vessel analysis, including heart vessel analysis, also with calculation functions with regard to blood vessels, software for medical patient-monitoring equipment, software for receiving, transmitting and displaying data, software for developing programs for an industrial control system, software for developing programs for the management of production, software for developing programs for the management of real property, software for developing graphic user interfaces and displaying data, software for calculating mortgage...
payments, software for controlling and managing vehicle fleet maintenance services, software for using and accessing commercial computer services, software used by clients to obtain information regarding lease portfolios, software for a radiology information system for radiologists and radiology departments, software for managing databases containing information on employees and patients for archiving purposes and patient monitoring, software installed on and used with PCs and other personal computers, software for accessing and maintaining encrypting and compressed data to radio-paging (transport) systems, software for providing access to web sites so that buyers and sellers can carry out business transactions by electronic means, and software for subterranean navigation, namely navigation of the assembly of a depth probe for oil drilling and drilling assemblies so as to route subterranean installations; electronic, nuclear, industrial and laboratory instruments and apparatus, for testing, measuring, calculating and monitoring; electrical products, electricity production and distribution products and voltage surge protection products, namely lightning conductors, armored rods; condensers (capacitors); switches for lighting; input/output controls and devices; fuses; controls for lighting; switch boxes, LEDs, namely light-emitting diodes, voltage regulators for electric power, voltage surge protectors, voltage surge limiters, voltmeters, electrical circuit boards, relays and timers, solenoids and limit switches, manual full-voltage starters, reduced-voltage starters, electric switches and disconnecting switches, splitters for circuit boards and pumping panels, circuit breakers and disconnecting switches, transformers, electric circuit and electrical equipment, apparatus for measuring and testing electricity, conductors, electricity meters, wattmeters, grounding resistances, humidity and temperature sensors; industrial calibration sensors, push buttons, engine and motor control centers and their electric controls and voltage regulators included in this class; computer programs and software for medical use, industrial use and for research; electrophoresis apparatus; chromatography columns and pumps; apparatus for particle or laser ray microfabrication; apparatus for bio-informatics systems; scintillation apparatus; imaging apparatus for radioactive and luminescent emissions; integrated synthesis and purification systems; oligonucleotide-producing apparatus; optical laser systems for digital imaging; glassware for laboratories; vials and micro-vials; microtiter plates; software for managing hospital operating rooms; software for intensive care information management; software for industrial operation control; software and manuals therefor sold as unit for factory management; graphic interface computer programs for controlling machines in industrial automation; software, graphic applications, data editing graphic applications for industrial and commercial use; communication software for connecting computer network users; software for plastic injection molding; software for controlling, monitoring, simulating, communicating, recording and collecting data and for factory automation; software for integration of manufacturing machine operations, process control, supply of data for displaying, problem monitoring and production report generation; software packages for operating and programming grinders in the manufacturing industry; computer hardware for monitoring industrial processes, namely computer monitors; portable computers; Ethernet cards and cables; computer networking hardware, memory cards; microchips; microprocessors; computer network hubs, switches and routers, computer accessories, displaying devices and terminals; computer whiteboards; processors and system cards; call controllers, operator interfaces, reference interfaces and data collectors; applications for manufacture and control, namely for statistical process control, data collection, direct digital control; document management systems; digital signal processing products and systems, namely, industrial automation controls and programmable logic controllers; adaptive control product in the form of an external controller for optimizing rough and semi-rough cutting performance of machine tools; distributed and remote input/output equipment, input/output modules, interface modules, electricity supplies and assembly equipment; anti-theft and burglar alarm systems; security devices, namely logic programming computers, control panels, electronic burglar detectors, electronic glass-breakage detectors, electronic vibration detectors, magnetic contacts for security systems, electronic switch plates, electronic motion detectors for alarm systems, electronic motion-sensitive switches, fixed connection sires, audio loudspeakers, electronic navigation systems, access control and alarm monitoring systems; fire, heat and smoke alarms and detectors; computer cards access control systems; card readers, card encoders and encoded cards for card-operated access control systems; video cameras; video devices for object recognition; video devices for object tracking; video devices for reading license plates; video devices for checking alarms; video devices for facial recognition; video devices for vehicle recognition; video devices for traffic detection; video devices for access door control and interlocking; video devices for video surveillance or video recording; processes for analyzing digital video images for automatically extracting, recording and reporting information automatically, and remote video monitoring systems for security and surveillance applications; central video monitors; video recorders; apparatus for shooting and filming; closed-circuit video systems; closed-circuit video systems consisting of one or several cameras and camera housings; wireless, short-range and radio-frequency transceivers; transceivers for electrical lines; controlling equipment for operation of closed-circuit cameras; controlling equipment for operation of electronic control equipment, namely numeric-pad controls, matrix switching devices, multiplexers, digital video recorders, integrated swinging panoramic zoom domes, remote video controllers, receivers, electronic alarms, triggers and management control and video transmission devices sold separately or as parts of a closed-circuit camera operating system; personal digital assistants (PDAs) configured for use by real estate professionals; communication interfacing devices for personal digital assistants (PDAs); fiber-optic transmission systems, namely fiber-optic transmitters, receivers and transceivers for transmission of visible signals, audio signals and data via optical fibers; electric switches; electromechanical locking devices; magnetic cards for locks, access control, presence control, alarms and security systems; portable electronic hardware for reception, control, storage, handling, display and transmission of data and for actuating electronic locks; electronic access cards and readers and encoders thereof; magnetic access cards and readers and encoders thereof; memory access cards and readers and encoders thereof; proximity cards and readers and encoders thereof; electronic keys and their readers and encoders; barcode access cards and their readers, encoders and laminators; access keypads; radio-frequency tracking tags; tracking and control systems consisting of one or several radio-frequency beacons, detectors and transceivers for determining and checking the location and movements of tangible assets, stocks and individuals; infrared sensors; computer hardware and software for managing infrastructures and monitoring systems for accessing infrastructures and components thereof, namely control boards, access card readers and video imaging, video surveillance, digital hard disk recording, network transmission and remote access equipment and systems; networked digital video recording, video recorders, video storage servers, applications, access control, alarms and security systems for surveillance and monitoring, computer software and hardware for monitoring and operating access and security systems comprising locking systems, doors, access and identification devices and security cases in the form of boxes for securing keys; surveillance systems sold separately or as components or as parts of the form or sets such as systems comprising one or several surveillance cameras, hidden cameras, closed-circuit television cameras, camera housings, camera stands, lenses, video monitors, video recorders, video storage servers, video recording media, video cassettes, control panel controls, interface modules, input/output controls and devices, interface apparatus for alarms and access control equipment, transceivers, receivers, transmitters, signal processors, multiplexers, matrix switches, controls, control panel casings, switch housings, transformers, switches, splitters, coaxial cables, connectors, motion detectors, microphones and loudspeakers; user interface software and control software for
management of access, security and fire-extinguishing systems; electric locks; portable electronic communication and computer equipment for data reception, control, storage, handling, display and transmission for operating electronic locking devices; electronic key holders, readers and encoders; data processing computer software and hardware; electric power supplies, namely batteries, rectifiers/ regulators of current/voltage and transformers; control panels, namely electronic apparatus designed for automatically monitoring a predefined activity or for detecting an anti-theft system; loudspeakers for sirens and electronic siren controls, namely ringer tone generators and amplifiers for sirens; software for controlling communication equipment for operating and controlling closed-circuit cameras; switching devices integrating magnetically triggered blade switches for anti-theft alarm systems and fire alarm systems, in industrial tracking apparatus, revolution counters, security lock systems for equipment cabinets, industrial position-monitoring apparatus, electric cables and pump and valve monitoring apparatus and home security alarm systems; electric and electronic checking apparatus for detecting the presence of certain substances on individuals, in luggage and freight; and electric and electronic checking apparatus for detecting the presence of explosives and/or narcotics on individuals, in luggage and freight; apparatus for detecting the presence of explosives and other contraband; timers or sensitive apparatus for detecting changes in conditions for launching and monitoring regeneration or washing cycles for water treatment equipment; control valves for water treatment and filtering equipment; bioreactors for cell culture; portable and mobile electronic apparatus, namely apparatus for converting organic and inorganic products in water; filters and filter housings for laboratories; membrane filters for laboratories; silt density measuring devices; deionization devices for laboratories, filters and filter housings for laboratories; liquid separating apparatus for laboratories; membranes for laboratories; liquid flow control devices, namely pumps, valves, flow meters and regulators for laboratories; ozone monitoring instruments; laboratory equipment, namely porous titration microplates for cellular biology and other applications in life sciences; electronic controls for water treatment and processes, namely apparatus for treatment of industrial and commercial water supply systems, boiler water systems, water cooling systems, cooling water systems and closed water-supply systems, systems for paper and pulp treatment, fuel treatment systems and metal treatment systems for analyzing the chemistry of the system, determining the proper treatment program, applying the desired treatment and monitoring the effectiveness of the treatment; data management systems for bioreactors, electronic controls for water treatment, pulp and paper treatment; apparatus for industrial water-supply systems for measuring and checking pH and conductivity; apparatus for supplying an industrial, commercial or municipal water supply system with measured quantities of chemicals; electronic testing apparatus for water treatment; laboratory testing equipment, namely apparatus for testing deposit levels and corrosion speed; mobile laboratory equipped with equipment and instruments for measuring and monitoring pH, conductivity and concentration of chromate in domestic and industrial waters, for carrying out inorganic and microbiological water testing; electronic and electrochemical products, namely fuel cells; apparatus for converting photo-electric radiation to electrical energy, namely, photovoltaic solar modules, hybrid photovoltaic solar modules, electronic sensors for measuring solar radiation, photo-cells; apparatus for converting electronic radiation to electric energy, namely photovoltaic solar modules, systems and components and all related system components; printers, laser printers, ink-jet printers, multi-function and multi-purpose printers, parts of all the aforesaid goods; portable electronic devices for wireless reception and/or transmission of data, enabling users to store or manage personal information and to transmit and receive voice, video and image communications; software for synchronization of data between a remote unit or station and a fixed unit or station, and software providing a one-way and/or two-way wireless connection to data; portable digital electronic apparatus and software related thereto; portable electronic devices for wireless data reception and/or transmission; software for re-orientation of messages, electronic mail and/or other data from a personal computer or a server towards one or several portable electronic devices; computer software and programs for wireless device operation and management; telecommunication devices; software for accessing, searching, indexing and retrieving information and data from global computer networks and global communication networks, and for navigation on the aforesaid networks websites; software for sending and receiving short messages and electronic mail and for filtering non-text information from data; portable electronic devices for voice, video, data and image communications; computer game software for mobile telephone receivers; electronic game software for mobile telephone receivers; software packages; battery packs and batteries and battery chargers, storage batteries, solar cells, carbon electrodes for dry batteries, wiring apparatus, connectors (electric), electric cables, electric ducts, floor ducts specially designed for housing electric cables, ballast (for discharge lamps), under carpet wiring systems, code lighting-switches, circuit breakers, magnetic contactors and starter switches, circuit protectors, switching devices, electric connecting boxes, device switches, output jacks, plugs (electric), insulating materials, electric timers, other wiring devices; apparatus and parts of all the aforesaid goods; video projection systems, video projectors, video cassette recorders, camcorders, video cameras, video printers, laser disc players, video CD (compact disc) players, software for video CD (compact disc), video recorders/players for DVDs, color video systems for large-scale display, cable television systems, hard disk units, video imaging devices, electric optical display boards, multi-purpose electric display systems, closed-circuit video equipment systems, software for DVDs, television cameras, video switches, non-linear editing systems, editing controllers, DVD creation systems, linear emitting diode (LED) display, color (colorabit) electronic microdisplay apparatus; optical disc units, optical disc recorders, optical disc players, optical disc changers, optical disc cartridges, optical disc recording systems; communication apparatus and machines, facsimile transceivers, transceivers, telephones, cellular mobile telephones, cases for cellular mobile telephones, telephone answering machines, private auto-switch systems, global positioning system receivers, radiotelephones, marine radars, radio-paging receivers, mobile communication systems, satellite control and access, radio/communications for traffic information systems, electronic document management systems, portable computer systems, personal digital assistants, hand held computers, personal communication systems, portable telephones, local network systems, AV codecs (coder-decoders), navigation systems for cars (road guidance systems), electronic systems for road toll collection, GPS (global positioning system) antennas; surveillance (monitoring) apparatus and instruments, communication and surveillance systems for apartment structures, intruder
devices, ultraviolet sterilization devices, ion exchangers, systems for regeneration of acids and caustic products, reverse osmosis water purification devices; depth filter units and cartridges for household use, namely water softeners and water conditioners; support filters and depth filters for removing deposits, namely liquid purification devices; water treatment equipment, namely cartridges; water treatment equipment for electrochemical purification devices for liquids for industrial, commercial and municipal use; water filtering devices for osmosis systems, forced-air carbonate removal devices, filters, systems for supplying chemicals and devices for storage sleeve for concentrating goods and removing impurities in liquid treatment systems; water conditioning devices for lamps of all kinds and their parts; electric lighting accessories and their parts; freezers, air-conditioning apparatus, ventilation hoods for stoves and exhaust fans; water filters; water softeners; laundry driers; electric fans, ceiling fans, household, industrial and commercial use; wastewater purification units; drinking water purification devices for water; apparatus and installations for lighting, incandescent lamps, gas discharge starters, grooved fluorescent lamps,
supply chain management services and consulting services relating to the purchase and supply of chemical services and products, supply management and product inventory, limitation of costs; consulting, marketing, analysis of prices and with the management of power plants, commercial services, namely administration of contracts for repair and servicing, databases; consultation for advertising by means of direct marketing for others consisting in marketing of databases; others by means of the so-called image transfer; rental of advertising space of all type and on all media, whether digital or not; business administration of the participation of national teams to an international athletic competition, and promoting the support to said teams with the public and the concerned circles; inventory management services; consultation services in the field of commercial and consumer credit, financing of real estate loans and financial and banking services; lending against collateral; acquisition financing services; commercial financing services; commercial real-estate agency services; raising capital; loan and private capital investments; information, assistance and consultancy in all the aforesaid fields, lease-purchasing of mobile and modular structures, insurance brokerage services, credit agency services, management of real estate investments, financial and banking services; electronic transactions by credit and debit card; provision of information in connection with e-commerce and electronic retail sale; provision of information concerning the purchase of goods and services on line via the Internet and other computer networks; tourist documentation services, namely advertising concerning transport, travel, hotels, accommodation, food and meals, sports, entertainment and sightseeing tours, tourist agency services; maintenance of computerized databases.

Cl.12; Vehicles; apparatus for locomotion by land, air or water; electric motors and diesel engines for land vehicles; bicycles, tires and tubes for bicycles, automatic vehicles, electric bicycles; tires.

Cl.14; Parts, ingots and medals of precious metals or their alloys, whether commemorative or not; jewelry, precious stones; pins; timepieces and chronometric instruments; key rings.

Cl.25; Clothing, footwear, headgear.

Cl.32; Beers; mineral and aerated waters and other non-alcoholic beverages; fruit beverages and fruit juices; syrups and other preparations for making beverages.

Cl.35; Dissemination of advertising matter via all media, particularly in the form of thematic messages centered on human values; advertising by sponsoring; business management; business administration; office functions; promoting the goods and services of others, by means of contractual agreements, in particular sponsoring and licensing agreements, enabling them to gain additional notoriety and/or enhanced image and/or a surge of sympathy derived from the notoriety and/or enhanced image resulting from cultural and sporting events, in particular international events, and/or a surge of sympathy generated by the above; promoting the goods and services of others by means of what is referred to as the initial interest factor leading the public to consider, among a multitude of competitors, goods or services presented to the public; bearing signs, emblems or messages able to capture its attention; promoting the goods and services of others by means of the so-called image transfer; rental of advertising space of all type and on all media, whether digital or not; business administration of the participation of national teams to an international athletic competition, and promoting the support to said teams with the public and the concerned circles; inventory management services; consultation relating to stock monitoring services; advertising by means of direct marketing for others consisting in marketing of databases; consultation for advertising by means of direct marketing for others consisting in marketing of databases; advisory services in connection with business reorganization; truck and automobile fleet management services, namely billing and consulting in connection with the administrative management of truck and automobile fleets; business administration consultancy; administrative management of power plants of others; business consultation in connection with the management of power plants; commercial services, namely administration of contracts for repair and servicing, supply chain management services and consulting services relating to the purchase and supply of chemical services and products, supply management and product inventory, limitation of costs; consulting, marketing, analysis of prices and costs concerning devices for electrochemical purification of liquids for industrial use; administrative, commercial and technical management of computer files; data input and processing services; retail sale of electric and electronic machines and apparatus (the bringing together, for the benefit of others, of a range of goods so as to enable customers to view and purchase said goods at their convenience in a retail store carrying electrical goods), information concerning the sale of goods, commercial information agencies, commercial photography, production of documentation, namely direct mail advertising, distribution of advertising material, distribution of samples, reproduction of documents; advertising concerning the promotion of commercial sales of goods and services for retail sale purposes; provision of information in connection with e-commerce and electronic retail sale; provision of information concerning the purchase of goods and services on line via the Internet and other computer networks; tourist documentation services, namely advertising concerning transport, travel, hotels, accommodation, food and meals, sports, entertainment and sightseeing tours, tourist agency services; maintenance of computerized databases.

Cl.36; Insurance underwriting; financial affairs; banking; monetary affairs; real estate affairs, credit card services; financing of sporting and cultural activities; rental of buildings and outbuildings designed for hosting corporate entertainment events; equity and private mark financing services; financial analyses and consultation; financial services in connection with credit cards; credit card services, namely granting credit to others; financial asset management for others; insurance and reinsurance services, namely underwriting of all types of insurance; equity capital investment services; insurance underwriting services in the field of bonds; financial security underwriting services; personal loan financing; lending against collateral; acquisition financing services; commercial financing services; commercial real-estate agency services; raising capital; loan and private capital investments; information, assistance and consultancy in all the aforesaid fields, lease-purchasing of mobile and modular structures, insurance brokerage services, credit agency services, management of real estate investments, financial and banking services; electronic transactions by credit and debit card; provision of information in connection with e-commerce and electronic retail sale; provision of information concerning the purchase of goods and services on line via the Internet and other computer networks; tourist documentation services, namely advertising concerning transport, travel, hotels, accommodation, food and meals, sports, entertainment and sightseeing tours, tourist agency services; maintenance of computerized databases.
safe deposit system services; payment processing services; transaction authentication and verification services; provision of financial information via a global computer network; financial sponsoring of festivals and concerts; financial services for purchasing goods and services sold in retail at points-of-sale for promotion purposes; information services in the field of tourism, namely financial information; financial services for tourist assistance purposes; lease-purchasing of telephones, facsimile machines and other telecommunication equipment; lease-purchasing of transport containers.

Cl.37; Construction; replacement, overhaul and maintenance of power plants, motors and engines, turbines, wind turbines and apparatus, equipment and instruments for energy and electricity production and their parts, components and accessories; installation, maintenance and repair services for compressors and pumps, namely machines, turbo-expanders, fuel pumps and fuel distribution equipment, CNG refueling equipment, gas turbines, steam turbines, air-cooled heat exchangers, steam condensers, heavy-wall reactors and tubular reactors; maintenance and repair services for oil and gas pipelines; drilling and pumping of oil and gas; drilling for crude oil; installation of tubes and pipelines for drilling of oil wells; rental of tools for drilling oil and gas wells; remote monitoring, diagnosis, repair and maintenance for the repair and maintenance of airplane engines, turbines, electrical equipment, locomotives, including parts of all the aforementioned, construction equipment; cleaning of condenser equipment; repair and maintenance of glass-coated reactor vats used in the chemical and pharmaceutical treatment industries; maintenance services for heat transfer systems and of condensers; maintenance and repair services for equipment with computerized cooling systems; repair and maintenance services for machines, instruments, apparatus and electrical equipment; maintenance and repair services in the oil and gas field; services relating to installation of point-of-sales terminals in stores; computer maintenance services; installation and repair of electric apparatus; repair of radio receivers and television receivers; repair and maintenance of electric apparatus and instruments for communication; repair and maintenance of electric household appliances; repair and maintenance of electric lighting apparatus; repair and maintenance of electric apparatus for distribution and control; repair and maintenance of electric motors; repair and maintenance of machines and instruments for measuring and/or testing; repair and maintenance of medical apparatus and instruments; repair and maintenance of metalworking machines and tools; repair and maintenance of automatic vending machines; repair and maintenance of water purification apparatus; repair and maintenance of musical instruments; repair and maintenance of watches and clocks; repair and maintenance of gas-fired water heaters for household use; repair and maintenance of bathtubs; repair of toilets with water points; installation or repair and maintenance of computer hardware; repair and maintenance of air-conditioning apparatus; installation, maintenance and repair of office equipment and machines; installation, repair and maintenance of machinery equipment; vehicle repair; repair and maintenance of electronic apparatus and communication equipment and instruments; repair and maintenance of electronic printers; repair of telephones; electrical work and installation of telecommunication equipment; installation, maintenance and repair of compressors, pumps, namely, machines, turbo-expanders, fuel pumps and fuel distribution equipment, CNG refueling equipment, gas turbines, steam turbines, air-cooled heat exchangers, steam condensers, heavy-wall reactors and tubular reactors; repair and maintenance of oil and gas wells.

Cl.38; Telecommunications; television program broadcasting, broadcasting of televised programs (live or recorded); cellular telephone communication; communications by electronic computer terminals, by databases and by telecommunication networks connected to the Internet; communications by telex; communications by telegrams; communications by telephone; communications by facsimile machines; radio paging; teleconferencing communications; television broadcasting; cable television; radio broadcasting; news agencies; other message transmission services; broadcasting of a commercial site on the Internet; radio and television broadcasting provided via the Internet; electronic messaging; providing access to computer information newsletters and to discussion forums on line; transmission of messages and images via computers; providing access to home and office shopping services via computer and/or interactive communication technologies; telecommunication of information (including web pages), of computer programs and of all other data; electronic messaging services; providing user access to the Internet; services of telecommunication connections to the Internet or to databases; providing access to digital music web sites on the Internet; providing access to MP3 web sites on the Internet; rental of access time to a central database (telecommunications); provision of access to search engines; operating discussion forums on the Internet; rental of access time to a central server database; rental of access time to a computer database (telecommunication services); simultaneous broadcasting, in particular by means of electronic transmissions, of films, audio recordings and/or video and messaging services, in particular services enabling a user to send and/or receive messages via a wireless data network; one-way and two-way messaging services; electronic transmission of data, images, documents and audio and video data, including texts, cards, letters, messages, mail, animations and electronic mail, via local or global communication networks, including the Internet, intranets, extranets, television, mobile communication networks, cellular networks and satellite networks; electronic transmission of software via local or global communication networks, including the Internet, intranets, extranets, television, mobile communication networks, cellular networks and satellite networks; providing access to databases and to local or global communication networks, including the Internet, intranets, extranets, television, mobile communication networks, cellular networks and satellite networks; transmission and relay of messages, namely electronic transmission of messages; telecommunication services for the dissemination of information by mobile telephone, namely, transmission of data to mobile telephones; communication by mobile telephone; voice communication transmission and reception; transmission and reception on a value-added network; telecommunication services by telematic means and by multimedia networks; rental of access time to a database server center; operating networks for transmission of value-added data (multimedia systems, interactive videography, global computer telecommunication networks).

Cl.41; Sporting activities; televised sports entertainment; operating lotteries; betting and gambling services in connection with or relating to sports; organization of sporting activities and events; organization of real or virtual sporting competitions; operation of sports facilities; rental of audio and video equipment, production of films, other than advertising films; production of sound and video recordings; presentation and distribution of films and of sound and video recordings; rental of sound and video recordings; rental and/or provision via a computer network of interactive education and entertainment products, namely interactive compact discs, CD-ROMs, computer games; entertainment, namely presentation of interactive education and entertainment products, namely interactive compact discs, CD-ROMs, computer games; radio and television coverage of sporting events; production of television and radio programs and of videotapes; production of cartoons; production of animated programs for television; reservation of tickets for sporting events and shows; timing of sports events; interactive entertainment; on-line betting services; provision of games on the Internet; provision of raffle services; information concerning entertainment or education, provided on line from a data bank or the Internet; electronic game services provided by means of the Internet; provision of electronic publications on line; publication of books, magazines, texts (other than publicity texts) and periodicals; on-line publication of electronic
books, magazines, texts (other than publicity texts) and periodicals; provision of digital music from the Internet; provision of digital music from MP3 web sites; provision of sporting results; information services concerning sports and sporting events; rental of recorded sounds and images; audio production services; information services concerning sporting events provided on line from a computer database or the Internet; editing and publishing services; provision of digital music (non-downloadable); offering digital music by means of telecommunication; broadcasting of sporting events and audience ratings for sporting competitions; showing of seats for shows; movie presentations; entertainment information; production of films; theater production services; operation of golf facilities; health club services (fitness training); sports camp services; presentation of live performances; film projection; organization of shows (imprésario services); holiday camp services [entertainment]; movie studios; news reporters services; provision of on-line electronic publications, not downloadable; music hall services; provision of educational material, namely dissemination of material in the field of financial knowledge; information services in the field of tourism, namely information services regarding reservation of tickets for recreational events; information services in the field of tourism, namely information services regarding planned sporting, cultural and recreational activities; services in connection with entertainment for tourist assistance; tourist reservation services, namely activity and entertainment reservation services; assistance services for tourists concerning reservation of tickets for recreational events; assistance services for tourists concerning planned sporting, cultural and recreational activities.

Cl.42: Scientific and technological services and research and design relating thereto; industrial analysis and research services; carrying out laboratory analyses; design and development of computers and software; services relating to wind and wind energy, namely professional consultancy and engineering services; design for others in connection with wind energy; industrial design services; design of equipment and installations for generating energy, wind energy and systems for checking inventories and tangible assets for others; laboratory and testing services for liquid separation and distillation equipment; CNG refueling equipment, gas turbines, steam turbines, air-cooled heat exchangers, steam condensers, heavy-wall reactors and tubular reactors; information technology solution services in the field of railway and road transit industries on a global scale; research, consultancy and assistance services in connection with engineering, design and development problems encountered by governments, individuals and industrial, commercial and utility companies; consultancy services concerning machines, apparatus and instruments; computer programming services for others; software design and analysis services for others; software development services for others; in addition to information technology consultancy services; maintenance and updating of computer software for others; installation of software; design and analysis of computer systems for others; consultancy services relating to chemical research; consultancy services in connection with the discovery and evaluation of medicines and components with diagnostic, prophylactic and/or therapeutic properties; consultancy services concerning diagnostic methods by means of optical laser systems; tests for high data rate analysis for producing medicines; customer synthesis and analysis services; biotechnology services; technical assistance in connection with factory automation software, namely maintenance of software and periodic updating of software; customized design of security access systems; design and consultancy services relating to configuration of systems used in fiber-optic technology applications; technical assistance services, namely resolution of problems in connection with computer hardware, video and electronic communication and computer software; technical consultancy services relating to information technology and software in the field of access and security systems; technical consultancy services relating to surveillance cameras; customized design of security systems, access systems and systems for checking inventories and tangible assets for others; laboratory and testing services for liquid separation and membrane testing; engineering and technological consultancy services regarding water treatment, water supply systems, cooling water circuits, industrial boiler water systems, systems for water supply and industrial processes, industrial fuel treatment systems, pulp and paper making systems, systems for treating plastics and metals; engineering and technical assistance services concerning the design and configuration of systems comprising computer hardware and software for use in treatment of water supply systems and pulp and paper making systems, oil and petrochemical product treatment systems and metal and plastic finishing operations; consultancy services in all the aforesaid fields; chemical testing concerning supply of chemical treatment products via industrial water systems; programming for information processing machines, in particular programming services in the field of electronic money; development of computer programs for securing data transfers; industrial research and development services in the field of information technology; all technical consultancy in the field of information technology; development of computerized databases and computer programs; development of software concerning machines, apparatus and instruments; rental of data processing apparatus; computer engineering services; consultancy regarding computer programming and data processing, particularly in connection with financial transactions; hosting of computer sites [Web sites]; software maintenance; provision of Internet search engines; quality control; recovery of computer data; research and development of new products (for others); technical project study; land surveying; updating of software; maintenance of software, engineering, testing and research concerning electric machines, apparatus and instruments, computer rental; recovery of data, images, documents and of audio and video data, including texts, cards, letters, messages, mail, animations and electronic mail, via local or global communication networks, including the Internet, intranets, extranets, television, mobile communication networks, cellular networks and satellite networks; identification and testing of microbiological organisms of value to computer servers (multimedia systems, interactive videography, global computer networks for telecommunications); consultancy regarding information technology management.

Cl.43: Services for providing food and drink; temporary accommodation; cafeteria and restaurant services; welcoming and hospitality services, namely providing food and drink; temporary accommodation; bar services; cafes; rental of meeting rooms; tourist homes; providing information in the field of tourism, namely accommodation information; providing information in the field of tourism, namely information on provision of food and meal; accommodation services for tourist assistance; services in connection with providing food and meal for tourist assistance; reservation services for tourism, namely reservation of hotel rooms and of food and meal; information services in the field of tourism, namely information concerning the reservation of hotel rooms, accommodation, food and meal; assistance provided to tourists concerning the reservation of hotel rooms, accommodation, food and meal; tourist reservation services, namely reservation of hotel rooms, accommodation, food and meal; rental of mobile and modular structures.
