Cl.7; Chemical machines and instruments; printing or book binding machines and instruments; plastic working machines and instruments; semiconductor device manufacturing apparatus; rubber products manufacturing machines and instruments; motive power machines and instruments (exclusive of those for land vehicles), parts of motive power machines and instruments; pneumatic and hydraulic machines and instruments; starters for motors and engines, alternating current motors and direct current motors (exclusive of alternating current motors and direct current motors for land vehicles (exclusive of parts thereof)), alternating current generators, direct current generators; mechanical parking systems; boilers for prime movers and engines.

Cl.9; Computers used for monitoring and controlling various facilities; computer software used for monitoring and controlling various facilities; recording media in which computer software used for monitoring and controlling various facilities is recorded; computers used for monitoring and controlling operational statuses of turbines, boilers, engines and machines and instruments installed in plants, power plants, factories, laboratories and ships; computer software used for monitoring and controlling operational statuses of turbines, boilers, engines and machines and instruments installed in plants, power plants, factories, laboratories and ships; recording media in which computer software used for monitoring and controlling operational statuses of turbines, boilers, engines and machines and instruments installed in plants, power plants, factories, laboratories and ships is recorded; computer software; computer hardware; computers; computer software used for managing electronic data; recording media in which computer software used for managing electronic data is recorded; computer software used for managing and processing database; recording media in which computer software used for managing and processing database is recorded; server computers for remote monitoring and controlling systems; signal processing devices for remote monitoring and controlling systems; remote monitoring and controlling devices for construction facilities, including power plants, plants and factories; remote monitoring and controlling devices for controlling and monitoring operational statuses of turbines, boilers, engines, machines and instruments installed in plants, power plants, factories, laboratories and ships; remote controlling devices; data storage units; liquid crystal displays; measuring apparatus and instruments; electrical distribution or control machines and instruments, rotary converters, phase modifiers; batteries; electrical and magnetic measuring instruments; electrical communication machines and instruments; electronic machines and instruments and parts thereof, satellites for scientific purposes; sports training simulators; vehicle driving training simulators; fire extinguishers, fireplugs, nozzles for fire hose, sprinkler fire extinguishing systems.

Cl.11; Industrial furnaces; nuclear reactors; boilers (exclusive of parts of motive power machines and those for engines); refrigerating machines and instruments; drying apparatus for chemical processing, recuperators for chemical processing, steaming apparatus for chemical processing, evaporating apparatus for chemical processing, distillation apparatus for chemical processing, heat exchangers for chemical processing; water purifying apparatus; garbage incinerators for business use; garbage incinerators for domestic use.

Cl.13; Rockets for observation and parts and accessories therefor.

Cl.37; Repair and maintenance of computer hardware; operation of construction facilities; ship construction; repair and maintenance of ships; repair and maintenance of fire alarms; repair and maintenance of mechanical parking systems; repair and maintenance of industrial furnaces; repair and maintenance of rubber products manufacturing machines and instruments; repair and maintenance of water purifying apparatus; repair and maintenance of boilers; repair and maintenance of pumps; repair and maintenance of refrigerating machines and instruments; repair and maintenance of computers including central processing units, electronic circuits and magnetic discs in which computer programs are recorded, and other computer peripherals.

Cl.42; Design and maintenance of computer systems for monitoring and controlling various facilities; design, creating, upgrading, maintenance and configuration setting of computer software for monitoring and controlling various facilities; design and maintenance of computer systems for monitoring and controlling operational statuses of turbines, boilers, engines and machines and instruments installed in plants, power plants, factories, laboratories and ships; design, creating, upgrading, maintenance and configuration setting of computer software for monitoring and controlling operational statuses of turbines, boilers, engines and machines and instruments installed in plants, power plants,
factories, laboratories and ships; design, creating, upgrading, maintenance and configuration setting of computer software for managing electronic data; design, creating, upgrading, maintenance and configuration setting of computer software for computer database; troubleshooting for problems in computer software (technical assistance); design of computer databases; design and maintenance of computer systems; design, creating, upgrading, maintenance and configuration setting of computer software; introduction and explanation concerning performance, methods of operations and the like of computers, motor vehicles and other machines which require expertise, skills or experiences of high degree in order to operate properly for respective purposes of use.
