Cl.1; Chemicals used in industry, science and photography, as well as in agriculture, horticulture and forestry; acids; artificial resins, unprocessed; adhesives used in industry; alkalies; alkaline metals; alkaline-earth metals; anti-knock substances for internal combustion engines; antifreeze; brake fluid; brazing fluxes and preparations; carbon; carbide; catalysts; ceramic glazings; combustible preparations (chemical additives to motor fuel); chemical preparations for decarbonizing engines; distilled water; finishing preparations for use in the manufacture of steel; electroplating additives, compositions and solutions; fire extinguishing compositions; film strength improving agents; fluids for hydraulic circuits; fuel-saving preparations; galvanizing baths and preparations; graphite for industrial purposes; iron oxides; iron salts; rubber preservatives and magnetic ferro-alloy; magnetic fluid for industrial purposes; magnetic iron-oxide; magnetic metallic iron; metal hardening and tempering preparations; metal earths; plastics (unprocessed); plastics and plastic products in the form of chips, dispersions, emulsions, flakes, foams, gels, granules, liquids, masses, pastes, pellets and powders; plastic used for use in industry; plastic material of synthetic origin; plastic material of natural origin; plastics as raw materials; plastic substances containing artificial resins; plasticisers; plasticisers for use in natural and synthetic polymers; plastics for sealing and stoppages; plastics for the production of expanded and foamed materials; thermoplastic polymeric compounds; polymer and polymer based compounds for use in manufacture; polymer beads, coatings, materials, particles and solutions; polymeric emulsifiers, intermediates and materials; power steering fluid; transmission fluid; refrigerants; refrigerating preparations; soldering chemicals and fluxes.

Cl.6; Common metals and their alloys; goods of common metals not included in other classes; ores; metal building materials, including architectural fittings and door and window furniture; transportable buildings of metal; materials of metal for railway tracks; non-electric cables of metal; wire of common metal; wire of common metal alloys (except fuse wire); non-electric wires with cores; non-electric cable boxes of metal; non-electric cable connectors and couplings of metal; cable clips, grips, straps and supports, all of metal; cable ducts made of metal (other than electric); cable joints, junction sleeves, trays, and trunking, all of metal (other than electric); non-mechanical cable drums of metal; cable trays of metal (other than electric); clips of metal for pipes; non-electric wires for cables; wire baskets, cages, clamps, cloth, eyes, gauze, hooks, hook spirals, lashings, mesh, mesh panels, nets, netting rods, ropes, rope clamps, rope clips, stands, strands and thread; wire for aerials; wire for frayed and strands; wire hoops on which ferrules and pipe fittings are assembled; wire cloth and gauze; wire rope; wire stretchers (tension links); ironmongery; small items of metal hardware; locks, latches, lock barrels, keys and security bolts; fasteners, washers, screws, bolts, nuts, rivets, nails and connectors, all of common metals; laminates; laminates composed of metal sheets; laminates made principally of metal sheets with fibre reinforced materials; winding keys of metal (Terms considered too vague by the International Bureau - rule 13(2.b) of the Common Regulations); winding spools of metal (non-mechanical) for cable, wire and flexible hoses; iron; chrome iron; silicon iron; silicone iron; iron alloys; iron carbon alloys; iron castings; iron ores; iron slabs, strip and wire; iron powder; core plugs of metal; cored solder; aluminium wire; cast iron, unwrought or semi-wrought; chrome iron; chrome ores; chromium; pipes and pipe work of metal; pipes of metal, for central heating installations; pipes and pipework of or incorporating metal for use in vehicles; plugs of metal; rings of metal; sealing caps of metal; steel pipes and tubes; tension links; titanium; titanium iron; tool boxes and chests of metal; tool handles of metal; tungsten; tungsten iron; valves of metal (other than parts of machines); wheel clamps (boots); window frames of metal; parts and fittings for all the aforesaid goods.

Cl.7; Machines and machine tools; motors and engines (except for land vehicles); airport ground power equipment (Terms considered too vague by the International Bureau - rule 13(2.b) of the Common Regulations); alternating current generators and motors; alternating current motors for airborne vehicles; alternating current motors for jet engines; alternators; alternator brush holders; alternators for commercial vehicles and trucks; anti-friction bearings and pads for...
machines; anti-pollution devices for motors and engines; belts for conveyors, machines, motors and engines; brake linings, segments and shoes other than for vehicles; carbon brushes (electricity); carburettors; carburettor feeders; catalytic converters; centrifugal machines and pumps; clutches other than for land vehicles; compressed air engines, machines and pumps; compressors (machines); compressors for refrigerators; connecting rods for machines, motors and engines; control cables and mechanisms for machines, engines or motors; couplings and connectors, other than for land vehicles; cranks (parts of machines); crankshafts; crank cases for machines, motors and engines; current generators; cylinder heads for engines; pistons for cylinders; cylinders for machines, motors and engines; die-cutting, capping and stamping machines; drilling machines; driving chains and motors, other than for land vehicles; ejectors (pumps); electric alternators; electric alternating current generators and motor drives; electric alternators for aeronautical and space installations; electric alternators for use in clearing or cleaning; electric chain hoists; electric door motors, other than for land vehicles; electric drives and driving motors (other than for land vehicles); electric drives and driving motors for aircraft, elevators, lifts, machines, machine tools and water vehicles; electric gear shifting apparatus (other than for land vehicles); electric ignition apparatus for internal combustion engines; electric ignition coils and devices (other than for igniting at a distance); electric jacks; electronic starters for engines and motors; dynamo belts and brushes; electric motors for aircraft and water craft; electric power tools; electric propulsion machinery for land vehicles; electrically operated hand-guided tools; electrically operated hand-guided tools; electric winches; electricity generating apparatus; electric generators; electric generator power sets; emergency power generators; exhausts for motors and engines; fuel conversion apparatus for internal combustion engines; fuel economisers for motors and engines; gear boxes and gears, other than for land vehicles; glow plugs for diesel engines; hydraulic engines, motors and turbines; hydraulic and pneumatic controls for machines, motors and engines; igniting devices for internal combustion engines; igniting magneto for engines; injectors for engines; lubricating pumps; lubricators (parts of machines); magnetic components for controlling, conveying and feeding ferrous parts; magnetic separators; magnetic sheet metal separators; machining apparatus; exhaust manifolds for engines; moulds (parts of machines) and moulding machines; pistons for cylinders, engines and machines; piston segments; piston rings and sleeves; pneumatic transporters; power driven embossing; power driven hand tools; power generating apparatus; power operated power operating machinery for machining of metal; power operated power operating tools for industrial purposes; power operated tools for use in vehicle maintenance; power operated valves; pressure regulators and valves; propulsion mechanisms, other than for land vehicles; pumps (parts of machines, engines or motors); vacuum pumps (machines); pumps for heating installations; radiators (cooling) for motors and engines; railroad construction and rail-laying machines; reduction gears, other than for land vehicles; regulators (parts of machines); silencers for motors and engines; sparking plugs for internal combustion engines; speed governors for machines, engines and motors; steam engines; steam engine boilers; superheaters; tools (parts of machines); torque converters, other than for land vehicles; transmission chains and shafts, other than for land vehicles; transmissions, other than for land vehicles; turbines other than for land vehicles; turbo compressors; waste disposers (machines); water heaters (parts of machines); winches; wrapping machines; fuel economisers; parts and fittings for all the aforesaid goods; electric door closers, openers and operators; electroplating apparatus and instruments; galvanizing apparatus; self-regulating fuel pumps; gas generators (installations); electric operators (motors) for land vehicles; electric operators (switches) for windows, including vehicle windows.

C1.8: Hand tools and implements (hand-operated); cutlery; side arms; razors; punches and centre punches (hand tools); cutting tools (hand tools); dies (hand tools); levers; hand operated lifting jacks; pen knives; rammers; rasps and ratchets (all being hand tools); scissors; sharpening apparatus and instruments; sharpening steels; stamping-out tools (hand tools); stamps (hand tools); stretchers for wire and metal bands (hand tools); tap wrenches; taps (hand tools); tongs; tube cutting apparatus and instruments; vices; parts and fittings for all the aforesaid goods; punching dies.

C1.9: Scientific, naval, surveying, electrical, electronic, optical, weighing, measuring, signalling, checking (supervision), life saving and teaching apparatus, equipment and instruments; aerials and antennas; acidimeters for batteries; air analysis apparatus; alarms; altimeters; amplifiers; anti-interference devices (electricity); anti-theft warning apparatus; apparatus for recording, transmission or reproduction of data, images or sounds; armatures (electricity); automotive electrical and electronic components; automotive potentiometers, sensors, switches and resistors; balancing apparatus; bar codes and related apparatus; bar codes and related readers; batteries for vehicles; barometers; batteries; barometers; barometers; barometers; cable for electronic and electromagnetic transmission; electric cable installations; cable outlets for electric and electronic cables; cable assemblies for mounting transducers; electric and electronic cable boxes, channels, connectors, couplings, ducts and protector modules; cable conduits of plastic materials for wiring harnesses; cable covering panels for electric and electronic cables; cable covers (conduits); cable detectors and locators; cables for glands with use for electrical and electronic apparatus; cable identification markers for electric and electronic cables; cable installations for the transmission of data; electric and electronic cable joints of metal; cable junctions and ladders for electric and electronic cables; cable management installations for power transmission; cable sleeves for the marking of electric and electronic cables; cable splicers for electric and electronic cables; cable trays for electric and electronic cables; cable for transmitting signals; electric wires; electric wires of metal alloys; wiring apparatus for electricity; wire connectors; wire conduits of plastic; wire gauges; wire hangers and hanger assemblies (Terms considered too vague by the International Bureau - rule 13(2.b) of the Common Regulations); wire incorporating shielding against electromagnetic interference; wire patch cords; fuse wire; electric and electronic wiring connectors; wiring harnesses; calibrating rings; cassette and disc players, including those for vehicles; cathodes; cathodic anti-corrosion apparatus; cell switches (electricity); central processing units (processors); chips (integrated circuits); chocking coils (impedance); contract electronic systems, subsystems and printed circuit board assemblies; chronographs (time recording apparatus); circuit breakers, closers and connectors; commutators; compact and mini-disc players and recorders; computer hardware; computer software; computer systems and related equipment; computer software and publication in an electronic form supplied on-line from computer software or from facilities provided on the Internet (including web-sites); computer software to enable searching of data; pre-recorded and blank discs, diskettes, cartridges, cassettes, compact disks, CD-ROMs, DVDs, mini-disks and tapes; video films; magnetic data carriers and encoders; databanks; computer memories; computer operating programmes; condensers (capacitors); copper wire insulators; couplers; couplings (data processing equipment); current rectifiers; data media (magnetic and optical); data processing apparatus, equipment and instruments; diagnostic apparatus, not for medical purposes; disk drives (for computers); distance measuring and recording apparatus and instruments; dynamometers; electric accumulators; electric accumulators for electric vehicles; electric batteries; electric batteries for vehicles; electric amplifiers; electric anti-interference devices; electric apparatus for charging batteries; electric apparatus for controlling the operations of machines and engines for electric vehicles; electric apparatus for data processing; electric apparatus for storing computer data; electronic and electronic apparatus for the exchange and transmission of analog and digital signals; electric apparatus for...
and installations; hot air apparatus; immersion heaters; lamps; lamp and light bulbs for directional signals for automobiles; lighting apparatus and installations for vehicles; vehicle headlights; vehicle reflectors; processing installations for fuel moderating material; radiator caps; caps for pipes and valves; thermostatic valves (parts of heating installations); water distribution and filtering apparatus and installations; water heaters; level controlling valves in tanks; air cooling apparatus; air deodorising apparatus; air dryers; air filtering apparatus and machines; air reheaters; air sterilisers; anti-dazzle and anti-glare devices for vehicles (lamp fittings); automobile lights; cooling installations for liquids; defrosters for vehicles; discharge tubes, electric, for lighting; electric lamps; electrically heated carpets; fans (air-conditioning); fans (parts of air-conditioning installations); filaments for electric lamps; filters (parts of household or industrial installations); gas condensers (other than parts of machines); heat lamps; heat accumulators; heat exchangers (not parts of machines); heat pumps; heat regenerators; heaters for vehicles; heating apparatus; heating apparatus for defrosting windows of vehicles; filaments; parts and fittings for all the aforesaid goods; heating and cooling installations and valves.

CI.16;Paper; paper and cardboard bags and boxes; printed matter; printed publications; albums, almanacs, booklets, books, brochures, catalogues, diaries, directories, guides, handbooks, journals, leaflets, notebooks, pamphlets, magazines, manuals, periodicals, trade and technical publications; cards; announcement and greeting cards; charge cards, credit cards and debit cards (other than encoded or magnetic); cards (other than encoded or magnetic) for use in relation to transfer of funds; trading cards; place cards; post cards; posters of paper; document files and holders; folders for papers and stationery; loose leaf binders; photographs; photograph stands; apparatus for mounting photographs; artwork, diagrams and illustrations; artists’ materials; address stamps; book marks; book plates and markers; book bindings; book ends; boxes and holders for stationery; calendars; charts; graphic prints and posters; graphic reproductions; drawing boards, pads and materials; etchings and engravings; flags of paper; handkerchiefs of paper; instructional and teaching material (except apparatus); labels (not of textile); letter trays; mats for glasses; napkins of paper and cellulose; office requisites (except furniture); paint boxes; paintings and pictures (framed or unframed); paper; paper and cardboard pads; postcards of paper; rubber stamps and holders thereof; pens, pen sets and replica pens; paper knives; posters; stationery; scrap books; self-adhesive tapes for stationery or household purposes; signboards of paper or cardboard; stamps (seals); stickers; table cloths, linen and mats of paper; tissues; towels of paper; wrappers; wrapping and packing paper; writing pads; writing paper; parts and fittings for all the aforesaid goods.

CI.17;Rubber, gutta-percha, gum, asbestos, mica and goods made from these materials and not included in other classes; plastics in extruded form for use in manufacture; packing, stopping and insulating materials; flexible pipes and tubes, not of metal; brake lining material, partly processed; carbon fibres, other than for textile use; clutch linings; compressed air pipe fittings, not of metal; connecting hoses for vehicle radiators; cords of rubber; cylinder jointings; dielectrics (insulators); expansion joint fillers; fibre glass for insulation; filtering materials (semi-processed foams or films of plastic or of fibres or of a combination thereof); for insulation or for retaining heat; insulating fabrics, felt and tape; insulators; insulators for electric mains; magnetic wire insulation; pipe jackets, not of metal; joint packings; junctions, not of metal, for pipes; paper for electrical capacitors; pipe gaskets; pipe muffins, not of metal; plastic fibres, not for textile use; plastic film and sheathing, other than for wrapping; thick and thin plastic films, other than for wrapping; plastic substances, semi-processed; rubber, raw or semi-worked; rings of rubber; rubber material for recapping tyres; rubber sleeves for protecting parts of machines; rubber stoppers; seals; sealant compounds for joints; self-adhesive tapes, other than stationary and not for medical or household purposes; sheets of reclaimed cellulose, other than for packing; shock absorbing buffers of rubber; soundproofing materials; stuffing of rubber or plastic; synthetic resins (semi-finished products); synthetic rubber; threads of plastic materials, not for textile use; threads of rubber, not for use in textiles; insulating oil for transformers; valves of rubber or vulcanized fibre; viscos cloth, sheets, other than for packing; vulcanite (eborite); vulcanized fibre; washers, gaskets and seals of rubber or vulcanized fibre; water-tight rings; parts and fittings for all the aforesaid goods; liquid rubber; rubber solutions.

CI.35;Business services; advertising and promotion services and information services relating thereto; accounting, auditing and bookkeeping services; business information services provided on-line from a computer database or the Internet; compilation of advertising or information into computer databases; cost price analysis; demonstration of goods; direct mail advertising; dissemination of advertising matter; distribution of samples; document reproduction; organisation of exhibitions for commercial or advertising purposes; computerised file management; economic forecasting; market research and studies; opinion polling; word processing; public relations; publication of publicity materials for texts; radio advertising; sales promotion for others; compilation and provision of business statistical information; television advertising and commercials; retrieval of data, images and text; advice and consultancy services relating to all the aforesaid services; psychological testing; testing of individuals to determine employment skills.

CI.36;Financial and insurance services; financial and insurance information services; information services relating to finance and insurance, provided on-line from a computer database or the Internet; home banking; Internet banking; credit and debit card services; issuance of credit and debit cards; issuing of tokens of value; financing services; financial sponsorship; fund raising; insurance brokerage and underwriting; electronic transfer of funds; charitable fund raising; real estate services; real estate brokerage; surety services; trusteeship; advice and consultancy services relating to all the aforesaid services.

CI.37;Construction, maintenance and repair services; installation services; information services relating to repair or installation, provided on-line from a computer database or the Internet; installation and repair of telecommunications apparatus, equipment and instruments; air flight deck equipment maintenance and repairs; installation, maintenance and repair of electrical supply apparatus and equipment; installation, maintenance and repair of electronic apparatus, equipment and instruments; air-conditioning apparatus installation and repair; aeroplane maintenance and repair; anti-rust treatment for vehicles; burglar alarm installation and repair; electrical appliance installation and repair; installation, maintenance and repair of heating and cooling apparatus and equipment; interference suppression in electrical apparatus; installation, maintenance and repair of computer hardware; motor vehicle maintenance and repair; motor vehicle cleaning, washing and polishing; rebuilding; hardening; electromagnetic; repair information; rust proofing; telephone installation and repair; vehicle lubrication (greasing); vehicle maintenance and repair; advice and consultancy services relating to all the aforesaid services.

CI.38;Telecommunications; communication services; telecommunication services, namely, providing access to
commercial information, product information, financial information and financial services and transactions; telecommunication of information (including web pages), computer programmes and any other data or images; providing user access to the Internet (service providers); providing telecommunications connections to the Internet or databases; telecommunication network services; electronic mail services; facsimile, telex, telephone and telegram services; cellular telephone communication; communication by computer terminals; communications by fibre optic networks; computer aided transmission of messages and images; communications by computer terminals; reception, recordal, networking and transmission of data and information by means of electronics, computer, cable, optical fibre, radio, radio paging, teleprinter, teleletter, electronic mail, television, facsimile, microwave, laser beam, infrared or communication satellite; reception, recordal, transmission, networking, storage and display of information from a databank; advice and consultancy services relating to all the aforesaid services; leasing access time to a computer database; leasing access time to a computer for the manipulation of data.

Cl.39: Transport; packaging and storage of goods; storage of data, images and text; booking of seats for travel; freight and transport brokerage; car and coach transport; delivery of goods, including delivery of goods by mail order; distribution of energy; electricity distribution; freighting; freight brokerage and forwarding; message delivery; parcel delivery; removal services; rental of storage containers; rental of warehouses; arranging of tours; transport and storage of waste; transport brokerage; transport by pipeline; travel reservations; transport of travellers; escorting of travellers; truck and vehicle rental; advice and consultancy services relating to all the aforesaid services.

Cl.40: Treatment of materials; abrasion; burnishing by abrasions; boiler-making; cadmium and chromium plating; cloth treating and waterproofing; coppersmithing; custom assembling of materials (for others); destruction of waste and trash; electroplating; engraving; fabric fireproofing and waterproofing; galvanization; gilding; gold-plating; lamination; magnetization; material treatment information; metal casting, plating, tempering and treating; nickel plating; paper treating; pattern printing; pottery firing; processing of oil; production of energy; recycling of waste and trash; refining services; rental of generators; silver plating; soldering; stripping finishes; textile fireproofing and treating; tin plating; water treating; wood-working; sorting of waste and recyclable material; printing services; advice and consultancy services relating to all the aforesaid services.

Cl.41: Education and entertainment services; education and entertainment information services; information relating to entertainment and education, provided on-line from a computer database or the Internet; providing on-line electronic publications (not downloaded) by means of the Internet; publication of electronic books and journals on-line; arranging and conducting of conferences, congresses, seminars, symposiums and workshops; publication of books and texts (other than publicity texts); publishing services; organisation of competitions; organisation of sports competitions; correspondence courses; organisation of exhibitions for cultural or educational purposes; electronic games services provided by means of the Internet; film and video film production; instruction, teaching and tuition services; practical training (demonstration); providing sports and recreation facilities; recreation information; lending library services; presentation of live performances; rental services (Terms considered too vague by the International Bureau - rule 13(2.b) of the Common Regulations); advice and consultancy services relating to all the aforesaid services; editing of written texts; translation; videotaping; vocational guidance; microfilming; photography services.

operated hand tools.

Cl.9; Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; apparatus for recording, transmission or reproduction of sound or images; magnetic data carriers, recording discs; compact discs, DVDs and other digital recording media; mechanisms for coin-operated apparatus; cash registers; calculating machines, data processing equipment, computers; computer software; fire-extinguishing apparatus; computer programs; data processing apparatus; downloadable electronic publications; magnetic data media, pre-recorded and blank discs, pre-recorded and blank audio and video cassettes; pre-recorded and blank compact discs; transmitters, receivers, apparatus for the transmission of electronic signals and radio signals; transponders; navigation apparatus for vehicles; navigational instruments; satellite navigational apparatus; electric and electronic avionics instruments, apparatus and systems relating thereto; simulators for the steering and control of vehicles; flight simulation software; scientific satellites; satellites for receiving and transmission of radio signals; electric cables, fibre optic cables; sunglasses; satellites for scientific and commercial purposes; electronic, electric and optical satellite modules and spacecraft modules, including assemblies, containing the measuring circuits, communications circuits and auxiliary launch apparatus in a housing; apparatus and systems consisting thereof for altitude control and position control; audio compact discs; data carriers; transmitters (telecommunication), electric cables, fibre optic cables, electronic apparatus and instruments, electronic storage media; data storage media containing flight and navigation instructions for helicopters, rotary-wing aircraft and drones; optical or infrared monitoring installations and apparatus; thermal imaging apparatus; observation instruments and systems consisting thereof; infrared monitoring and tracking apparatus and systems consisting thereof, in particular positioning systems; secure observation and reconnaissance apparatus and systems consisting thereof;appa...
technology, radio or satellite; call centre servers, multiplexers and demultiplexers, electric and electronic apparatus and instruments for the control and management of networks; receivers (telecommunications), electronic and radioelectric signal transmission apparatus; satellites for scientific use and satellites for receiving and transmitting of radioelectric signals; computer terminals, communications terminals, stationary or portable computer terminals or communications terminals; apparatus for commanding and receiving of data, transmission and recording of data, and recording and reproduction of data, and recording and playback of digital audio data, network apparatus, in particular protocol converters and systems consisting thereof for gateways; electric and electronic devices for basic equipment of and for and access interfaces to Internet protocol (IP) networks; devices and equipment and apparatus consisting thereof for the transmission of messages, information, data, and sound and images over the airways, and via cables, fibre optic technology, telephones, satellites, terminals, telecommunications networks and computer networks; telecommunications and desktop automation terminals for military applications; telephone apparatus, mobile telephones, cordless telephones, radio paging apparatus and equipment, facsimile machines, PDAs (personal digital assistants), mobile apparatus for Internet access, replacement parts for the aforesaid goods, enabling communications and conducting of secure transactions and online trading; software programs in a computer-readable format, being provided on magnetic or optical storage media or as a downloadable format and being usable with the aforesaid goods; software programs for secure communications, enabling the authentication, checking, recording and analysis of references and data, enabling the use of this software to perform rights of property rights, and software programs for satellite telecommunication and satellite telecommunication stations consisting thereof, in particular in aircraft; software, software (recorded programs) for communications and radio communication networks for data transmission by means of wires, cables, fibre optic technology, radio or satellite; software, software (recorded programs) for the management, administration, architecture management, configuration and protection of local or remote networks for speech, images and data; apparatus and software (recorded programs) for securing access to computer and Internet protocol (IP) networks; software (recorded programs) for encryption and decryption; software (recorded programs) for encoding and decoding; software (recorded programs) for the architecture, management and securing of access to computer networks and Internet protocol (IP) networks; simulation, modelling, testing and experiment software; servers for modelling simulations of and for tests and experiments relating to civil and military operations; software (recorded programs) for the configuration, optimisation and performance analysis, optimization of methods and hardware (CPUs) and software modules for the processing and/or generation of navigation signals and/or navigation data in relation to navigation or cartography; software for the planning, acquisition, processing and dissemination of reconnaissance information and data (intelligence information), solely in the fields of reconnaissance and geography for defence and security purposes, all of the aforesaid goods for digital radio networks; software for digital radio networks, enabling user access to voice services and data, including group communications in relay mode, individual conversations, short messages, and data localisation and transmission, all of the aforesaid goods for digital radio networks; software (recorded programs) for the providing of access to an electronic messaging service; software for transaction security for Intranet and Internet data terminals, control stations and terminals for the display of information in graphics and text format; secure data processing apparatus, secure telecommunications apparatus and equipment consisting thereof; handheld electronic devices for wireless receiving and/or transmission of secure data (in particular for messages) and electric and electronic apparatus and equipment enabling users to store or manage personal information; software for forwarding secure messages, Internet e-mails and/or other data to one or more handheld electronic devices from a database stored on a PC or a server or belonging thereto; software for the synchronisation of secure data between a remote station/apparatus and a fixed station/apparatus or a remote station/apparatus; electric and electronic apparatus and instruments, in particular computers and processors (CPUs) for data and computer software (recorded programs) for the development, optimisation and performance analysis of methods and algorithms, and processors (CPUs) and software modules for the processing and/or generation of navigation signals and/or navigation data, electric and/or electronic apparatus, electric and/or electronic instruments and apparatus for displaying reports, analyses and measurement results, in particular in the form of graphics, charts and diagrams resulting from the performance analysis and monitoring of navigation signals and/or data; electric and electronic apparatus and instruments for the examination and identification of segments of space in two or three dimensions; computer software (recorded programs) for the simulation and identification of segments of space in two or three dimensions of flight path parameters, in particular navigation and control software (recorded programs) for helicopters, rotary-wing aircraft and drones, communications apparatus and systems consisting thereof and communications antenna for aircraft; recording apparatus and systems consisting thereof for apparatus for locomotion and propulsion by land, air or water; automatic flight control apparatus and systems consisting thereof; testing apparatus (real-time systems) for conducting tests on electronic apparatus and apparatus, in particular, processing and transmission of data, input, monitoring data and devices and data buses, data transmission apparatus and systems consisting thereof, analogue-digital and digital-analogue converters, program prototypes, simulators for the simulation of mechanical, electric and electronic functional processes, linking and chaining modules, data analysis apparatus, and changeover, panel and selector switches and coordinator switches, interface apparatus or programs, in particular analogue, digital and discrete data bus interface apparatus or programs; control apparatus for testing apparatus and searchable programs for the aforesaid control equipment recorded on data carriers; searchable test programs recorded on data carriers; instruments, and computer hardware and software for the simulation of electronic samples and mechanical, electric and electronic functional processes; electric and electronic display apparatus for the preparation and conducting of tests on electronic samples and processing of the test results; software, in particular database software for the management of tests on electronic samples for monitoring the configuration and definition of the test system; computer hardware and software for generating test documents; computer hardware and software for linking test installations via telecommunications equipment and/or via the Internet and/or via local networks; instruments and installations consisting thereof for the testing of vehicles and apparatus for locomotion and propulsion by land, air and water; sensors and communications apparatus and equipment; sighting telescopes for firearms; telescopes, binoculars, extendable telescopes and binoculars; protective eyewear, in particular eyewear for protection against lasers; distance measuring apparatus, in particular laser distance measuring apparatus, digital magnetic compasses; cameras, in particular reconnaissance cameras, exploratory cameras; equipment for aerial photography, namely optical detection devices for aerial photographs and aerial images; periscope systems; stabilised sensor platforms; night-vision apparatus, residual light amplifiers; laser target illuminators; software for assessing, monitoring and control of data security within an information technology network; industrial geoproduction systems, namely a digital processing chain for producing satellite images, satellite data, aerial photographs, aerial image data, terrestrial data and terrestrial images in 3D (three dimensions); antenna installations, antennas and wave converters; magnetic tape units, video cassette recorders, magnetic tape units, video cassette recorders, camcorders, compact discs (audio, video); optical compact discs; magnetic disk storage; optical discs; recording discs; optical data media; magnetic data media; radio apparatus (telecommunications); software, solely for the field of satellite imaging and satellite data; apparatus and devices for the processing of data, in particular via satellites;
electric and electronic apparatus and devices for the simulation of infrastructure development; apparatus and devices for producing and updating development plans and development charts and for observing plots of agricultural land and optimising crop yield trends and monitoring thereof; compact disc players; optical document readers; character readers; readers; computer software (recorded programs); games software; computer programs (downloadable software); software and software packages for databases and for accessing databases; computer software for stereographic projections, digital terrain models, orthoimages and thematic maps; computer files and software packages with geographical, geological, cartographical and topographical data; computer files and software packages comprising reproductions of terrain and digital maps; electric and electronic apparatus for databases and for accessing databases; computer software for stereographic projections, digital terrain models, orthoimages and thematic maps; computer files and software for geography, geology and topography; computer files and software for ground imaging and digital maps; satellite navigation equipment; satellites for scientific purposes, in particular earth observation satellites; apparatus and devices for the processing, analysis, reproduction and storage of images, aerial photographs and satellite photographs; computer hardware; database equipment (hardware and software); database access equipment (hardware and software); database management software; surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments, all of the aforesaid goods for use in the field of helicopters and rotorcraft; flight control apparatus and flight control devices for guiding and controlling helicopters and rotorcraft; electronic controllers for guiding and controlling helicopters and rotorcraft; flight regulating systems and flight control systems with fly-by-wire control for helicopters and rotorcraft; fibre optic flight regulating systems and flight control systems for helicopters and rotorcraft; flight regulating systems and flight control systems for guiding, controlling and self-navigation of helicopters and rotorcraft; comprising flight control apparatus and flight control devices, electric wire cables or fibre optic cables, sensors for collecting flight data, calculating machines, data processing installations, data processing apparatus and computers, flight data software; glass cockpits for helicopters and rotorcraft, namely transparent electronic display apparatus and screens for providing navigation data, operational data and mission data for pilots and co-pilots; flight instruments and flight apparatus for providing information regarding the flight situation of the helicopter or rotorcraft for pilots; autopilots for use in helicopters and rotorcraft; apparatus and devices for testing the flight parameters of helicopters and rotorcraft; navigation apparatus, navigation devices and navigation instruments for helicopters and rotorcraft; communications equipment for helicopters and rotorcraft; electric and electronic avionics apparatus and systems consisting thereof, namely regulating devices and systems consisting thereof, control devices and systems consisting thereof, observation devices and systems consisting thereof, monitoring devices and systems consisting thereof, communications devices and systems consisting thereof, navigation devices and systems consisting thereof, meteorological devices and systems consisting thereof and anti-collision devices and systems consisting thereof for helicopters and rotorcraft; display apparatus and measuring instruments for use in helicopters and rotorcraft; digital displays and digital display apparatus for use in helicopters and rotorcraft; accelerometers, altimeters, radar altimeters, ammeters, anemometers, barometers, flowmeters, frequency meters, manometers, tachometers (revolution counters), thermometers, torquemeters, speedometers, vibration meters, vibration gauges, voltmeters, teleometers, range finders, pressure indicators, fuel gauges, all being for use in helicopters and rotorcraft; oil pressure gauges and oil pressure indicators, oil temperature gauges and oil temperature indicators, fuel pressure gauges and fuel pressure indicators, fuel temperature gauges and fuel temperature indicators, height indicators, position indicators (artificial horizon), airspeed indicators, course deviation indicators, first limit indicators (FLI), directional indicators, electronic horizontal situation indicators (HSI), electronic radio-magnetic indicators (RMI), electronic turn indicators and vertical speed indicators (variometers), all being for use in helicopters and rotorcraft; inertial navigation systems (inertial measurement units) for use in helicopters and rotorcraft; gyroscopes, rate gyroscopes, laser gyroscopes (gyrolasers) for use in helicopters and rotorcraft; compasses, gyrocompasses, magnetic compasses, magnetic navigation systems and magnetic navigation apparatus; for helicopters and rotorcraft; electronic measuring apparatus for helicopters and rotorcraft, comprising electronic temperature sensors, electronic pressure sensors, electronic humidity sensors, electronic moisture sensors, electronic level sensors, frost sensors, gas sensors, heat sensors, moisture sensors, crash sensors, impact sensors, infrared sensors, level sensors, load sensors, light sensors, magnetic sensors, movement sensors, noise sensors, optical sensors, piezoelectric sensors, position switches, position transmitters and position sensors, pressure sensors, approach sensors
and proximity sensors, smoke sensors, speed sensors, temperature sensors, torque sensors, vibration sensors, sensors for tracking actual and projected disturbances; detectors for use in helicopters and rotorcraft, in particular carbon dioxide detectors, carbon monoxide detectors, fire detectors, heat detectors, leak detectors, immersion detectors, movement detectors, particle detectors, approach detectors, proximity detectors and proximity switches, radar detectors, rotor speed detectors, vibration detectors, transducers for electric and electronic circuits, electric and electronic circuits comprising, in particular, resonant transducers, magnetostrictive transducers, piezoelectric transducers, electrostatic transducers, transducers with variable resistance (variable-resistance transducers), electro-optical transducers, electroacoustic transducers, power transducers, high-frequency transducers, linear transducers, measurement transducers, pressure transducers, torque transducers, ultrasound transducers; power supply units for helicopters and rotorcraft; electric accumulators for helicopters and rotorcraft; electric valves (thermionic), solenoid valves, magnetic valves for use in helicopters and rotorcraft; electric regulators and supply voltage regulators for helicopters and rotorcraft; commutators, collectors and rectifiers for use in helicopters and rotorcraft; electric inverters for use in helicopters and rotorcraft; electric switches for use in helicopters and rotorcraft; pressure switches for use in helicopters and rotorcraft; electric actuators for use in helicopters and rotorcraft; fuel supply regulators, fuel flow regulators and fuel quantity regulators for use in helicopters and rotorcraft; timers (time recording instruments and time recording apparatus) for use in helicopters and rotorcraft; transponders for use in the field of helicopters and rotorcraft; transmitters for use in the field of helicopters and rotorcraft; transceivers for use in the field of helicopters and rotorcraft; radio transmitters, radio receivers and radio signal tuners for use in the field of helicopters and rotorcraft; antennas, and antenna installations and antenna systems consisting thereof and satellite dishes, modems, telephone apparatus and telephone receivers for use in the field of helicopters and rotorcraft; amplifiers for use in the field of helicopters and rotorcraft; headphones, microphones, loudspeakers for use in the field of helicopters and rotorcraft; cameras, camcorders and infrared cameras for use in helicopters and rotorcraft; electronic card readers for use in the field of helicopters and rotorcraft; radars and radar systems for use in the field of helicopters and rotorcraft; alarm installations, alarms and alarm equipment for use in helicopters and rotorcraft; emergency locator transmitters for helicopters and rotorcraft; computer software for use in the field of helicopters and rotorcraft; computer software for flight control of aircraft, helicopters and rotorcraft; computer software for navigation assistance and flight guidance assistance for aircraft, helicopters and rotorcraft; computer software for managing and recording flight data for aircraft, helicopters and rotorcraft; computer software for the design, production, manufacture, testing, maintenance, servicing and repair of aircraft, helicopters and rotorcraft; apparatus, parts, components and fittings for aircraft, helicopters and rotorcraft and equipments adapted thereto; data acquisition software and data processing software for the design, production, manufacture, control, flying, guidance, navigation, monitoring, security, maintenance, servicing and repair of aircraft, helicopters and rotorcraft; computer software for support during the regulating of parameters for apparatus used for flight control, flight data records, noise reduction, collision avoidance, flight simulation, navigation, surveillance, control, guidance, navigation, flying, maintenance, servicing and repair of aircraft, helicopters and rotorcraft; computer software for support during the search and remediation (troubleshooting) of faults and malfunctions, damage, mechanical faults and defects and the exchange and replacement of expired and worn parts of aircraft, helicopters and rotorcraft; computer software for displaying malfunctions, faults, failures, breakdowns and abnormalities in aircraft, helicopters and rotorcraft and for suggesting countermeasures for repair; computer software for digital cartography for use in the field of aircraft, helicopters and rotorcraft; computer software for the preparation and creation of flight plans for aircraft, helicopters and rotorcraft; computer software for mission planning for aircraft, helicopters and rotorcraft; computer software for the presentation of flight reports for aircraft, helicopters and rotorcraft; computer software for tracking and locating aircraft, helicopters and rotorcraft; computer software for the identification and authentication of individuals for use in the field of aircraft, helicopters and rotorcraft; computer software for encoding, decoding, encryption, decryption of data for use in the field of aircraft, helicopters and rotorcraft; artificial vision systems and enhanced vision systems, namely computer hardware and computer software systems and computer software systems for displaying a realistic three-dimensional representation of the external world and for adding real-time information recorded by sensors installed on helicopters and rotorcraft, to support aircraft, helicopters and rotorcraft during flight and navigation through the enhancement of the situational perception and situation-dependent awareness of the pilot; daytime-vision goggles, residual light amplification goggles for use in helicopters and rotorcraft, maintenance and servicing equipment (maintenance kits) for helicopters and rotorcraft; first-aid kit; computer software predominantly comprising computer hardware and computer software, sensors, cables and wires, for measuring and analysing vibrations in the main and tail rotors, transmission shafts and other dynamic components and assemblies and providing of computerised tuning (setting) of flight parameters; testing installations and testing stands for aircraft, helicopters and rotorcraft; testing means for aircraft, helicopters and rotorcraft, electronic apparatus and equipment consisting thereof for helicopters and rotorcraft and flight simulators for helicopters and rotorcraft; flight simulators for aircraft, helicopters and rotorcraft; flight simulation software for aircraft, helicopters and rotorcraft; flight manuals (handbooks) and maintenance and servicing manuals (handbooks) for aircraft, helicopters and rotorcraft in electronic format, being recorded on computer-readable media or being downloadable; electronic publications with regard to aircraft, helicopters and rotorcraft, being recorded on for video games; fire extinguishers for use in helicopters and rotorcraft; electric sockets.

Cl.11;Apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, water supply and sanitary purposes; forehead lamps; electric pocket torches; lighting apparatus and lighting devices for helicopters and rotorcraft; heating apparatus and heating equipment for helicopters and rotorcraft; air treatment installations, ventilating
apparatus and air conditioning apparatus for helicopters and rotorcraft.

Cl.12; Vehicles, apparatus for locomotion and propulsion by land, air, water or rail; aircraft; spacecraft; carrier rockets (spacecraft); air balloons; aircraft components, included in this class; aeronautical apparatus; remote control aircraft; screw-propellers; military vehicles for transport, in particular aircraft; seat covers for vehicles; aircraft of all kinds; unmanned aircraft; drones (missiles); apparatus, machine equipment and devices for aviation and space travel; military aircraft; helicopters and rotorcraft; helicopters and rotorcraft and structural parts therefor, fittings and connectors, dynamic components and equipment, included in this class; fuselages for helicopters and rotorcraft; tail booms for helicopters and rotorcraft; main rotors and tail rotors for helicopters and rotorcraft; rotor blades for helicopters and rotorcraft; screw-propellers for helicopters and rotorcraft; landing wheels for helicopters and rotorcraft; shock absorbers for helicopters and rotorcraft; windows for helicopters and rotorcraft; glass panels for helicopters and rotorcraft; seats for helicopters and rotorcraft; seat covers for helicopters and rotorcraft; seat cushions and seat padding for helicopter and rotorcraft seats; seat belts for helicopter and rotorcraft seats; restraining belts for helicopter and rotorcraft seats; upholstery for helicopters and rotorcraft; interior linings for helicopters and rotorcraft; joysticks, levers and pedals for controlling helicopters and rotorcraft (structural parts for helicopters and rotorcraft); petrol tanks and gas tanks, and tank caps and gas caps for helicopters and rotorcraft; protective strips for helicopters and rotorcraft; protective strips for rotor blades for helicopters and rotorcraft; wings and blades for helicopters and rotorcraft; landing gear and undercarriages for helicopters and rotorcraft; brakes for helicopters and rotorcraft; doors for helicopters and rotorcraft; fittings and connectors for all of the aforesaid goods (included in this class); parts and fittings for all of the aforesaid goods, included in this class.

Cl.13; Firearms; ammunition and projectiles; explosives; fireworks; rockets (projectiles), remote control projectiles, missiles; signal rockets; visors and sights, other than telescopic sights, for firearms; visors and sights, other than telescopic sights, for cannons and guns (artillery); rifles of metal.

Cl.14; Precious metals and their alloys (raw or semi-processed); jewellery, precious stones; horological and chronometric instruments; key rings and chains (trinkets or fobs); pins; key straps, key cords; tie pins; trophies, in particular crystal balls; trophies in precious metals; jewellery boxes and jewellery cases (in precious metals); necklaces; bracelets; bangles; earrings; rings.

Cl.16; Paper, cardboard, bags of paper or cardboard, goods for packaging, packing and storage purposes of paper or cardboard, printed matter; bookbinding material; photographs; stationery; adhesives for stationery or household purposes; caskets” materials; paint brushes; typewriters and office requisites (except furniture); instructional and teaching material (except apparatus); plastic materials for packaging (not included in other classes); printers” type; printing blocks, printing forms; fountain pens and nibs; leaflets; posters; labels, not of textile; flags of paper; postcards; calendars; aerial photographs and satellite images; geographical maps; topographical maps; geographical pictures and images; geographical lists, graphics, diagrams and drawings; geographical surveys and studies; business cards; holders for business cards; paper bags, paper sacks and conical paper bags; books; college exercise books, note books, jotters; globes; desk mats; passport cases and passport sleeves; personal organisers; printed matter, in particular books, manuals (handbooks), magazines, periodicals, illustrated magazines, journals, newspapers, catalogues, pamphlets, all in relation to helicopters and rotorcraft.

Cl.17; Rubber, gutta-percha, gum, asbestos, mica (raw or semi-processed); plastics in extruded form for use in manufacture; packing, stopping and insulating materials; flexible pipes, not of metal; carbon fibres, other than for textile use; plastic fibres, not for textile use.

Cl.18; Leather and imitations of leather (raw or semi-processed); animal skins, hides; trunk and travelling bags; umbrellas and parasols; walking sticks; whips, harness and saddlery; handbags; shopping bags; bags for sports; leather cases, leather trunks; suitcase tags (of leather); luggage tags, luggage stickers; luggage straps; vanity cases, not fitted, make-up cases; luggage, bags; pocket wallets, purses, coin purses, CD wallets; backpacks; card cases; valises, in particular valises of leather; leather cases for credit cards; cases and sleeves for business cards; bags and trunks of leather and imitations of leather; briefcases.

Cl.19; Non-metallic transportable buildings and structures.

Cl.21; Household or kitchen utensils and containers; combs and sponges; brushes (except paintbrushes); brush-making materials; articles for cleaning purposes; steelwool; unworked or semi-worked glass (except glass used in building); glassware, porcelain and earthenware not included in other classes; mugs; cups; bottles; vacuum flasks; signboards of porcelain or glass; ironing boards.

Cl.24; Textiles and textile goods, not included in other classes; bed covers; table covers; fabric, impervious to gases, for aeronautical balloons; banners; flags, not of paper; furniture coverings of textile; loose covers for furniture; curtains of textile or plastic; fabrics for textile use; textile labels; textile fabrics; towels (bath towels,erry towels); place mats of plastic; blankets (bed blankets, travelling rugs, children’s blankets).

Cl.25; Clothing, footwear, headgear; scarves, headscarves; ties; caps (headwear); anoraks, parkas, jackets (clothing); Tee-shirts, polo shirts; clothing of leather and imitations of leather; flip-flops.

Cl.28; Games and playthings; gymnastic and sporting articles not included in other classes; decorations for Christmas trees; scale model vehicles and parts therefor (included in this class), in particular models of aircraft and in particular model aeroplanes; toy vehicles; paragliders; jigsaw puzzles; playing cards; kites; inflatable toys, in particular aircraft; balloons; balls for sports and games; building blocks (toys); games with building blocks; dominos and domino games; electronic targets; flying discs in particular frisbees (toys); mobiles (toys); plush toys, stuffed toys; swimming pools (toys); radio control toys, in particular in the form of vehicles of all kinds; construction sets for scale models; snow globes; teddy bears; toys; belts, in particular for weightlifting (sporting articles); sticks, in particular golf clubs; bags especially designed for sports articles; discuses for sports; repair tools for lawns (golf equipment and golf accessories); golf gloves; golf bags, with or without wheels; golf balls; hang-gliders, paragliders; skis, in particular for use on snow and water; surfboards; bags especially designed for skis and surfboards; toy vehicles with radio control; scale model vehicles of helicopters and rotorcraft.
Cl.29; Meat, fish, poultry and game; meat extracts; preserved, frozen, dried and cooked fruits and vegetables; jellies, jams, compotes; eggs; milk and milk products; edible oils and fats.

Cl.30; Coffee, tea, cocoa and artificial coffee; rice; tapioca and sago; flour and preparations made from cereals; bread, pastry and confectionery; edible ices; sugar, honey, treacle; yeast, baking-powder; salt; mustard; vinegar, sauces (condiments); spices; ice.

Cl.31; Grains and agricultural, horticultural and forestry products not included in other classes; live animals; fresh fruits and vegetables; seeds; natural plants and flowers; foodstuffs for animals; malt.

Cl.32; Beers; mineral and aerated waters and other non-alcoholic beverages; fruit beverages and fruit juices; syrups and other preparations for making beverages.

Cl.33; Alcoholic beverages (except beers).

Cl.34; Tobacco; smokers’ articles; matches.

Cl.35; Advertising; business management; business administration; office functions; professional business and organisational consultancy in the aviation and space travel sector; marketing studies; marketing for aircraft and parts therefor; organisation of exhibitions for commercial or advertising purposes; business administration of an airport, in particular management, administration and organisation of an airport; events for advertising and sales promotion; sponsorship in the form of advertising; business management for participants in sporting events; organisation and conducting of sporting events for advertising and sales promotion; advertising and promotion, in particular advertising and promotion of the goods and services of others through sponsorship; compilation and systemization of data into databases and legal databases; business management of services for exchanging of correspondence, in particular管理和 administration of correspondence, for others; presentation of goods on communications media of all kinds for sale, in particular direct sale of satellite-generated images or products derived from two-dimensional or three-dimensional satellite images, geographical maps and topographical maps consisting of images generated by satellites or antenna systems, digital evaluation models or contour line models in the form of coordinate grids for components encoded by elevation and receiving antennas; compilation and systemization of information into computer databases and computer memories, in particular of images generated by satellites or antenna systems, input of high-resolution and very high-resolution digital images generated by satellites; retail and wholesale services of images generated by satellites, in particular geographical images, geographical maps and topographical maps consisting of images generated by satellites; online presentation of images generated by satellites, in particular geographical images, geographical maps and topographical maps consisting of images generated by satellites or antenna systems, with a view to the sale of the aforesaid goods and providing of commercial information relating to the aforesaid goods; procurement and providing of business information; business consultancy; business consultancy with regard to Internet communications; procurement and providing of business information with regard to advertising, namely for industries, the fire brigade and government; advertising, business management, business administration and office functions, all being in the field of aircraft, helicopters and rotorcraft; professional business and organizational logistics management in the field of aircraft, helicopters and rotorcraft; business consultancy in the field of aircraft, helicopters and rotorcraft; charitable services, namely organisation and organizational development of projects with the aim of improving the life of underprivileged people, impoverished people, people with disabilities and sick people; charitable services, namely organisation and organizational development of projects with the aim of supporting developing countries through organizational advancing and supporting their autonomy; purchasing (procurement services) of replacement parts, fittings, dynamic components and equipment for aircraft, helicopters and rotorcraft, for others; preparation and management of administrative documents belonging to a fleet of aircraft, helicopters and rotorcraft, for others; retail and wholesale services in connection with the sale of aircraft, helicopters and rotorcraft, replacement parts, fittings, dynamic components and equipment, procurement of aircraft, helicopters and rotorcraft, replacement parts, determination and analysis of price and availability of replacement parts, through a website, place orders, arrange the return of replacement parts for repair and reconditioning, order technical publications, track orders, view invoices and request information; preparation and conducting of trade fairs and exhibitions for commercial and advertising purposes in the field of aircraft, helicopters and rotorcraft

Cl.36; Insurance; financial affairs; monetary affairs; real estate affairs; real estate transactions; financing services; monetary transactions; financial transactions; leasing, loans (financing), financing of instalment plan purchases; hire purchase financing, credit financing; financial sponsorship; evaluation of patents; financial evaluation of industrial property rights and copyrights; conducting of financial transactions; capital investments; conducting and arranging of asset investments; apartment house management; financial services, in particular acquisition of securities of all kinds by means of purchasing and assumption, in particular capital issues; financial and asset management for securities of all kinds, company shares, bonds and other stock market quotations; portfolio management (financial affairs) and financial portfolio valuation of stock market quotations, management for financial management, for others; providing and procurement of financial data for assisting during the underwriting of agricultural insurance; analysis and research in the field of agricultural risk analysis; agricultural analysis and providing of reports relating thereto; providing and analysis of financial reports; financial market analysis and providing of reports relating thereto; providing of financial and insurance reports; services in the field of financial and monetary affairs; services in connection with insurance contracts of all kinds; services rendered by banks of all kinds or institutions related thereto, including currency exchanges or settlement agencies; services rendered by credit cooperatives, financial companies, money lenders; financial services of investment companies, holding companies; securities and commodities brokerage; trusteeships; issuing of travellers’ cheques and letters of credit; services rendered by property managers in relation to rental or appraisal or by capital investors; consultancy services for insured people, and services in relation to the conclusion of insurance contracts; banking; banking by means of online banking; financial evaluation (insurance, banking, real estate); home banking; savings banks; financial clearing; building contractor services, namely financial preparation for building projects; development of usage concepts for real estate with regard to financial matters (facility management) (terms considered too vague by the International Bureau - Rule 13(2)(b) of the Common Regulations); financial sponsoring; financial consultancy (credit consultancy); financial business liquidation services; mergers and acquisitions, namely financial consultancy during the purchase or sale of companies, and company shares; mutual funds; financial management; fiduciary; investment services; providing of investment facilities (financial services); providing of investment facilities in relation to goods indices; investment consultancy; financial consultancy; financial valuation, 6642
financial analysis and fiscal evaluation; gathering, providing and dissemination of financial information in relation to goods indices; information and consultancy in relation to the aforesaid services; credit and insurance services; real estate transactions, including via the Internet; issuance of credit cards; financial services; banking transactions, banking, financial transactions, financial analysis, financial services, financing services, collecting of outstanding payments, lending, leasing, particular of installations, land, machinery, vehicles and apparatus for locomotion by land, air, water, rail and in space, in particular aircraft, helicopters and rotorcraft, spacecraft and satellites; real estate affairs, real estate transactions, real estate brokers, assessment and valuation of real estate, real estate consultancy, providing of information relating to real estate, real estate management, rent collection; insurance underwriting, insurance consultancy, insurance information, underwriting of insurance, guarantees; savings banks, financial consultancy and procurement of contracts for pensions, capital investments for pensions, pension savings; financial valuation (insurance, banking, real estate), financial information, forming of joint investment funds, placement of funds, monetary transactions, actuarial services, factoring, credit bureaux, stock exchange quotations, stock brokerage services, savings banks, capital investment, services in connection with the issuance of credit cards, services in connection with the issuance of debit cards, exchanging money, cheque verification, issuing of travellers’ cheques, issuing of bank cheques, depositing of valuables in safe, settlement services (exchange transactions), insurance brokerage, instrument of values,inscription of credit cards, insurance of credit cards, deposit of tokens of value, online services in the field of financial services; fiscal assessment; electronic capital transfer; real estate management; asset management; provision of life insurance, marine transport insurance, accident insurance, fire insurance, health insurance, home insurance, provision of rent guarantee insurance, rental of flats, rental of office space, mortgage banking, banking, financial transactions, monetary transactions, instalment loans, financial sponsoring, provision of loans (financing), financial transactions, direct banking (home banking), financial consultancy regarding capital formation; information, consultancy and assistance in relation to banking, finances and money; online services in the field of banking, financial affairs, insurance underwriting and real estate affairs via telecommunications networks (including mobile telephones), data transmission networks and data communications networks, in particular the Internet and Intranets via electronic websites; provision of real estate insurance; financial affairs in relation to real estate and land; development of financial usage concepts in relation to real estate and land; (considered too vague by the International Chamber of Commerce Regulations); facility management in relation to real estate and land; assessment and valuation of real estate and land; online services in the fields of banking, financial affairs, monetary affairs, insurance underwriting and real estate affairs via telecommunications networks (including mobile telephones), telematics and data communications networks in the form of the Internet and Intranets via electronic websites; consultancy in relation to capital market trading; providing of the aforesaid services online from a computer database or via the Internet; credit and loans for the financing of aircraft, spacecraft, satellites, helicopters and rotorcraft; financial services in relation to the leasing of aircraft, spacecraft, satellites, helicopters and rotorcraft; insurance services for guarantee for aircraft, spacecraft, satellites, helicopters and rotorcraft; financial sponsorship events and meetings in the field of aircraft, spacecraft, satellites, helicopters and rotorcraft; procurement of charitable financial resources; charitable services, namely procurement of financial support for developing countries for advancing their autonomy

Cl.37;Building construction; repair in the field of the aviation and space travel industry and the defence and security industry; installation services in the field of the aviation and space travel industry and the defence and security industry; building construction with regard to the field of aviation and space travel, in particular in the field of airports and rocket launch areas; repair, maintenance and disassembly, in particular in the field of vehicles and apparatus for locomotion by land, air or water, and of drive motors; maintenance of computer hardware; vehicle service stations (refuelling and maintenance); fuelling of vehicles; in-flight refuelling; maintenance of measuring instruments, tensioning devices, tools and replacement parts; building, construction, assembly, installation and repair of devices for carrier rockets, spacecraft and satellites; building, construction, assembly, installation and repair of carrier rockets, spacecraft and satellites; consultancy regarding repair and maintenance in the form of assistance, help and support in the event of faults and defects in aircraft, spacecraft and satellites (repair); information in relation to the repair of aircraft; providing and procurement of information in relation to the repair of aircraft; installation of hardware for mechanical, electric and computer interfaces between a satellite and a launch rocket, in particular carrier rockets; installation of satellites on carrier rockets; installation of satellites and spacecraft on carrier rockets, in particular mechanical assembly, connection (installation) of electronic and computer connections (hardware); construction, installation, building and expansion of installations, in particular satellites and ground stations and equipment relating thereto; information in relation to repair and construction, building and expansion of installations and equipment in the aeronautics sector; repair of vehicles and apparatus for locomotion and propulsion by land, air or water, including unmanned aircraft, aircraft, drones and drive motors; installation, repair, maintenance and servicing of electric and electronic installations, equipment, apparatus and devices, in particular for aeronautics, and of encryption installations, instruments, apparatus and devices; services in the field of recycling and disassembly of the aforesaid goods; repair, maintenance and servicing in the field of vehicles and apparatus for locomotion by land, air or water, and drive motors; repair, in particular in the field of vehicles and apparatus and parts thereof for locomotion by land, air or water, and drive motors; installation, expansion, maintenance, servicing, repair and reconditioning of helicopters and rotorcraft, components, structural parts, fittings and connectors, dynamic components and equipment thereof; installation, expansion, maintenance, servicing, repair and reconditioning of main rotors and tail rotors for helicopters and rotorcraft, rotor blades for helicopters and rotorcraft; avionics equipment and apparatus for helicopters and rotorcraft; maintenance, servicing, repair, installation and technical updating of a fleet of helicopters and rotorcraft to comply with the requirements of national, foreign, civil and military legislative and regulatory requirements; inspection of helicopters and rotorcraft before maintenance, servicing and repair; adaptation of helicopters and rotorcraft to customer requests (installation); painting and vanishing of helicopters and rotorcraft; installation, expansion, maintenance, servicing and repair of aircraft, telecommunications machines, apparatus and devices, all being for use in the field of helicopters and rotorcraft; installation, expansion, maintenance, servicing and repair of aircraft, telecommunications machines, apparatus and devices, all being for use in the field of helicopters and rotorcraft; installation, expansion, maintenance, servicing and repair of aircraft, telecommunications machines, apparatus and devices, all being for use in the field of helicopters and rotorcraft; technical support, namely technical consultancy in the field of the maintenance, servicing, repair and reconditioning of helicopters and rotorcraft; rental of machines and tools for the maintenance and servicing of helicopters and rotorcraft; information in relation to the repair, maintenance, servicing and reconditioning of helicopters and rotorcraft; providing and procurement of information via Internet websites offering information relating to the maintenance, servicing, repair and reconditioning
of helicopters and rotorcraft; installation, expansion, maintenance, servicing, repair and reconditioning of equipment and apparatus installed in helicopters and rotorcraft, in particular avionics equipment and avionics apparatus, flight control apparatus, flight instruments, navigation apparatus and navigation instruments, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving apparatus and instruments, electronic apparatus and data processing or reproduction of sound, images or data, data processing apparatus and devices, computers, computer hardware, machines, apparatus and devices for telecommunications; planning, scheduling and preparation of appointments and follow-up appointments relating to second appointments therefor for aircraft, helicopters and rotorcraft, replacement parts, fittings, dynamic components and equipment, for others; construction consultancy; condition monitoring of aircraft by means of software

Cl.38: Telecommunications; pager and mobile telephone communications, and other electronic communications; communications provided via fibre optic networks; telecommunications via satellite; communications via computer terminals; providing of telecommunications connections to a global computer network; telephone services; transmission of messages and information; rental of telecommunications apparatus and telecommunications devices; rental of apparatus for image transmission, transmission of high-resolution images; communications via computer terminals, radio and television broadcasting; cellular telephone communication; satellite transmission; rental of access time to computer databases and computer data memories; rental of access time to computers for data processing; telecommunications via satellite and satellite constellations; data transmission via satellites and satellite constellations; rental of telecommunications networks of multi-utility companies; electronic message transmission via the Internet, Extranets and Intranets; communications via radio, telephone, telegraphy and all other ways of remote data transmission, via videotext, in particular via terminals, computer peripheral apparatus or electronic and/or digital apparatus, video telephones and video conferences; data transmission, in particular in packet-switched operation mode, sending and transmission of electronic documents, e-mail services; forwarding of telephone calls or telecommunications messages; mobile telephone services; broadcasting of radio and television programmes and multimedia in the form of texts and/or still or live images and/or sound (music, sound or voices) for interactive or other use (terms considered too vague by the International Bureau - Rule 13(2)(b) of the Common Regulations); communications via data networks in general; telecommunications via satellites and satellite constellations; electronic transmission of messages and data (messaging) via the Internet, Extranets and Intranets; communications via radio, telephone, telegraphy and remote data transmission devices of all kinds via interactive videography and in particular on terminals, computer peripheral apparatus or electronic and/or digital apparatus, via video telephones and video conferences; transmission of encrypted messages (such as electronic messages and data and encoded electronic messages and data) in particular for the transmission of messages, in particular the transmission, and sending of computerised and computer-readable documents; e-mail services; services in the field of the transmission and forwarding of calls or telecommunications services; services in the field of mobile radio; rental of modem peripheral apparatus; rental of access times to database servers; telecommunications, electronic data transmission, data transmission via computer servers; radio communications, computerised transmission of messages and images; sending and receiving of data, signals and information, being processed by telematics apparatus and telematics devices, computers or telecommunications apparatus, telecommunications devices and telecommunications instruments; electric and electronic exchange of computerised and computer-readable data; wireless and secure e-mail services and data transmission; electronic message transmission; electric and electronic monitoring, sending and receiving of data, signals, images and information, transmission of encrypted messages and images; teleinformatics via terminals; services relating to secure communications via radio telephones and mobile telephones; transmission via satellite; data transmission, data transfer and services for providing online access to data, in particular in the fields of satellite navigation and positioning, media for navigation and position data; preparation, providing of access to available data and information; computerised processing of position and navigation signals, and data for simulations and experiments; preparation, providing of telecommunications data and telecommunications information on the Internet; secure communication (transmission) of data and voice data, for others; providing access to software platforms guaranteeing user authentication, data integrity and data privacy, and file acceptance; transmission of documents or electronic data via electronic networks, including the Internet, and access to the aforesaid documents or electronic data; providing access to software platforms for services in connection with the encryption and signing of files, documents or electronic data, for others; providing access to software platforms for services in connection with the secure transfer of files, documents, data or electronic payments via electronic networks, including telephone networks and the Internet; providing access to telecommunications networks; providing access to the Internet; access to the Internet; provision of the access to the Internet; providing access to the Internet; computerised transmission of messages and images, in particular high-resolution and very high-resolution images and geographical information; satellite transmission of messages and images, in particular high-resolution and very high-resolution images and geographical information; providing access to databases and data memories, in particular databases and data memories containing images recorded from satellites or antenna systems; transmission of data from digital contour line models and geographical information; access to electronic databases and data memories and centres for information retrieval; in particular for drawings, images, photos, charts, maps, lists, aerial photographs, satellite images, surface models, in particular rental of access times, organisation and management of access authorisations; communications in connection with data transmission on computer networks; provision of access to databases and data memories on the Internet, in particular providing access to software; (computerised) transmission of data and images, in particular for global communications networks (the Internet) or for private or user-restricted networks (Intranets); communications means of computer terminals, radio and television broadcasts, means of computer terminals, radio and television broadcasts, means of computer terminals, radio and television broadcasts; telecommunications in the field of aircraft, helicopters and rotorcraft; providing access to Internet portals in relation to aircraft, helicopters and rotorcraft; transmission of messages, news and information in relation to aircraft, helicopters and rotorcraft by means of electronic communications networks; providing access to computer databases and computer memories containing data in relation to aircraft, helicopters and rotorcraft

Cl.39: Transport; packaging and storage of goods; travel arrangement; air transport; storage of aircraft and aircraft parts; freighting; vehicle rental; air traffic management; traffic information; flight safety, in particular providing of information and advice relating to flight safety, technical and operational audits and risk management strategies, traffic supervision measures, traffic guidance measures and pilotage; services for the operation of airports, in particular handling and organisation of an airport and securing and handling of flight operation (air transport); flight consultancy, in particular information regarding flights; arranging of travel tours; recovery and recycling of aircraft and aircraft parts; rental of aircraft and aerial vehicles; positioning and remote control of satellites and spacecraft, in particular launching and suspension of satellites, for others; flight tracking; transport by means of aircraft, helicopters and rotorcraft; stockpiling (warehousing) of aircraft, helicopters and rotorcraft and replacement parts therefor, for others; leasing of aircraft, helicopters and rotorcraft; charitable services, namely transport by means of aircraft, helicopters and
rotorcraft in disaster zones for the provision of urgent humanitarian aid; logistics, shipping, warehousing in relation to replacement aircraft parts; warehousing of replacement parts, fittings, dynamic components and equipment for aircraft, helicopters and rotorcraft, for others; warehouse management and inventory control in the field of replacement parts, fittings, dynamic components and equipment for aircraft, helicopters and rotorcraft, for others; planning and coordination in the field of the transport of replacement parts, fittings, dynamic components and equipment for aircraft, helicopters and rotorcraft, for others

**Cl.40:** Treatment of materials; printing; reclamation, recovery, recycling and reuse of aircraft and aircraft parts; editing and processing of aerial photographs, satellite images, monochrome or multi-spectral photographs, for others; editing and processing of space images; custom manufacturing of helicopters and rotorcraft according to the orders and specifications of others

**Cl.41:** Education; providing of training; entertainment; sporting and cultural activities; providing of training in the field of aviation and space travel; organisation of aviation and space travel exhibitions for information, providing of training and further training and entertainment purposes; videotape film production; teaching and instruction, education and entertainment; correspondence courses; publication of texts, illustrations, books, newspapers, periodicals, illustrated magazines, magazines, publications in all fields and all forms, comprising electronic and digital publications, publications on sound recording carriers and/or image carriers, multimedia carriers (in particular interactive discs, digital sound CD-ROMs) of multimedia programs (computerised editing of texts and/or still or moving images); organisation of introductory and advanced academic events in all fields of general interest; organisation of further training in all fields of general interest; organisation of seminars, study courses and courses; organisation of lectures, forums, congresses and colloquiums; production of radio and television programmes, audiovisual and multimedia programmes (film and recording studios), in particular computerised editing of texts and/or still or moving images and/or music or other sounds and/or noises, for interactive or other use; organisation of concerts, games and/or other events; organisation of exhibitions, games and/or other presentations (entertainment); production of radio and television information and entertainment programmes, for radio and television information programmes and for radio and television entertainment, audiovisual and multimedia programmes (services of film and recording studios), in particular computerised editing of texts and/or still or moving images and/or music or other sounds and noises, for interactive or other use; organisation of shows; production and rental of films and cassettes, including video cassettes, and sound recording or video carriers and multimedia carriers of all kinds in general (in particular interactive discs, digital sound CD-roms); rental of books and other publications; operation of games libraries for loaning and distribution of games, in particular electronic games, through a franchisee, in particular providing of basic training for employees; editing, in particular editing of texts; providing of news reports, photojournalism; translation; rental of recorders, in particular cassette recorders; recording of films on video cassettes and videotapes; practical training, instruction (teaching) and demonstration in the fields of defence, monitoring, communications and security, reconnaissance and geography; organisation and conducting of courses, practical workshops, seminars, training; editing and publication of books, printed matter, and film productions, also stored on CD-ROMs, solely in the fields of reconnaissance and geography for defence and security purposes; publication of books and periodicals online; publishing, other than printing; computer courses relating to the operation, performance and security of information and position determining systems; preparation and conducting of colloquia in the field of the exploitation of satellite data and products derived therefrom; preparation and conducting of conferences in the field of the exploitation of satellite data and products derived therefrom; preparation and conducting of meetings and congresses in the field of the exploitation of satellite data and products derived therefrom; preparation and conducting of seminars in the field of the exploitation of satellite data and products derived therefrom; photography, organisation of exhibitions for cultural and educational purposes, photojournalism, publication of texts, other than publicity texts, in the field of the exploitation of satellite data and products derived therefrom; electronic publication of books and online magazines in the field of the exploitation of satellite data and products derived therefrom; production of television programmes; education, providing of training, entertainment, sporting activities, cultural activities, information relating to educational and entertainment events, film production, services relating to digital images, publication of books; providing of training for aircraft, helicopter and rotorcraft pilots; providing of training for mechanics, technicians and engineers in the field of aircraft, helicopters and rotorcraft; providing of training by means of flight simulators for aircraft, helicopters and rotorcraft; providing of training for mechanics, technicians and engineers in the field of aircraft, helicopters and rotorcraft; organisation of conferences, speeches, talks, courses, seminars, workshops in the field of aircraft, helicopters and rotorcraft and dissemination of training material in connection therewith; conducting of courses, conferences, seminars, workshops in relation to the management, repair, maintenance, servicing and reconditioning of aircraft, helicopters and rotorcraft and flight security and dissemination of training material in connection therewith; publication of books, magazines, periodicals, newspapers, illustrated magazines, catalogues and pamphlets in relation to aircraft, helicopters and rotorcraft; provision of training and maintenance and servicing manuals (handbooks) in relation to aircraft, helicopters and rotorcraft; online library services, namely providing of electronic library services for the supply of electronic information in the field of aircraft, helicopters and rotorcraft; providing and procurement of non-downloadable electronic publications in relation to aircraft, helicopters and rotorcraft; production of training videos in relation to aircraft, helicopters and rotorcraft; providing and procurement of websites offering information regarding the training of aircraft pilots, helicopter pilots and rotorcraft pilots, mechanics, technicians and engineers; organisation of air shows and flying demonstrations and exhibitions in relation to aircraft, helicopters and rotorcraft for information purposes; organisation of educational events; charitable services, namely education, training and vocational guidance and educational support for underprivileged young people in the field of aircraft, helicopters and rotorcraft; providing of training for flight personnel; providing of training for maintenance and servicing; operational training; development of aids for the providing of training; educational support and development of training concepts during the creation of training centres

**Cl.42:** Scientific and technological services and research and design relating thereto; industrial analysis and research services; design and development of computer hardware and software; computer programming; industrial, scientific and technological services and research and design relating thereto; industrial analysis; testing of computer system installations; computer programming for the creation and recovery of computer data in databases; scientific and technological consultancy, other than commercial; engineering with the aim of providing scientific and technological evaluations, calculations, research and opinions in the field of science and technology; engineering, services in the fields of physics and chemistry; technical consultancy, assessment, research, testing and monitoring in the field of technology, in particular with regard to transport, environmental protection, energy technology; material testing; providing of weather information, in particular weather forecasting; design of computer graphics; engineering, engineering (technical assessment); software maintenance; mechanical research; research in the field of aviation and space travel; technological services in the field of flight simulation; technical project studies; research and consultancy in the field of
measurement, characterisation and verification, scientific, technical and technological examination, digitalisation through scanning and sampling of electromagnetic fields; scientific and technological engineering evaluations, assessments, appraisals and research in the technological field of data processing, data analysis and data conversion; creation (design, development) of database programs; conducting of technical tests, examinations, verification, analyses and/or monitoring of devices, equipment, designs and systems, primarily related to vehicles, air and water (in particular helicopters, rotary-wing aircraft and drones); scientific, technical and technological development, optimisation, performance monitoring and testing of methods, algorithms and processing and software modules for the computerised processing of signals belonging to vehicles and apparatus for locomotion and propulsion by land, air and water (in particular helicopters, rotary-wing aircraft and drones); inspections (technical examination), technical tests, technical analyses and/or monitoring of system algorithms for generating data; engineering in the field of performance monitoring and testing in relation to vehicles and apparatus for locomotion and propulsion by land, air or water (in particular helicopters, rotary-wing aircraft and drones); engineering in the field of signal testing and verification; engineering in the field of the development of algorithms and methods for computerised signal processing; scientific evaluation, assessment and appraisal of the preparation and providing of results, in particular in the form of analytical reports, graphics, charts and diagrams; scientific and technological engineering services and research and design relating thereto in the field of equipment and systems for locomotion or propulsion by land, air and/or water, and in the field of the development and adaptation of telecommunications networks and radio communications networks in relation to vehicles and apparatus for locomotion and propulsion by land, air or water (in particular helicopters, rotary-wing aircraft and drones); design, development and updating (for others) of software (recorded programs) for the management, administration, architecture, configuration and protection of local or remote networks for speech, images, data and multimedia data communication networks belonging to vehicles and apparatus for locomotion and propulsion by land, air or water (in particular helicopters, rotary-wing aircraft and drones); design, development and updating (for others) of software (recorded programs) for the design, development, management and securing of access to computer and Internet protocol (IP) networks, programming and maintenance of computer software for military, aviation and space travel applications; research and development of new products for military and aviation applications; network security services for the monitoring and analysis of data traffic within information technology networks; engineering in the field of technological services, namely procurement of data generated by earth observation satellites, precision measurements of terrain models, physical measurements (characterisation of objects observed from the ground in accordance with spectral signatures, atmospheric influences, geometric and radiometric models from on board cameras); research and design in the field of imaging methods by means of satellite and the exploitation of related data, namely design of processing methods for observation data from satellites, development of processing protocols for the exploitation of satellite data with the aim of producing geographical information and engineering in connection with the programming of aerial photographs from a network of observation satellites; industrial analysis and research in the field of satellite imagery and the exploitation of related data; radar research, imaging methods by means of radar; design and development of methods and assessment methods; regeneration (recovery) of databases; consultancy services relating to research in the field of environmental protection; conversion of data and computer programs (other than physical conversion); technical examination, assessment and surveying; examination, assessment and surveying of oil fields; geological assessment and surveying; geological research; analysis of the exploitation of oil fields; land surveying; crude oil exploration; town planning; production and maintenance of websites, for others; geological exploration; research in the field of cartographical products, country coverage maps and land registers; technical engineering information and queries with regard to the presentation of online images generated by satellites, in particular geographical images, geographical maps and topographical maps consisting of images generated via satellites and antenna systems; services relating to technical information and queries with regard to the following products: satellite images, in particular geographical images, geographical maps and topographical maps consisting of images generated by satellites and antenna systems; computerised services relating to the digital image processing and analysis of aerial photographs or satellite images (monochrome or multi-spectral); physics (research); engineering, or information technology services in connection with computerised services in relation to the processing of aerial photographs, satellite images (monochrome or multi-spectral) or design of database programs for global digital contour line models; scientific and technological studies and projects for developing and validation of geo-data in relation to digital contour line models; industrial analysis and research based on digital contour line models for use in the processing and orthorectification of other geo-data and images, modelling of geophysical processes on earth, calculating signal dispersion in the telecommunications industry and logistics and security applications in transport (aeronautics, vehicles); technical consultancy during the planning of critical systems and terms considered too vague by the International Bureau - rule 13(2)(b) of the Common Regulations); analysis of the exploitation of oil fields and gas fields; design and development of computers and software, computer programming for industry, namely the fire brigade, police and government, with regard to operating systems, customer management, systems for the management of valuables, geographical information systems, computerised construction, real-time visualisation and mobile systems and configuration thereof for use on suitable computer hardware; industrial and scientific research; providing of meteorological information, in particular weather forecasting; design of software; design of computer images; engineering (technical evaluation and assessment); design, research, development, construction, technical planning and testing in the field of aircraft, helicopters and rotorcraft; design and development of computers, computer hardware, avionics, communications systems and navigation systems in the field of aircraft, helicopters and rotorcraft; design and development of flight simulators for aircraft, helicopters and rotorcraft; design, development, installation, maintenance and updating of computer software in the field of aircraft, helicopters and rotorcraft; testing of aircraft, helicopters and rotorcraft, in particular security tests; graphic design of schemes for the painting and varnishing of aircraft, helicopters and rotorcraft; rental of flight simulators for aircraft, helicopters and rotorcraft; technical consultancy in the field of aircraft, helicopters and rotorcraft; technical consultancy in the field of aircraft, helicopters and rotorcraft; technical consultancy in the field of aircraft, helicopters and rotorcraft; creation of integrated software programs for flight data capture and scientific and technological data processing (simultaneous, comprehensive and cross-functional recording and collection of relevant data and information from various sources), valuable data extraction (precise processing of data and information through observation, monitoring, filtering, reporting and correlation, of procured and retrieved data and simulation data, decision and optimisation assistance), collaboration between various knowledge areas (full access to processed data and information for all parties concerned) (terms considered too vague by the International Bureau - rule 13(2)(b) of the Common Regulations); design of comprehensive management software for the contents of documents relating to aircraft; design of online adaptation software (customisation) (editing, publishing) of documents relating to aircraft; design of software for scheduled and unscheduled maintenance and servicing of aircraft; design of software for the management of aircraft repairs; design of software for
flight analysis and aircraft security; design of software for the maintenance and servicing of aircraft; design of software in relation to aircraft pilots and flight personnel; design of flight performance software; engineering solutions for the modification of aircraft; development of customer service solutions for aircraft

Cl.43; Services for providing food and drink; temporary accommodation; services for the providing of food and beverages; hotels; food and drink catering; restaurants; cafes; snack-bars; cafeterias.

Cl.45; Legal services; security services for the protection of property and individuals; personal and social services rendered by others to meet the needs of individuals; exploitation of patents, in particular through the issuing of licences and know-how licences; sale of patents; security consultancy; negotiation and exploitation of industrial property rights and copyrights, through the issuing of licences and know-how licences to others; sale of property rights and copyrights; security services for securing and handling of flight operations, flight security and flight monitoring; legal consultancy; franchising, namely granting of licences, management of copyrights; security services for the protection of property and individuals, in particular for air traffic and being sky marshals; legal evaluation of industrial property rights and copyrights; services rendered by the fire brigade, police and government; consultancy and information in the field of security for aircraft, helicopters and rotorcraft; monitoring of a fleet consisting of aircraft, helicopters and rotorcraft for security purposes; legal consultancy with regard to compliance with official regulations in the field of aircraft, helicopters and rotorcraft, namely assessment of legal requirements and obligations and the effects thereof on customers
