Cl.4; Oils for technical or industrial purposes, including compressor oils, gear oils and motor oils; lubricants; industrial greases; lubricating greases; paraffin; dust absorbing compositions; dust wetting compositions; dust binding compositions.

Cl.6; Pipes of metal, including pressure pipes of metal; compressed air ducts of metal; collars of metal for fastening pipes; junctions of metal for pipes; elbows of metal for pipes; common metals and their alloys; building materials of metal; cables and wires of metal, not for electric purposes; ironmongery and small items of metal hardware; goods of metal, included in this class; branching pipes of metal; fittings of metal for compressed air ducts; fittings of metal for building; clips of metal for cables and pipes; containers of metal for air, compressed gas or liquid air; closures of metal for containers; metal sheets; flanges (collars) of metal; masts of metal; grease nipples; door fittings of metal; all aforesaid goods exclusively for and/or in connection with compressed air generation, compressed air distribution and compressed air treatment; parts of all the aforesaid goods, included in this class.

Cl.7; Machines and mechanical apparatus for the generation of compressed air, vacuum and air flow, included in this class; compressors (machines), including reciprocating compressors and screw compressors; blowers for the compression, exhaustion and transport of gases; blowing machines; vacuum pumps being parts of the aforesaid goods (included in this class), including central screw compressor units or central reciprocating compressor units; air compressors; pneumatic transporters; compressed air machines; compressed air motors; compressed air pumps; compressed air vessels being parts of machines; pressure tanks being parts of machines; pumps being parts of machines, motors or engines; turbines, other than for land vehicles; machine tools; pneumatic tools; filters being parts of machines, motors or engines, except those for installation in vehicles and caravans, yet not except those for installation in portable compressors; air filters for motors and/or compressors, except those for installation in vehicles and caravans, yet not except those for installation in portable compressors; catalytic converters for the adsorption of hydrocarbon vapors (gas catalytic converters); activated carbon absorbers and catalytic converters, being parts of machines; activated carbon filters for use in compressed air systems, being parts of machines; high pressure filters being parts of machines; condensate separators being parts of machines; vacuum cleaners; cooling radiators for motors and engines; coolers for motors, compressors or blowers; air condensers; condenser installations; de-aerators being parts of machines; oil separators being parts of machines, including de-oilers for separating oil from air; fittings for compressors and machines; fittings for engine boilers; taps being parts of machines or motors; seals being parts of machines; compressed air main charging systems (control devices for the regulation of compressed air, being parts of machines); compressed air reservoirs being parts of machines; regulators being parts of machines; speed governors for machines and motors; pressure regulators being parts of machines; valves being parts of machines, including pressure valves; pressure reduction valves being parts of machines; pneumatic controls for machines and motors; motors, other than motors for land vehicles; electric motors, other than for land vehicles; generators of electricity; machine housings; mounts for machines; stands for machines; tables for machines; couplings and driving belts, other than for land vehicles; gear boxes, other than for land vehicles; ball-bearings; shaft couplings being parts of machines; cranks being parts of machines; crank shafts; machine wheels; axles for machines; pump diaphragms; superchargers; turbo compressors; fans for motors; antipollution devices for motors and/or compressors, being parts of machines and motors; heat exchangers being parts of machines; parts of all the aforesaid goods, included in this class; safety accessories for compressors, namely safety valves, regulating valves; compressed air reservoirs being parts of compressors, machines and motors; control and regulating devices for compressors, blowers or vacuum pumps; apparatus and devices for machine control; regulating and safety accessories for compressors.

Cl.9; Electric and/or electronic control and regulating devices for compressors, blowers, vacuum pumps, or air treatment apparatus and air treatment devices; electric and/or electronic apparatus and devices for process control and machine
control; electric and/or electronic devices for the remote control of industrial processes; electric and/or electronic regulating devices for compressors, blowers and/or vacuum pumps, included in this class; electric and/or electronic control devices for compressors, blowers and/or vacuum pumps, included in this class; electric and electronic components and units, included in this class; integrated circuits; electronic and/or optoelectronic components and units, included in this class; apparatus and instruments for weak-current engineering, namely for telecommunications, high-frequency engineering, measurement engineering and control engineering; apparatus and instruments for power engineering, namely for conducting, transforming, storing, regulating and control; measuring devices, automatic time switches, automatic weighers; data processing devices and apparatus, including data acquisition equipment and data acquisition apparatus; computer programs recorded on data carriers and/or in data memories; computers and installations consisting entirely or mainly thereof; computer output equipment, including printers, recorders, plotters, terminals, screens, other visual display and feeler units; apparatus and devices for data transmission, including installations consisting entirely or mainly thereof; data memories, namely floppy discs, magnetic hard discs and magnetic tapes, magnetic bubble memories, solid-state memories, tape decks, optically and/or mechanically encoded storage discs and storage tape systems; electrotechnical and electronic apparatus and devices, included in this class; sensors for the acquisition of physical quantities, included in this class; devices for the recording, transmission and reproduction of sound, images and data; parts of all the aforesaid goods, included in this class.

Cl.11; Apparatus, devices and machines for air treatment, including for compressed air conditioning, mainly for the separation and deposition of solid and/or liquid contamination of the compressed air; air filtering installations, except those for installation in vehicles and caravans, yet not except those for installation in portable compressors; air purifying apparatus and air purifying machines; air dryers, including compressed air dryers; desiccant (adsorption) dryers; refrigeration dryers; membrane dryers; drying apparatus and drying installations; drying devices; refrigerating apparatus, refrigerating machines and refrigerating installations in connection with apparatus, devices or installations for generating, distribution and/or preparation of compressed air; air cooling devices; air coolers, including compressed air coolers; condensate drains for compressed air applications being parts of refrigerating devices; heat exchangers, included in this class; apparatus and machines for the treatment of condensate water by means of purification and/or filtration; air filters for air conditioning; filters being parts of household or industrial installations; filter systems, including air filtering installations; compressed air filters; dust filters for use in compressed air installations; air purifying lamps having a germicidal effect; apparatus and devices for the sterilization of air; regulating and safety accessories for gas devices; taps for pipes; safety accessories for compressors, namely protective switches, pressure switches; control and regulating devices for air treatment apparatus and air treatment devices; compressed air reservoirs being parts of the aforesaid goods of class 11; parts of all the aforesaid goods, included in this class; pipe line spigots of metal.

Cl.16; Manuals; paper, cardboard and goods made from these materials, included in this class; printed matter; photographs; computer programs in printed form.

Cl.37; Construction of compressed air generation systems, compressed air distribution systems and compressed air treatment systems; installation, repair, maintenance and care of the goods mentioned in classes 6, 7, 9 and 11; installation services relating to apparatus, devices and installations for compressed air generation, compressed air distribution and compressed air treatment; installation and repair of compressors and compressor installations; plumbing; installation, maintenance and repair of machines for and/or in connection with compressed air generation, compressed air distribution and compressed air treatment; cleaning of compressors and compressed air installations; installation and repair of pipes, namely of pressure pipes; rental of compressed air machines; rental of installations and devices for the generation, conduction, storing, release and/or treatment of compressed air.

Cl.39; Distribution and supply of compressed air for third parties.

Cl.40; Generation of energy and of compressed air; consultancy services for third parties in the field of generation of energy or of compressed air; air purification; air freshening (air conditioning); rental and leasing of installations serving the generation or supply of energy or of compressed air; generation of compressed air for third parties.

Cl.41; Training and further training of engineers, including in the field of compressed air, compressors and compressed air applications; education; providing of training; film production; arranging and conducting of conferences and seminars.

Cl.42; Technical planning of installations serving the generation, conduction, storing, release and/or treatment of compressed air; technical consultancy in relation to the development of technologies and technical components for compressed air systems; scientific and industrial research; computer programming; engineering services; construction drafting; technical project studies; quality control; preparation of reports relating to engineering consultancy services; material testing; all of the aforesaid services exclusively in the fields of compressed air generation, compressed air distribution and compressed air treatment; engineering consultancy services in the field of compressed air generation, compressed air treatment and compressed air distribution; research in the fields of compressed air generation, compressed air treatment and compressed air distribution.

Cl.5; Pharmaceutical and veterinary preparations; sanitary preparations for medical purposes; dietetic food and substances adapted for medical or veterinary use, food for babies; dietary supplements for humans and animals; plasters, materials for dressings; materials for stopping teeth, dental wax; disinfectants; preparations for destroying vermin; fungicides, herbicides; absorbent articles for personal hygiene; air deodorising preparations; dental preparations and articles; air purifying preparations; diagnostic preparations; disinfectants and antiseptics; hygienic preparations and articles, other than toiletries; medical preparations; medicated hand wash; medicinal mouth sprays being for nicotine replacement purpose.

Cl.10; Surgical, medical, dental and veterinary apparatus and instruments, artificial limbs, eyes and teeth; orthopaedic articles; suture materials; sex aids; massage apparatus; supportive bandages; furniture adapted for medical use; dental equipment; diagnostic, examination, and monitoring equipment; hearing protection devices.

Cl.16; Adhesive printed matter; advertisements [printed matter], advertising material being printed matter; audiovisual teaching materials; computer software in the form of printed matter; printed matter relating to health education; paper, cardboard, stationery, instructional and teaching material, printed publications, educational materials in printed form; booklets, books; charts, computer programmes in the form of printed matter; drawing instruments and materials; pens; graphic representations; handbooks; letters; magazines; manuals; newsletters; pamphlets; pictures; posters, memo books, year planners; personal organisers [printed matter]; plastic covered cards bearing printed matter; printed matter for advertising purposes; printed matter for educational purposes; printed matter for instructional purposes; printed matter for record keeping.

Cl.25; Clothing; footwear; headgear.

Cl.32; Beers; mineral and aerated waters; non-alcoholic drinks; fruit drinks and fruit juices; syrups for making beverages; shandy; de-alcoholised drinks, non-alcoholic beers and wines.

Cl.33; Alcoholic beverages (except beers); alcoholic wines; spirits and liqueurs; alcopops; alcoholic cocktails.

Cl.34; Tobacco; smokers' articles; matches; lighters for smokers.

Cl.35; Advertising; business management; business administration; office functions; organisation, operation and supervision of loyalty and incentive schemes; advertising services provided via the Internet; production of television and radio advertisements; accountancy; auctioneering; trade fairs; opinion polling; data processing; provision of business information; retail services connected with the sale of therapeutic, diagnostic and medical devices, software and medical equipment; market campaigns; market campaigns relating to health.

Cl.41; Education; arrangement of conferences for educational purposes; arrangement of seminars, workshops and exhibitions for educational purposes; publication of books; writing of texts other than publicity texts; educational information and services; instructional services; provision of on-line electronic publications (not downloadable from the Internet); production of video-tapes for corporate use in corporate educational training; professional consultancy relating to education; provision of information relating to education; publication of educational material; technological education services; providing of training; entertainment; sporting and cultural activities.
Cl.42; Scientific and technological services and research and design relating thereto; industrial analysis and research services; design and development of computer hardware and software; computer programming; installation, maintenance and repair of computer software; computer consultancy services; design and development of webpages for websites; creating, maintaining and hosting the web sites of others; design services; electronic data storage.

Cl.44; Medical services; veterinary services; hygienic and beauty care for human beings or animals; agriculture, horticulture and forestry services; dentistry services; medical analysis for the diagnosis and treatment of persons; pharmacy advice; garden design services.

Cl.4; Cooling lubricants.
Cl.7; Machines and machine tools and installations consisting thereof, namely machines and machine tools and installations consisting thereof for metal treating and working, in particular drilling machines, painting and dyeing machines, robotic machines, conveying machines, marking machines, punching machines/clippers (machines), milling machines, sawing machines, in particular circular sawing machines and band saws, welding machines, flame cutting machines, cutters (machines) and cutting machines; control apparatus, tools and parts of machines for the aforesaid machines and machine tools and installations consisting thereof, included in this class; blasting machines, preserving machines, lacquering machines, sawing machines, punching machines, clippers (machines) and welding machines and installations consisting thereof and conveying machines and conveying installations consisting thereof and conveying devices for metal treating and working; sheet-metal working machines and installations consisting thereof; belts for conveyors and conveying machines and installations consisting thereof, namely roller conveyors and cross conveyors for the supply and removal of workpieces, material rods, profiles and sheets and plates of metal to and from processing machines and length measuring and positioning systems thereof; cranes (lifting and hoisting apparatus); robots
machines); robotic manipulators (machines) for the supply and removal of workpieces, material rods, profiles and sheets; robotic welding machines and installations consisting thereof for the manufacture of welded structures; assembly machines and machines for the treatment of materials; mechanical tools, as far as included in this class, in particular circular saw blades, band saw blades, shear blades, borers, thread cutters, embossers, marking tools, milling tools, oxy-acetylene cutters and plasma torches, welding torches, mechanical cooling lubricant apparatus, all aforesaid mechanical tools for machines and machine tools and installations consisting thereof form metal treating and working, in particular drilling machines, painting and dyeing machines, robotic machines, conveying machines, marking machines, punching machines/clippers (machines), milling machines, sawing machines, in particular circular sawing machines and band saws, welding machines, flame cutting machines, cutters (machines) and cutting machines; modular tools for machines and machine tools; lubricators (parts of machines); coding and marking machines; sharpening machines for saw blades, saw bands and borers; individual parts, wearing parts and replacement parts for all of the aforesaid goods, included in this class.

Cl.9; Recorded or downloadable computer software, in particular for operating and control of machines, for the management of order data, cutting data, material data and for optimizing manufacturing processes and manufacturing steps, for communication with superordinate management systems, including CAD systems or ERP systems for visualizing, monitoring and control of operating processes; electric installations for the remote control of industrial operations.

Cl.37; Assembly, installation, maintenance and repair of machines and machine tools and installations consisting thereof, in particular drilling machines, painting and dyeing machines, robotic machines, conveying machines, marking machines, punching machines/clippers (machines), milling machines, sawing machines, in particular circular sawing machines and band saws, welding machines, flame cutting machines, cutters (machines) and cutting machines.

Cl.41; Providing of training and instruction for using machines and machine tools and installations consisting thereof, in particular drilling machines, painting and dyeing machines, robotic machines, conveying machines, marking machines, punching machines/clippers (machines), milling machines, sawing machines, in particular circular sawing machines and band saws, welding machines, flame cutting machines, cutters (machines) and cutting machines.
Cl.7; Machines and mechanical apparatus for the generation of compressed air, vacuum and air flow, included in this class; compressors (machines), including reciprocating compressors and screw compressors; blowers for the compression, exhaustion and transport of gases; blowing machines; air suction machines; vacuum pumps being machines; parts of the aforesaid goods (included in this class), including central screw compressor units or central reciprocating compressor units; air compressors; pneumatic transporters; compressed air machines; compressed air motors; compressed air pumps; compressed air vessels being parts of machines; pressure tanks being parts of machines; pumps being parts of machines, motors or engines; turbines, other than for land vehicles; machine tools; pneumatic tools; filters being parts of machines, motors or engines; air filters for motors and/or compressors; catalytic converters for the adsorption of hydrocarbon vapors (gas catalytic converters); activated carbon absorbers and catalytic converters, being parts of machines; activated carbon filters for use in compressed air systems, being parts of machines; high pressure filters being parts of machines; condensate separators being parts of machines; vacuum cleaners; cooling radiators for motors and engines; coolers for motors, compressors or blowers; air condensers; condenser installations; de-aerators being parts of machines; oil separators being parts of machines, including de-oilers for separating oil from air; fittings for compressors and machines; fittings for engine boilers; taps being parts of machines or motors; seals being parts of machines; compressed air main charging systems (control devices for the regulation of compressed air, being parts of machines); compressed air reservoirs being parts of machines; regulators being parts of machines; speed governors for machines and motors; pressure regulators being parts of machines; valves being parts of machines, including pressure valves; pressure reduction valves being parts of machines; pneumatic controls for machines and motors; motors, other than for land vehicles; electric motors, other than for land vehicles; generators of electricity; machine housings; mounts for machines; stands for machines; tables for machines; couplings and driving belts, other than for land vehicles; gear boxes, other than for land vehicles; ball-bearings; shaft couplings being machines; crankshafts being parts of machines; machine wheels; axles for machines; pump diaphragms; superchargers; turbo compressors; fans for motors; anti-pollution devices for motors and/or compressors, being parts of machines and motors; heat exchangers being parts of machines; parts of all the aforesaid goods, included in this class; safety accessories for compressors, namely safety valves, regulating valves; compressed air reservoirs being parts of compressors, machines and motors; regulating and safety accessories for compressors.

Cl.11; Apparatus, devices and machines for air treatment, including for compressed air conditioning, mainly for the separation and deposition of solid and/or liquid contamination of the compressed air; air filtering installations; air purifying apparatus and air purifying machines; air dryers, including compressed air dryers; desiccant (adsorption) dryers; refrigeration dryers; membrane dryers; drying apparatus and drying installations; drying devices; refrigerating apparatus, refrigerating machines and refrigerating installations; air cooling devices; air coolers, including compressed air coolers; condensate drains for compressed air applications being parts of refrigerating devices; heat exchangers, included in this class; apparatus and machines for the treatment of condensate water by means of purification and/or filtration; air filters for air conditioning; filters being parts of household or industrial installations; filter systems, including air filtering installations; compressed air filters; dust filters for use in compressed air installations; air purifying lamps having a germicidal effect; apparatus and devices for the sterilization of air; regulating and safety accessories for gas devices; taps for pipes; safety accessories for compressors, namely protective switches, pressure switches; compressed air reservoirs being parts of the aforesaid goods of class 11; parts of all the aforesaid goods, included in this class.

Cl.37; Construction of compressed air generation systems, compressed air distribution systems and compressed air treatment systems; installation, repair, maintenance and care of the goods mentioned in classes 7, 9 and 11; installation services relating to apparatus, devices and installations for compressed air generation, compressed air distribution and compressed air treatment; installation and repair of compressors and compressor installations; plumbing; installation, maintenance and repair of machines for and/or in connection with compressed air generation, compressed air distribution and compressed air treatment; cleaning of compressors and compressed air installations; installation and repair of pipes, namely of pressure pipes; rental of compressed air machines, namely rental of machines for the generation of
compressed air; rental of installations and devices for the generation, conduction, storing, release and/or treatment of compressed air.

Cl.39; Distribution and supply of compressed air for third parties.

Cl.40; Generation of energy and of compressed air; consultancy services for third parties in the field of generation of energy or of compressed air; air purification; air freshening (air conditioning); rental and leasing of installations serving the generation or supply of energy or of compressed air; generation of compressed air for third parties.
