human resource management, namely, project staffing; business management and business management in the nature of control over secure information distribution on global computer information networks and on local computer networks; business project management services for construction projects, namely, cost and schedule control, document control, utility coordination, contract administration, contractor coordination and change order control;
graphic and multimedia design of advertising materials for the purpose of promoting the goods and services of others.

Cl.37; Construction supervision services for the energy, transportation, pollution, abatement, water resources and health care industries; building construction supervision; construction management of tunnels and underground structures; construction consultancy; construction management; construction services, namely, custom construction of commercial buildings; construction supervision; consulting in the field of building construction and building construction supervision; consulting in the field of hospital construction; inspection services in the course of construction of airports, highways and bridges; residential and building construction consulting; residential and commercial building construction; technical consultation in the field of building construction; technical consultation in the field of building materials, namely, cementitious materials, asphalt and aggregates; house, building and public or industrial structure demolition services; building construction services; building construction, remodeling, inspection, maintenance, reinforcing, restoration and repair; construction of tunnels and underground structures; construction and renovation of buildings; construction grading services; construction of airports, buildings, medical establishments, roads, underground utilities, housing pads, highways and bridges; construction, maintenance and renovation of property; consulting services for the protection of historical monuments; electrical contracting and services, namely, installation of electrical machinery, repair of electrical systems, and comprehensive preventative maintenance service for electrical systems; erecting of commercial centers, housing areas and manufacturing plants; pipeline construction, maintenance, installation and repair; providing information on repair services in the aviation sector; refurbishment of buildings; renovation and restoration of buildings; repair of buildings; repair work on buildings; road construction; construction of steel structures; steel structure construction works; street construction; construction project management services; construction services in the field of entertainment, commercial, sports, data centers, disaster recovery, government, healthcare, education, hospitality, transportation, residential and retail; construction project management services in the field of construction of oil and gas facilities; technical consulting related to the installation of oil and gas facilities; construction of aquatics facilities; construction of water treatment facilities; consulting services for the construction of water treatment and purification plants, solid waste treatment plants and other municipal infrastructure facilities; marine construction; pump repair and maintenance; repair or maintenance of water pollution control equipment and water purifying apparatus; construction consultancy relating to sanitation facilities; underground building, construction, dredging, and repair; industrial construction services, namely, construction of manufacturing plants, bulk storage facilities and specialized structures, and installation of industrial equipment for use in the mining, forestry, food processing, power generation, petrochemical, manufacturing and materials handling industries; commissioning services; project management, construction and management, all for creation, demolition, and decommissioning of facilities and sites; construction management services, namely, construction consultation, and construction of government, commercial and industrial properties, and inspections during building construction; construction program management and construction management services and maintenance services for large and complex engineering projects to build, maintain and improve healthcare complexes, K-12 schools, colleges and universities, public buildings, power plants, commercial, industrial and manufacturing facilities, and federal, state and municipal infrastructure, namely, bridges, highways, interchanges, tunnels, intelligent transportation systems (ITS), mass transit systems, airports, port and harbor facilities, and water supply, and water and waste treatment and distribution systems; maintenance and improvement in the nature of repair of public buildings, commercial, industrial and manufacturing facilities, and federal, state and municipal infrastructure, namely, bridges, highways, transportation, pollution, abatement, water resources and health care industries; architectural and engineering services; architectural consultancy; architectural design; civil engineering; conducting engineering surveys; conducting of technical feasibility studies; consulting in the field of structural engineering; consulting in the fields of engineering and architecture; design for others in the field of engineering; design of tunnels and underground structures; drawing up of plans and engineering drawings; engineering services for building and property condition assessment, facility management, repair and restoration, building instrumentation and monitoring, and environmental consulting; engineering services for the construction of water treatment and purification plants, solid waste treatment plants and other municipal infrastructure facilities; engineering services in the field of environment; engineering services, namely, engineering services for the construction of airports, highways and bridges; land use planning services; landscape architectural design; planning and layout design for the interior space of retail business establishments; planning of buildings and infrastructure systems for buildings; providing quality assurance services in the field of engineering; quality control for others; structural engineering design services; urban planning; architectural research; civil engineering for the design of airports, highways and bridges; computer aided design for others; conducting chemical surveys, namely, strength and chemical testing of cementitious materials, asphalt and aggregates; construction drafting; consulting services in the field of architectural design; building and construction drafting; drafting of construction plans for recreation premises; engineering; graphic illustration and drawing services, namely, providing graphic illustrations and drawings of commercial and industrial building designs, and converting building designs or markups to electronic CAD drawings; inspection, quantity and quality control, supervision and verification of the quality and quantity of raw materials, commodities, manufactured, semi-manufactured and transformed goods or goods of any other nature and their conformity with national and international norms, laws, rules, practice and standards and with clients’ contractual requirements; inspections of airports, highways and bridges; marine, aerial and land surveying; materials testing, analysis and evaluation; mechanical engineering and research; monitoring of commercial and industrial sites for detection of volatile and non-volatile organic compounds; monitoring of erosion and sedimentation; pipeline inspection services; planning and layout design services for transportation environments; product development and engineering services for others; providing design services for others in the field of theme parks, museums, and miniature golf courses; research and development and consultation related thereto in the field of civil engineering; research and development of technology in the field of civil engineering; research on building construction or city planning; research relating to mechanical engineering; research, development, engineering and testing services in the fields of welding and material joining; survey design and research; surveying and engineering; technical consultancy regarding the field of road cutting technology; technical surveying; testing or research on civil engineering; testing, analysis and evaluation of the goods and services of others for the purpose of certification; testing, analyzing and evaluating the structural properties of masonry and concrete structures; architectural consultation; civil engineering relating to water irrigation; engineering and hydrological design of restoration of stream channels, marshes, estuaries, and wetlands; engineering services in the field of reduction of operating costs, fuel blending, waste handling, quality performance of co-products and by-products, and chemical distribution; environmental services, namely, technical consultation in the field of environmental science, engineering services, design for others in
the field of energy engineering, designing and testing of energy products for others; environmental services, namely, technical consultation in the field of environmental science, engineering services, design for others in the field of environmental engineering, designing and testing of new environmentally friendly products for others; hydraulic engineering and design; hydrologic and engineering modeling and design of measures to protect areas likely to be inundated by storm-water and floodwaters; architectural design services in the fields of civic, corporate, institutional, healthcare, justice, leisure, sports venues, transportation, government, and utilities; engineering design services; spatial planning for buildings; climate and resource planning for buildings; community planning; urban redevelopment and regeneration planning; infrastructure and public facilities planning; planning policy analysis; planning project management; consulting in the field of sustainable community planning and sustainable business design; engineering services in the field of reduction of operating costs; application service provider (ASP) featuring software for use in accounting/financial management, deployment/personnel management, property/inventory control management, production control management, quality/safety/environmental management, supply chain management, planning and schedule management, document management and earned value management; application service provider featuring software for providing an on-line database in the field of transaction processing to upload transactional data, provide statistical analysis, and produce notifications and reports; application service provider, namely, providing, hosting, managing, developing, and managing applications, software, web sites, and databases in the field of wireless delivery of content to handheld computers, laptops and mobile electronic devices; application service provider, namely, providing, hosting, managing, developing, researching, analyzing, reporting, and maintaining applications, software, web sites, and databases of others in the field of healthcare, benefits programs, employee productivity, risk management; application service provider for hosting computer application software in the field of knowledge management relating to creating searchable databases of information and data to allow users to perform, on-line, the collecting and analyzing of different types of opinion surveys; application service provider for hosting computer application software in the field of knowledge management relating to creating searchable databases of information and data; application service provider for hosting computer application software in the field of knowledge management relating to searching and retrieving information from computer databases; namely, hosting a water quality management system and a computer system for customers to remotely manage, administer, modify and control their end user computer devices, data and software applications; computer systems integration services; database development services; integration of computer systems and networks; IT integration services; hosting a secured-access website that gives registered internet-networked institutions to upload, view, copy, print, download and share documents and images for the purposes of conducting consumer-driven transactions; software as a service (SaaS) services, namely, hosting software for use by others for use in use in accounting/financial management, deployment/personnel management, property/inventory control management, production control management, quality/safety/environmental management, supply chain management, planning and schedule management, document management and earned value management; analysis of stream water quality; bacteriological consultation, research and testing; calculating and simulating flood flows, modeling of areas likely to be inundated, and preparing related reports and technical documentation; chemical, biochemical, biological and bacteriological research and analysis; civil engineering for the design of wastewater treatment facilities; civil engineering relating to water irrigation; computer-aided engineering services for others; consultation services in the field of hydrological research; consulting services in the field of environmental assessment, compliance and planning; technological consultancy in the field of water distribution systems and wastewater systems; environmental services, namely, detection of contaminants in water; environmental testing and inspection services; hydrologic and hydraulic modeling and design of storm drainage infrastructure; hydrologic study of surface and ground water; hydrological calculations and simulations of flood flows in streams, marshes, and wetlands; hydrological research; inspections of water treatment facilities; mapping services; marine, aerial and land surveying; materials testing, analyzing, and evaluation; mechanical engineering and research; monitoring of stream water quality; planning and designing aquatics facilities; providing environmentally friendly automation solutions, namely, site evaluations, control design analysis, and integrated installation services for monitoring and controlling resource devices and systems; providing quality assuranced and quality monitoring services in the field of wastewater treatment; providing reagent sample testing and diagnostic services for others in the fields of science and research related thereto; providing technological and scientific information about environmentally-conscious and green innovations; research in the field of hydrogeology; scientific research and development; sewer overflow monitoring services; sewer system monitoring services; technical consultancy in the field of environmental science; technical monitoring for construction of projects in the field of water; technology supervision and inspection in the field of waste water; technology supervision and inspection in the field of water resources; testing of filters; testing of raw materials; underwater structural inspection services; water quality control services; consultation and engineering services in the areas of industrial engineering, mining, land surveys, mapping and geographic information services, transportation, water resources and irrigation, environmental engineering, urban economic and development planning, urban development engineering, and municipal engineering; engineering and architectural design, namely, creating plans, specification and preliminary and final designs for others for large and complex engineering projects to build, maintain and improve healthcare complexes, K-12 schools, colleges and universities, public buildings, power plants, energy facilities, commercial, industrial and manufacturing facilities, and federal, state and municipal infrastructure, namely, bridges, highways, mass transit systems, port and harbor facilities, airports, water supply, and water and waste treatment and distribution systems; systems engineering for large and complex engineering projects to build, maintain and improve public buildings, power plants, industrial and manufacturing facilities, and federal, state and municipal infrastructure, namely, bridges, mass transit systems, port and harbor facilities, airports, water supply, and water and waste treatment and distribution systems; technical assistance in the establishment and operation of large and complex engineering projects to build, maintain and improve healthcare complexes, public buildings, commercial, industrial and manufacturing facilities, power plants, and federal, state and municipal infrastructure, namely, highways, mass transit systems, port and harbor facilities, airports, water supply, and water and waste treatment and distribution systems; technical planning and deployment services for others in the field of emergency response; energy management, and earthquake studies, and compliance reports; computer consultation in the field of computer...
security; computer security service, namely, restricting access to and by computer networks to and of undesired web sites, media and individuals and facilities; design and development of computer networks; engineering services with respect to government, commercial and industrial properties; design of government, commercial and industrial properties for others; computer and computer network design and engineering, in the fields of geographic information services combining software and information technology to produce visual representations of topographies; computer application software development for others for simulation and imaging services, integration of computer systems and networks; updating and maintenance of database systems; engineering in the field of network and database design and development; engineering services for large and complex engineering projects to build, maintain and improve healthcare complexes, K-12 schools, colleges and universities, public buildings, power plants, commercial, industrial and manufacturing facilities, and federal, state and municipal infrastructure, namely, bridges, highways, mass transit systems, airports, port and harbor facilities, water supply, and water and waste treatment and distribution systems; operations for computer systems and computer networks in the nature of computer and network design and engineering, computer application development, computer application integration, development, updating, and maintenance of databases, computer network integration, and computer systems integration for large and complex engineering projects; planning and laying out of commercial buildings; construction planning; planning and laying out of factory buildings and production facilities; hosting computer databases via the secured-access internet through which documents and images can be viewed, copied, and printed for purposes of conducting corporate transactions; hosting an on-line computer database in the field of locating products, describing products, rating products, pricing products and comparing prices of products.

Cl.3: Solvents; solvents for adhesives; solvents for paints; varnish removers; alcoholic solvents as cleaning products; degreasing preparations based on solvents; wipes impregnated with solvent products; cleaning solvents and removing preparations in the form of aerosols.

Cl.6: Motor homes of metal; mobile homes of metal; steel buildings; buildings of metal; transportable buildings of metal; prefabricated houses (ready-for-assembly) of metal; reinforcing materials of metal for building; building materials of metal; non-electric cables and wires of metal; pipes of metal; building materials of metal; frames of metal; roof gutters of metal; partitions of metal; floor, wall, ceiling coverings of metal; building panels of metal; roofing of metal; roof coverings of metal; roofing, of metal, incorporating photovoltaic cells.

Cl.7: Machine tools; industrial cleaning machines; degreasing fountains; mixing machines; mixing and non-mixing storage machines; stirring apparatus; centrifugal machines; centrifugal pumps; pouring apparatus namely machines for pouring paint components in the form of particles, pigments, solid, liquid or soft substances; filling machines for paint; painting machines; machines for holding particles and/or pigments suspended in a solid, soft or liquid substance; sheet metal machines and apparatus; metalworking machines; metalworking machines; air suction machines; suction machines for industrial use; bellows [machines]; compressed air machines; drainage machines; lubricating pumps; vacuum pumps [machines]; compressed air pumps; blowing machines for the compression, exhaustion and transport of gases; automatic handling machines [manipulators]; filling machines; apparatus and machines for filling guns and aerosol cans with paint; sealing machines for industrial use; electrical apparatus for sealing plastics [packaging]; bottle stoppering machines; bottle capping machines; bottle sealing machines; mixing machines; mixers [machines]; vibrators [machines] for industrial use; electric can openers; guns [tools using explosives]; rinsing machines; dyeing machines; spray guns for paint; air brushes for applying color; automatic distribution machines; washing apparatus; high-pressure washers; cleaning appliances utilizing steam; apparatus for washing spray guns for paint; waste compacting machines; spray can compacting machines; machines for filling packaging containers; machines for hermetically sealing packaging containers; paint spray guns and aerosols, including their caps and stoppers for filling containers; machines for the manufacture, handling and processing of paints, in particular paint mixers; aerosol sprays; pumps for aerosols; aerosol capping machines; parts of machines and spray apparatus, namely spray valves and diffuser buttons; apparatus for applying, dispersing or micronizing paint.

Cl.9: Dosing apparatus and instruments; weighing apparatus and instruments; measuring apparatus and instruments; electric control apparatus for engines; measuring spoons; scales; quantity indicators; electric measuring apparatus; precision measuring apparatus and instruments; chemistry apparatus and instruments; solenoid valves [electromagnetic switches]; dosing apparatus, including caps and stoppers; dosage dispensers, including caps and stoppers.

Cl.11: Heating and ventilation apparatus for freeze protecting water-based paints; drying apparatus for paints; air filtering installations; ventilation hoods; desiccating apparatus.

Cl.12: Vehicles; apparatus for locomotion by land, air or water; caravans; motor homes; trailers; cabin trailers; spare parts and components of vehicles, caravans, mobile homes, trailers, cabin trailers.

Cl.20: Caps, stoppers and lids not of metal for bottles and containers; caps, stoppers and lids not of metal for packaging containers for industrial use; caps, stoppers and lids not of metal for containers other than for household or kitchen use; multi-functional caps, stoppers and lids for containers other than for household or kitchen use; caps, stoppers and lids of plastic; mixer caps, stoppers and lids; caps and stoppers for paint containers [spray guns and aerosols]; storage containers of plastic.

Cl.6;Ores; metals and metal alloys and products thereof, included in class 6, namely common metals, unwrought or semi-wrought, and their alloys and products made therefrom, in particular rods, plates, strips, sheets, in particular tailored blancs, pipes and fittings therefor, tinplate and packaging steel made from alloyed and unalloyed steel (blackplate), sleepers, rails and other track parts for railbound vehicles, in particular side guide rails and glide strips for magnetic suspension trains, special profiles and special sections; timber pilings, planks and steel sheet piles, sheet piling, sheet pile walls, light sections, sheet pile connection carriers and fittings, flood sheet piling, box sheet piling, steel poles, staves, flat panel and shipbuilding profiles; flat products of stainless steel (corrosion-resistant, acid-resistant, heat-resistant), nickel-based materials, titanium and titanium alloys, magnetic materials (electrical sheets), work platforms, temporary bridges, scaffolding, falsework and parts therefor, namely formwork, props, beams, wires and ropes, and wire mesh and other wire products, sheet-metal ware, filler metals, in particular filler wires, filler rods, and cored wires, cast, pressed, drawn or machined moulded articles, in particular rings, sprockets, toothed wheels, worm wheel sets, industrial gear units, in particular extruder gears, storage and transport containers, prefabricated and collapsible transportable buildings and parts therefor, in particular container offices and workshops, houses, halls, garages, bridges, windows, doors, gates and roof, ceiling and wall construction elements; cast parts of metal, soldering materials, namely soldering wire, rods of metal for brazing; goods of common metal, included in class 6, namely containers, construction fittings, roof panels, facade panels, springs, windows, window sills, window frames, dies, fabrics, grilles, hooks, cramps, bearings, supports for propping up ships, runners, nails, profiles, space trusses, rings, loops, locks, screws, silos, pins, door and gate frames, gates and doors, supporting structures, stairways, door panels, door handles, screw-connection parts, wall panels, brackets, fences and parts therefor, fittings for the aforesaid goods, included in class 6, metal building materials, in particular prefabricated sandwich construction elements consisting predominantly of sheet metal for industrial, hall and housing construction, ironmongery, small items of metal hardware, pipes and tubes of metal; non-electric cables and wires of common metal, transportable buildings of metal, metal building materials, scaffolding, included in class 06 and shuttering and parts therefor of metal for concrete, rails and railway points of metal, rail metal of metal, fixtures of metal for guiding and gripping rail vehicles, being parts of railway rails.

Cl.12;Vehicles and apparatus for locomotion by land, air or water; parts for vehicles and apparatus for locomotion by land, air or water, included in class 12; bodies of metal for vehicles and apparatus for locomotion by land, air or water; engines for land vehicles; parts for vehicle motors and engines.

Cl.19;Asphalt, coal tar, pitch and bitumen, slag and slag bricks including blastfurnace slag and ground granulated blastfurnace slag obtained during the smelting of iron ore, namely blast furnace slag, LD slag; slag products, included in class 19, including building materials, not of metal, road building materials and road surfacing materials, cement, cement raw materials, concrete, concrete components, cement plaster, blastfurnace slag cements; building materials (non-metallic), slag products used as fertilisers; scaffolding and formwork and parts therefor, included in class 19, not of metal.

Cl.35;Media consultant services being marketing consultancy in the field of public relations.

Cl.40;Treatment of materials, namely joining, machining, cleaning, drying, cooling, vacuum treating and coating of workpieces, production of profiles, production of split strips, cutting of sheets and plates of metal, panels or trapezoids, curing of materials and surface finishing, in particular by means of hot-dip galvanizing, hot-dip aluminizing, zinc galvanizing or organic coating; custom manufacturing of bodies for vehicles, chassis parts, components for vehicle undercarriages and components for vehicle drives, in particular internal combustion engines, for others; toolmaking in the form of custom manufacturing, for others; waste, waste water and pollutant treatment, recycling of waste, waste water, scrap and trash; print shops, namely printing; locksmiths (metal treating); carpentry (woodworking).

Cl.42;Services of an architect; town planning; services of a building engineer; services of a mining engineer; services of a chemist; services of a computer scientist; services of an engineer; services of an interior architect; services of a physicist; services of a software programmer; services of a structural engineer (building planning); services of a technical draftsman; services of a surveyor, included in class 42; research services; technical consultancy in the field of computer engineering; installation and maintenance of computer software; rental of data processing equipment and computers; technical analysis of IT infrastructures; technical projecting and technical planning of installations and equipment for telecommunications; contaminated site management, namely technical projecting of land remediation; rental of data processing equipment and computers.
