Cl.1; Chemical products, preparations and compositions for the energy industries; chemical materials usable in the nuclear fuel cycle, nuclear materials, uranium ore, uranium, plutonium, thorium, actinides and lanthanides, in any chemical form or isotopic composition; chemicals for extracting and separating actinides or lanthanides from aqueous or organic solutions or suspensions or gases; chemical products resulting from nuclear fission; chemicals derived from treatments carried out in the nuclear fuel cycle, namely, xenon, krypton, platinoids, in particular ruthenium, palladium, rhodium and platinum; chemical products, namely, neutron resins, materials for protection against ionizing radiation, neutron shielding materials, corrosion-resistant materials, compositions for the immobilization of radioactive materials and nuclear waste, in particular cementitious compositions and concretes, glass compositions and ceramics for the immobilization of radioactive materials and nuclear waste; fuel for nuclear reactors.

Cl.4; Fuels, combustible compositions, in particular in the form of nuclear fuel assemblies.

Cl.5; Pharmaceutical and radio-pharmaceutical products for medical imaging, nuclear medicine and cancer treatment; diagnostic products for medical use, in particular for the localization of cancerous tumors.

Cl.6; Unworked and semi-worked metals and their alloys for use in the energy industries; all machined, laminated, cast, shaped, finished or semi-finished products made of steel, aluminum, copper, lead, tin, zirconium and their alloys, sintered materials; metal materials, tanks and containers for the packaging, transport, storage, warehousing, handling of radioactive, radio-pharmaceutical products, component parts of radio-pharmaceutical products or other chemical or nuclear products; metal building materials and metal transportable buildings for nuclear power plants and reactors, uranium mines, factories and facilities for storage, warehousing, conversion, isotope separation, treatment, reprocessing
and recycling of fuels, ores, nuclear materials, uranium, plutonium and nuclear waste, under construction, in service or in decommissioning.

CI.7; Non-electric couplings (other than for land vehicles); transmission parts and belts (other than for land vehicles); pumps (machines); mechanical equipment (machines) used for and in the nuclear field and the field of the fight against climate change; robots (machines), as well as all their spare parts; robot arms, telescopic arms, remotely-operated arms, their components and spare parts; robots for the intervention, control, measurement, collection, sampling or inspection in a contaminated environment including land robots and underwater robots; electrically or electronically controlled hand tools; electrically or electronically controlled cutting tools; electrically or electronically controlled energy production tools; machine tools; machines, machine tools and apparatus used in the nuclear energy industry or the production of radioisotopes, for soil survey, drilling, extraction, fabrication, handling, processing, storage, isotopic separation, immobilization and storage of ores, metals, nuclear materials, nuclear fuels, plutonium, uranium, thorium, actinides, lanthanides, xenon, krypton, platinoids in particular ruthenium, palladium, rhodium and platinum and nuclear waste; control centers for engines; rotating and static electric machines, jacks especially pneumatic and hydraulic jacks, regulators (machine parts); speed governors for machines and motors, voltage regulators, electric motors (machines); machines, machine tools, industrial rotating and static electric machines, jacks especially pneumatic and hydraulic jacks, regulators (machine parts); speed governors for machines and motors, voltage regulators, electric motors (machines); machines, machine tools, industrial robots or remote-controlled robots for carrying out measurements, inspections, sampling or analyses, for the collection, treatment, recycling of nuclear material, spent nuclear fuel, nuclear waste and remediation and decommissioning of nuclear sites or facilities; industrial devices and robots for the manufacture and preparation of radio-pharmaceuticals.

CI.9; Optical and electro-optical equipment; luminous, mechanical, acoustic and optical signs; data processing equipment; computers, computer peripheral devices; scientific, surveying, optical, weighing, measuring, signaling, checking (supervision), calculating, monitoring (surveillance) and rescue, teaching components, apparatus, instruments and devices for use in the energy industry; ground prospecting apparatus; mapping apparatus, in particular radiological apparatus; apparatus for recording, transmission, receiving, storage, reproduction and processing of sound, images or data; materials and equipment for recording, monitoring, analyzing, communicating, measuring, monitoring, controlling, conducting and supervising of industrial installations, equipment and automated processes for the industry in the energy fields, vehicles for the transport of nuclear material and equipment, tanks and containers containing nuclear material; topographical apparatus and instruments; computer interfaces; IT programs, computer programs, software, firmware, alarms, used in the field of energy; radioactivity detection apparatus, Geiger counters; sensors, apparatus and system for measuring radioactivity; protective masks, clothing and footwear for nuclear or fire protection for intervention in a hostile environment; electric couplings.

CI.11; Apparatus for heating, steam production, heat exchange, heat and steam storage, heat and steam regulation, cooking, refrigeration, drying and ventilation, in particular for nuclear power stations and reactors, factories and facilities for storage, warehousing, conversion, isotope separation, treatment, reprocessing and recycling of fuels, ores, nuclear materials, uranium, plutonium and nuclear waste, under construction, in service or decommissioning; heating apparatus using solid, liquid or gaseous fuels; decentralized power production stations; apparatus for lighting, heating and ventilation for mining purposes; apparatus, machines and installations for purification, cleansing and treatment of air, water, gases; energy generating apparatus, in particular thermal or electrical, using nuclear materials such as actinides.

CI.19; Non-metallic building materials, and non-metallic transportable constructions for nuclear power plants, nuclear reactors, uranium mines, factories and facilities for storage, warehouse, conversion, isotopic separation, treatment, reprocessing and recycling of fuels, ores, nuclear materials, uranium, plutonium and nuclear waste, under construction, in service or being dismantled.

CI.35; Consolidation services for nuclear fuel, ores, nuclear materials, uranium, plutonium and nuclear waste; consolidation of radio-pharmaceuticals, components of radio-pharmaceuticals or other chemicals or nuclear products.

CI.37; Construction, installation and maintenance services for infrastructures, plants, installations, equipment and apparatus in the fields of energy and the fight against climate change; construction, installation and maintenance services for mines, factories and facilities for storage, warehousing, conversion, isotopic separation, treatment, reprocessing and recycling of fuels, ores, nuclear materials, uranium, plutonium and nuclear waste; sanitation, dismantling, maintenance, renovation and rehabilitation services for soil and mining sites, sites contaminated by radio-nuclides, nuclear installations, equipment and apparatus in the nuclear field; construction, installation and maintenance services for nuclear power plants, nuclear reactors, research and engineering facilities and equipment in the fields of nuclear energy and the fight against climate change; construction, installation and maintenance of facilities and equipment used for transporting materials in the field of nuclear energy; mining operation, extraction of uranium deposits, mining, extraction of uranium, extraction of nuclear materials, mineral drilling in particular of nuclear materials; inspection of construction sites, supervision of construction works, information relating to construction in the fields of nuclear energy and the fight against climate change.

CI.38; Communication by computer terminals and transmission of information in the fields of energy and the fight against climate change; remote communication related to the control, adjustment, measurement, signaling, regulation, conducting, protection and monitoring of plants or installations in the field of energy and the fight against climate change; dissemination and transmission of messages, data and information via extranet, Internet or intranet networks in the fields of energies and the fight against climate change; networking for data transmission and on-line information.

CI.39; Collection, conditioning, packaging, ground transport (rail, road), water and air transport, warehousing and storage of nuclear fuel, ores, nuclear materials, uranium, plutonium and nuclear waste; collection, packing, packaging, transportation by land (rail, road), water and air, storage and storage of radio-pharmaceutical products, components of radio-pharmaceuticals or other chemical or nuclear products.

CI.40; 3D printing services; processing of nuclear fuel cycle materials; conversion, treatment, reprocessing, isotopic separation, recycling and transformation of ores, nuclear materials, uranium, plutonium, thorium, actinide and lanthanide, nuclear fuel, materials used in the field of nuclear energy or from processes carried out in the nuclear fuel cycle, namely, xenon, krypton, platinoids, in particular ruthenium, palladium, rhodium and platinum, and nuclear waste; treatment of solid, liquid or gaseous materials including radio-elements; treatment services for liquid and gaseous nuclear effluents; nuclear solid waste treatment; remediation, decontamination, sanitation, deconstruction and dismantling of soil and mine sites, nuclear installations, radionuclide contaminated sites, nuclear equipment and apparatus; destruction, incineration, vitrification, disposal, immobilization and packaging of waste from the nuclear industry and nuclear waste; assembling of
materials commissioned by others; treatment of materials in the energy sector.

**Cl.41:** Training and education services in the fields of energy and the fight against climate change; training, education and assistance (training, teaching) to personnel and operators of mining sites and of nuclear facilities, plants, centers and infrastructures; organizing and conducting of colloquiaums, conferences, congresses, exhibitions, forums, seminars, symposia, teleconferences, video conferences in the fields of energy and the fight against climate change.

**Cl.42:** Engineering, engineering works, laboratory works and management of scientific or technological projects in the fields of energy and the fight against climate change; research, development, analysis, study and design works in the fields of energy and the fight against climate change; scientific, technological and industrial research, design, studies, surveys, advice and information services related to environmental protection, sustainable development, and the fight against climate change; prevention of pollution risks in connection with activities developed in the fields of energy; environmental auditing services for sites, facilities and equipment in the fields of energy; design, programming, updating, maintenance and rental of software applied to the energy and climate change fields; analysis, design, production and management of information and computer technology systems; professional consultations and drawing up of plans (not related to business conduct) in the fields of energy and the fight against climate change; mine prospecting in particular for nuclear materials; inspection of nuclear materials, inspection and surveillance of nuclear facilities and equipment; control and inspection services for mines, nuclear power plants, nuclear reactors, factories and facilities for warehouse, storage, conversion, treatment, isotopic separation, reprocessing, recycling and packaging of ores, nuclear materials, uranium, plutonium, nuclear waste, nuclear fuels and materials used in the nuclear field.

**Cl.45:** Security consultancy in the fields of energy; security and surveillance services for mines, nuclear power plants, nuclear reactors, factories and facilities for warehouse, storage, conversion, treatment, isotopic separation, reprocessing, recycling and packaging of ores, nuclear materials, uranium, plutonium, nuclear waste, nuclear fuels and materials used in the nuclear field.

Cl.7;Machines for use in agriculture, construction, mining, earth moving, marine, material handling and waste management; machine tools; motors and engines [except for land vehicles]; machine coupling and transmission components [except for land vehicles]; agricultural implements other than hand-operated; incubators for eggs; automatic vending machines; speed reducers and overdrives; speed gear boxes; gears, other than for land vehicles; winches; mechanical and hydraulic winches; winch drives; windlasses; cam shafts; crank shafts; axial pumps; hydraulic pumps; oleodynamic pumps, being machines and parts of machines; oleodynamic motors and engines; oleodynamic power units; oleodynamic speed reducers; reduction gears; speed increasers; harvesting machines; cable feeders; recycling machines; lifts; universal joints and drive shaft assemblies for stationary equipment; universal joints, end, slip, ball, weld and tube housings, needle bearings, tapered roller bearings, remanufactured coupling assemblies (except for land vehicles), including shafts, constant velocity universal joints for passenger car; transmission mechanisms and fittings therefor; drive shafts and chains; transmission bands and belts; transmission wires; clutches and fittings therefor; push rods [vehicle engine parts]; transmission control mechanisms; sprockets for machines; ball bearings; pinions for machines; air expellers and ejectors; brakes and fittings therefor; bearings; worm gears for machines; hydraulic control fittings; speed changers; motors and engines (except for land vehicles) and components therefor; filters [parts of machines or engines]; air, oil, fuel, transmission, hydraulic and emission filters for engines; air-oil separation devices for motors and engines; oil pans for motors and engines; components of the transmission systems for motors and engines; plastic components for motors and engines, namely, valve covers, oil pans, transmission oil pans, front covers, air-oil separation modules, air pipes, oil pipes, wiring frames [plastic sealing structure incorporating an electrical conductor in the context of motors and engines], oil cooling modules; automotive heat exchangers including radiators; air conditioning system components, including evaporators, condensers, orifice tubes and lines, fans, fan shrouds and fan blades, being parts of machines; oil coolers including transmission oil coolers, engine oil coolers, power steering oil coolers, and integrated oil coolers and filters; hydraulic fan oil coolers; fuel coolers; exhaust gas coolers and heater cores; machine parts, namely, joints, universal joint shaft, flexible shafts, double joint shafts, hooke's joint shafts, constant velocity joints, cardan joints, double joints, quick disconnect couplings, wobbblers, clamping hubs, universal shafts supports, couplings for universal shafts, angular motion couplings, overload clutches, and parts therefor; transmissions and parts and components thereof, as included in this class; powershift transmissions; metal engine gaskets for vehicles; axles [machine parts], shafts, clutch, bearings, pivots, couplings, joints, propellers, transmissions, their parts and fittings, all for machines; non-metal engine gaskets for vehicles; windmills; turbines, including wind turbines; boat lifts; crane; drilling machines; road rollers; roller conveyors; machines for making edible pastes; machines for mineral processing; machinery for working plastic material; rubber forming machines; rubber mixing machines; rubber manufacturing machines; feeders for machines; alternators; grinding machines; generators of electricity; waste compacting machines; crushing machines; motorized cultivators; hoes; turbocompressors; presses; hydraulic motors; axial motors; orbital motors; gear motors; pumps [parts of machines, engines or motors]; slew drives; slew rings; splitter boxes; valves [parts of machines]; gear boxes other than for land vehicles; electric drives for motors [other than for land vehicles]; plastic and rubber drives being parts of machines; parts and fittings for the aforesaid goods (included in this class).

Cl.9;Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; apparatus for recording, transmission or reproduction of sound or images; magnetic data carriers, recording discs; compact discs, DVDs and other digital recording media; mechanisms for coin-operated apparatus; cash registers, calculating machines, data processing equipment, computers; computer software; fire-extinguishing apparatus; electrochemical process control apparatus and their components; fuel cells and their components; separator plates for fuel cells and other electrochemical process control apparatus; electronic control systems; electronic control units; electric power units; power units [batteries]; power units [transformers]; electronic controls for motors.

Cl.12;Vehicles; apparatus for locomotion by land, air or water; vehicle parts, included in this class; land vehicle transmissions and parts and components thereof; universal joints for land vehicles; kits consisting primarily of a journal cross, bearings, ball joints, bearing caps and associated hardware for use with land vehicles for refurbishing universal joints; drive shafts for land vehicles, drive shaft assemblies, and associated hardware; axles for land vehicles and parts thereof; end, slip, ball, weld and tube housings [parts for land vehicles]; land vehicle parts, namely, transfer cases, transmissions, gear boxes, gear shift covers, housing shafts, bolt sets, links, arms, tie rod ends, sleeves, shims,
camshafts, crankshafts, push rods, chains, valves, and manifold sets; land vehicle parts, namely, general purpose pneumatic controls, clutches, and clutch discs, and parts therefor; needle bearings for land vehicles, tapered roller bearings for land vehicles; remanufactured coupling assemblies including shafts and constant velocity universal joints for passenger cars, and coil springs for vehicles; land vehicle parts, namely, clutches and fittings, brakes and fittings, speed changers, worm gear steering mechanisms; hydraulic brake shocks; tractors; industrial vehicles; reduction gears for land vehicles; suspension shock absorbers for vehicles; propulsion mechanisms for land vehicles; engines for land vehicles; motors, electric, for land vehicles; gear motors for land vehicles; screw propellers; turbines for land vehicles; slew drives for land vehicles; slew rings for land vehicles; splitter boxes for land vehicles.

Cl.17: Rubber, gutta-percha, gum, asbestos, mica and substitutes for all these materials; plastics and resins in extruded form for use in manufacture; packing, stopping and insulating materials; flexible pipes, tubes and hoses, not of metal; semi-processed materials made of rubber or plastics for use in manufacture of machines and motors; flexible pipes, not of metal; insulating materials; seals; duct tape; gaffer tape; flexible hoses, not of metal; adhesive tapes for industrial use; adhesive tapes, for technical purposes; semi-processed brake lining materials; clutch linings; cylinder jointings; gaskets; insulating gloves; pipe coupling and joints, not of metal; sealing rings of rubber or plastic; rubber material for recapping tyres; rubber sealing materials; parts and fittings for all the aforesaid goods.
