network video recorders (NVRs); recorders and remotely-located recorders of images, video footage and audio feeds from security, CCTV or surveillance cameras; computer software; computer hardware; media-rich computer application processors; computer hardware platforms; computer middleware; automation systems comprising wired and wireless controllers, controlled devices, and software for security and other monitoring and control applications; facilities management software, namely, software to control building environment, access and security systems; software to control building environmental, access and security systems; control system for the remote observation, management and operation of security systems and surveillance cameras, comprising computers, software, cameras, access controls, and video display screens; computer software for use in managing electronic devices for use for tracking people, vehicles and objects and receiving reports and text messages related thereto; computer application software for mobile phones used for managing electronic devices used for tracking people, vehicles, and objects and receiving reports and text messages related thereto; computer software and applications for mobile computer systems (apps); camera hardware systems for IP (Internet Protocol) video surveillance; digital video recording software for IP (Internet Protocol) video surveillance; network video recording software for IP (Internet Protocol) video surveillance; computer hardware for IP (Internet Protocol) video surveillance; automated self-contained electronic surveillance devices that can be deployed to gather evidence or intelligence in remote locations; electric and electronic video surveillance installations; IP (Internet protocol) video servers; servers for web hosting; remotely-controlled video camera containing a TV receiver, receiver and video recorder; audio-video equipment for use in audio-visual communications; apparatus for receiving and transmitting video images; apparatus being computer equipment for use in connection with sound and image transmission; video transmitters; video players, recorders, transmitters, and receivers for streaming, transmitting, playing and receiving and recording data, image, audio, video and multimedia; portable handheld electronic digital video messengers for recording, storing, transmission or reproduction of visual, audio and data content; application software; computer software applications, downloadable; computer software, namely, software development tools for the creation of mobile internet applications and client interfaces; computer software all for business solutions offered via the Internet; downloadable computer software for business data integration, processing and analysis; cloud computing infrastructure software; computer software to enable software as a service (SaaS) and platform as a service (PaaS) capabilities; computer software for implementing scalable cloud computer application development, deployment and management infrastructure; computer software for use in customer relationship management (CRM); computer software that provides real-time, integrated business intelligence management intelligence by combining information from various databases and presenting it in an easy-to-understand user interface; mobile computing and operating platforms consisting of data transceivers, wireless networks and gateways for collection and management of data; real-time data collection and communication equipment; electronic software updates, namely, downloadable computer software and associated data files for updating computer software in the fields of security, provided via computer and communication networks; automated billing machines and software for processing accounting information; computer software for processing digital images; computer hardware and computer software programs for the integration of text, audio, graphics, still images and moving pictures into an interactive delivery for multimedia applications; computer programs for editing images, sound and video; computer software for organizing and viewing digital images and photographs; computer software to enhance the audio-visual capabilities of multimedia applications, namely, for the integration of text, audio, graphics, still images and moving pictures; software for processing images, graphics and text; software for the continuous transmission of audio, data and video (streaming); telecommunications software; computer software for controlling the operation of video and audio devices for viewing, transmitting, playing, receiving and recording data, image, audio, video and multimedia files and content; computer telecommunications software for transmitting and reproducing voice, audio, video, images and data; video display equipment and software for video-on-demand; real-time video processing apparatus; apparatus for recording, transmission, processing and reproduction of sound, images or data; electrical access control devices; access control hardware and software; access control systems; access control and alarm monitoring systems; electronic sensors; electronic readers; electronic readers and controllers for controlling access to premises; entry-phones, video phones and electrical access control devices; smart cards; electronic card readers; proximity switches; electronic control devices; alarms, smoke alarms and gas alarms; anti-theft devices; intruder detection systems; security systems, alarm systems; detectors; remote presence management products, namely, switches, and console, alarm, sensor and power management devices; point of sale terminals; point of sale apparatus; data storage apparatus; data storage media; data storage devices; computer storage devices, namely, external hard drives, blank flash drives and high-speed storage subsystems for storage and back up of electronic and digital data locally and via a telecommunications network; downloadable newsletters, reports and publications in the fields of security and video surveillance; parts and fittings for all the aforesaid goods.
