Cl.6; Goods of common metals and their alloys, except those provided for in other classes; manganese; containers of metal; metal cables and wires for the nuclear industry and engineering; metals in powder form; nickel; common metals; cored wire in the form of metal tubes for alloying steel; molds; rolling of hafnium and its alloys; rolling of niobium; rolling of zirconium alloys; rolling of titanium and its alloys; ores of metal, including uranium ores; alloys of niobium and titanium; zirconium alloys; steel alloys; tantalum; pipes (technological channels of nuclear reactors); refractory metals (beryllium, vanadium, wolfram, hafnium, germanium, indium, molybdenum, niobium, titanium, zirconium); chromium; pipes and tubes of metal; buildings, transportable, of metal; building materials of metal.

Cl.7; Pumps; valves for industrial equipment; valves [parts of machines]; emergency power generators; alternators; dynamos; current generators; hydraulic controls for machines, motors and engines; pumps [machines]; radiators [cooling] for motors and engines; pneumatic tube conveyors; turbocompressors; steam engines; welded steel structures, parts and accessories for the above-listed goods, included into class 07; generators of electricity; engines, other than for vehicles; pressure valves [parts of machines]; valves for nuclear power plants and ships; machine, namely, to deactivate and uninstall the nuclear installations; metal cutting machines; pumps, centrifugal particularly for the nuclear industry and engineering; drilling machines; drilling machines for metal treating; machines for metalworking industry; turbines for use in the nuclear industry and engineering; centrifuges (machines) for use in the nuclear industry and the energy sector, including gas centrifuges, centrifuges for enriching uranium and the separation of isotopes; electrical drives.

Cl.9; Apparatus for recording, transmission, processing and reproduction of sound, images and other data; calculating machines (computers), data processing equipment and computers; computer programs and computer software for use in the nuclear industry and engineering; computer software for monitoring and control of production processes in the factory; electromagnets; electronic and optical apparatus and instruments, such as computers and video monitors, scales, set squares, lasers, portable meters and measuring tape for inspection, monitoring, weighing and measuring of physical and geometrical parameters in the industrial facilities in the field of nuclear energy, namely, the production of nuclear power and nuclear fuel cycle, connectors and electronics; electronic semiconductor; decontamination equipment parts plants contaminated with radioactive materials; equipment (apparatus) for non-destructive testing of materials at power plants; electronic chips/ microcircuits; magnetic wires used for manufacture of electromagnets; magnets for industrial use; quantum impurity, namely crystalline semiconductor materials; scientific, optic, weight, measuring, inspecting, controlling, topographic, detecting, testing, analysing and information apparatus and instruments, in particular for construction, service, support, putting out of operation and repair of industrial objects, electric stations, nuclear vaults, equipment for nuclear fuel manufacturing, equipment for nuclear fuel processing, equipment for nuclear fuel storage and equipment for nuclear waste storage for scientific research use, industrial research, research and development of new products and materials testing; semi-conductor integrated circuit; semi-conductor devices; semi-conductor memory cards; semi-conductors; silicon plates; structured wafers; superconducting tapes; superconducting wires and cables; superconductors; test and measurement equipment for testing the performance and efficiency of power plant equipment; electric accumulators; equipment (instruments) of the automated system of radiation monitoring at nuclear power plants; equipment (instruments) of neutron flux reactor nuclear power plant; equipment (devices) to control radiation safety at nuclear power plants; equipment (devices) display and logging of inspection results on nuclear thermostats; apparatus for the remote control signals electrodynamic; instruments and apparatus for x-ray radiation, except those used for medical purposes, in particular linear particle accelerators to produce high-energy x-ray radiation and x-ray images for use in verification, materials testing, industrial use and for safety reasons; radiation control apparatus and equipment; radiological apparatus for industrial purposes; physical equipment, electric for the nuclear industry and engineering; battery jars; rechargeable batteries; galvanic batteries; betatrons; gas testing instruments; generators of short-lived isotopes; sensors for the nuclear industry and energy; radiation detectors containing air and gas; fans; dosimeters; battery cases; lasers, not for medical purposes; materials and products for electronic equipment; monocrystals; neutron generator based on charged particle accelerators; special laboratory engineering; clothes, shoes, hats. helmets, masks against radiation exposure; plates for batteries; items of protective clothing for protection against accidents and injuries for use with radioactive materials to prevent radiation exposure; preamps; instruments for measuring and recording of nuclear radiation, including detection units; measuring instruments, including instruments measuring electric; radar apparatus; radiology instruments, in particular, linear particle accelerators to produce high-energy x-ray radiation and x-ray images for use in verification, test materials, industrial applications and use for safety purposes; radiometers; radios; x-ray machines, except for medical purposes; lattice accumulators; management and control systems for nuclear power plants; sonars; spectrometers; processing mechanisms and / or measuring device for
carrying out the test materials to obtain information about their properties; particle accelerators; installations for the remote control of production processes in industrial plants; installation for spraying; apparatus control thermonuclear fusion; cathodic anti-corrosion apparatus; signaling devices [security alarm]; cyclotrons; screens of x-ray machines used for industrial purposes; galvanic cells; uninterruptible power supply (ups); converters, electric; electrical devices and electrical power distribution products; regulating, controlling, signaling and monitoring apparatus for heating, cooling, ventilation and air conditioning, namely, computer hardware for building automation systems which electrically control building heating, cooling, ventilation and air conditioning; computer hardware for building automation systems which electrically control building heating, cooling, ventilation and air conditioning; computer hardware and software which remotely control heating, cooling, ventilating and refrigerating equipment; computer software and hardware for use with smart grid applications having functions of energy load management and control, energy theft detection and control, monitoring and diagnostic of electrical grid, electric power outage management and control, fault detection, network asset management, operation and maintenance of electric grid; fuel cells.

Cl.11; Steam boilers, other than parts of machines (110165); steam generators; air filtering installations; apparatus and instruments for use in cleaning, separation and purification of fluids and gases used in the nuclear industry and nuclear engineering; filters and filtering devices for air and gas conditioning; nuclear generators; nuclear power plants; water filtering apparatus; water filtering devices for use in the nuclear and energy industry and power engineering; research nuclear reactors; components for nuclear reactors; modular nuclear facilities, including fuel, steam generators, reactor housings, covers for the reactor vessel, the inner part of the reactor control rod drive mechanism; nuclear reactors; light-emitting diodes [led] lighting apparatus; cooling systems or nuclear waste and spent fuel; installations for the reprocessing of nuclear fuel and nuclear moderators, and nuclear waste; categories of household or industrial installations, including removal of nuclear materials; industrial boilers [other than parts of prime movers and engines]; heat pumps; solar furnaces; electric lamps and lighting apparatus.

Cl.16; Graphic prints and representations, in particular design drawings, plans, sketches, photos, instructions, printed or electronic teaching and study materials in nuclear engineering; office requisites, in particular adhesive tape dispensers, correcting fluids, pens, pencils, rubbers, punches, staplers, claspes; paper and cardboard; albums for coins; holiday albums; albums for photographs; commemorative albums; albums for stamps; letterhead; note pads; printed publications, namely, manuals on projecting, guidance on the design, technical guidelines, manuals, periodicals in the field of nuclear energy; printing sets, portable [office requisites]; albums; forms, printed; note books; pamphlets; booklets; typing paper; newsletters; waxed paper; magazines [periodicals]; calendars; index cards; registration cards for register; catalogues; envelopes; carbon paper; wrapping paper; stationery; prospectuses; photoprinting paper; educational materials, training aids (other than apparatus), printed or electronic study publications for nuclear industry and engineering; filter paper; photographs; printing type; drafting paper; newspapers; engravings; printed publications; items of paper or plastics, for packaging; signboards of paper or cardboard.

Cl.17; Caulking materials; plastic films for industrial and commercial use; materials for sealing and insulation; semi-finished plastic for industrial purposes; non-conducting materials for retaining heat; insulating oils; insulating glass; flexible tubes, not of metal; non-metal pipes for uranium mines, plants and storages, storekeeping, isotopic separation, processing, recycling and utilization of fuels, ores, nuclear materials, uranium, plutonium and nuclear wastes; rubber, gutta-percha, gum, asbestos, mica and goods made from these materials; plastics in extruded form for use in manufacture.

Cl.19; Non-metallic transportable buildings for security systems; modular and portable non-metallic and non-metallic construction building materials, in particular, cement blocks, tiles, doors, pillars, slabs, panels, pipes for uranium mines and storage, storage, isotope separation, processing, reproccessing and disposal of nuclear materials, uranium, plutonium, and nuclear waste; water-pipes, not of metal; earthenware pipes; ducts, not of metal, for ventilating and air-conditionations; output of output of non- metal tubing, not of metal nor of plastic; storage tanks, for hydrogen (not of metal nor of plastic); water supply tanks (not of metal nor of plastic); tanks for storage of gas (not of metal nor of plastic); containers for storage of fluid gas (not of metal nor of plastic).

Cl.35; Advertising and marketing; advertising services, in particular promotion of goods, services, logos and commercial information, third parties' news by means of printed, audio, video and digital mass media and online media; advertising services; assistance and advice in the management of companies in the energy sector; corporate services, in particular promotion of the interests of the nuclear and energy industry and power engineering; administrative activities in the field of business and business management consultancy; administrative activities in the field of business and office management; advice on the administration in the field of business; assistance on administrative activities in the field of business; inquiries and investigations in the field of business; marketing services in business sphere; development of strategy in the field of business; commercial or industrial management assistance; business management; assistance in the management of the corporation; economic forecasting and analysis; import-export agencies; marketing consultancy; development of a marketing plan; marketing services, in particular the promotion and advertising of products and services of third parties; advertising sponsorship of cultural activities in the nuclear and energy industry and power engineering; marketing research; business management and organization consultancy; organization of exhibitions for commercial or advertising purposes; collection and systemization of information in computer databases; business efficiency expert services; commercial information agencies; advertising agencies; cost price analysis; business auditing; updating and maintenance of data in computer databases; providing business information via the websites; sales promotion for others; commercial administration of the licensing of the goods and services of others; advisory services for business management; negotiation and conclusion of commercial transactions for third parties; outsourcing services [business assistance]; market studies.

Cl.37; Construction and repair information of buildings; building sealing; repair and maintenance of water pollution control equipment; repair and maintenance of water purifying apparatus; repair and maintenance, and reconditioning of nuclear plant machinery and other industrial and power generating facilities; services for the construction, installation, maintenance and repair of vehicles, equipment, infrastructure on nuclear power plants and electricity generating plants; construction and repair of storage, including storage of radioactive waste; construction of plants for uranium separation work; installation and maintenance of the equipment for monitoring and safety control at nuclear power plants and power generation plants; uranium mining; drilling of wells; restoration of [repair] machines for nuclear power plants for nuclear storage facilities; facilities for the production of nuclear fuel for the plant for reprocessing nuclear fuel storage facilities.
for nuclear materials, facilities for the storage of waste for mines, for plants and storage centers, processing, reprocessing and disposal of nuclear fuel, ores, nuclear materials, uranium and plutonium; rebuilding of steam generators, turbines, turbo-generators, electric generators, and electric cars at the plant; restoration of nuclear reactors, water reactors, machinery for the production, processing and reprocessing of nuclear fuels, metal ores, uranium ores, plutonium (nuclear materials); mining extraction; information and advice on the construction of nuclear enrichment plants, installation, repair and maintenance of equipment to enrich uranium and uranium isotope separation; information on the construction of plants for the separation of uranium isotopes; information on the installation, repair and maintenance of equipment for the separation of uranium isotopes; building construction supervision; rustproofing; radiation equipment charging and recharging services; quarrying services; repair and maintenance of nuclear power plants, and related information; repair of pumps; construction of industrial plants, including uranium enrichment plants, nuclear power plants and facilities for radioactive waste recycling; services for the construction, maintenance, repair and decommissioning of nuclear power plants, facilities for the production of nuclear fuel reprocessing facilities for nuclear fuel storage facilities for nuclear materials and facilities for the storage of waste, mines, factories and storage centers, processing, reprocessing and disposal of nuclear fuels, ores, nuclear materials, uranium and plutonium; installation services, maintenance, repair and decommissioning of nuclear reactors and pressurized water reactors, facilities that produce nuclear fuel; installation of nuclear power plants, nuclear thermal power stations, installation and commissioning of radioisotope devices; installation and repair of heating equipment; installation and repair of air conditioning equipment; installation and repair of electrical appliances; installation, commissioning and maintenance of instruments or apparatus for scientific purposes; installation, maintenance and repair of machinery to monitor and ensure the safety of the nuclear and energy industry and power engineering; installation, maintenance and repair of radiisotope devices, radiation devices related to the nuclear and energy industry and power engineering; installation, maintenance and repair of energy producing machines; installation, maintenance and repair of machines and apparatus for the distribution and control of energy and providing related information; installation, maintenance and repair of radiological devices; installation, maintenance and repair of alarm devices for detection of nuclear materials; installation, repair and maintenance of machinery, including nuclear power plants, nuclear storage facilities, facilities for the production of nuclear fuel storage facilities for nuclear materials and facilities for the storage of waste; installation, repair and maintenance of equipment for uranium enrichment and uranium isotope separation; interference suppression in electrical apparatus.

Cl.39; Rescue work for the elimination of nuclear and radiation accidents at nuclear power plants, industrial facilities and other nuclear facilities; transportation information, including transportation of natural uranium, enriched uranium, depleted uranium, uranium, uranium oxide, uranium dioxide, uranium hexafluoride, plutonium, fuel for nuclear reactors, isotopes for medical and industrial purposes, centrifuges for the separation of isotopes of uranium and equipment for the construction of plants for uranium enrichment, spent nuclear fuel and irradiated nuclear fuel assemblies; storage information on goods in warehouses, including the storage of natural uranium, enriched uranium, depleted uranium, uranium oxide, uranium dioxide, uranium hexafluoride, plutonium, fuel for nuclear reactors, isotopes for medical and industrial purposes, centrifuges for the separation of isotopes of uranium and equipment for the construction of plants for uranium enrichment, spent nuclear fuel and irradiated nuclear fuel assemblies; wrapping information on natural uranium, enriched uranium, depleted uranium, uranium oxide, uranium dioxide, uranium hexafluoride, plutonium, fuel for nuclear reactors, isotopes for medical and industrial purposes, centrifuges for the separation of isotopes of uranium and equipment for the construction of plants for uranium enrichment, spent nuclear fuel and irradiated nuclear fuel assemblies; wrapping information on natural uranium, enriched uranium, depleted uranium, uranium oxide, uranium dioxide, uranium hexafluoride, plutonium, fuel for nuclear reactors, isotopes for medical and industrial purposes, centrifuges for the separation of isotopes of uranium and equipment for the construction of plants for uranium enrichment, spent nuclear fuel and irradiated nuclear fuel assemblies; radiation equipment charging and recharging services; quarrying services; repair and maintenance of nuclear power plants, nuclear thermal power stations, installation, repair and maintenance of equipment to enrich uranium and uranium isotope separation; information on natural uranium, enriched uranium, depleted uranium, uranium oxide, uranium dioxide, uranium hexafluoride, plutonium, fuel for nuclear reactors, isotopes for medical and industrial purposes, centrifuges for the separation of isotopes of uranium and equipment for the construction of plants for uranium enrichment, spent nuclear fuel and irradiated nuclear fuel assemblies; distribution of energy; electricity distribution; hot water supply services; heat supply services [distribution]; transport and storage of trash; storage of goods, including storage of natural uranium, enriched uranium, depleted uranium, uranium dioxide, uranium hexafluoride, uranium oxide, uranium oxide concentrate, uranium hexafluoride, plutonium, atompile fuel, isotopes for industrial and medical purposes, centrifuges for the separation of isotopes of uranium and equipment for construction of plants for uranium enrichment, spent fuel and irradiated fuel assemblies.

Cl.41; Organization and carrying out of cultural and educational purposes exhibitions in the field of nuclear and energy industry and power engineering; training and further training for personnel development in nuclear industry; practical training [demonstration]; vocational retraining; tutoring; educational and training services in the form of sections, workshops, training courses at the level of colleges and universities, remote learning, distance learning at the level of colleges and universities, conducting examinations, consultations, provision of information in the field of nuclear industry and energy; publication of books, handbooks; educational services, in particular, organization and conduction training classes, online classes, seminars, presentations and workshops in the field of nuclear and energy industry and power engineering educational services, in particular, the organization of seminars and training courses in the field of industrial operation of nuclear power plants; publication of electronic books and journals online; publication of texts, other than publicity texts; organization of educational events on market research; education and educational services, in particular the organization and conducting of meetings, seminars, forums, courses, congresses, symposia, conferences, video conferences in areas of nuclear and energy industry and power engineering.

Cl.42; Calibration of radiological and medical apparatus and devices including actinometers, projectors radioactive sources, diagnostic and x-ray machines; chemical consultancy and chemical analysis services in nuclear and energy industry and power engineering; computer programming in areas related to the nuclear and energy industry and power engineering; control, namely checking the security of nuclear materials, nuclear installations and equipment in the field of nuclear and energy industry and power engineering; engineering; feasibility study and technical feasibility of projects and plants in the nuclear and energy industry, conducting; scientific research and power engineering; computer modeling and simulation services in the field of environmental protection; research and services in the field of industrial development in respect of those in the area of pharmaceuticals, apparatus and medical devices for radiology and veterinary radiology; study of technical projects, in particular feasibility studies; computer system analysis; chemical analysis; construction drafting;
drawing; geological surveys; measuring radiation, in particular, evaluation of measurements in the field of radiation; engineering design; engineering in the nuclear and energy industry; testing of materials and products, research in the field of science and industry, in particular in the fields of biology, mechanics, geology, physics, chemistry, the production, transmission and distribution of electricity; study of the effect of the atomic energy on the environment in terms of radiation exposure (migration, accumulation and behavior of radioactive substances in natural objects); consultations concerning environment protection; computer software consultancy; architectural and building consultation; advice on construction, including development plans (schedules) and projects in the construction of plants for uranium enrichment; laboratory research in the field of nuclear and petrochemical industries; laboratory testing and engineering services in respect of the nuclear and energy industry and power engineering; research and design work and consultation in the field of nuclear physics, thermal physics, corrosion, neutron physics and technology and neutron scattering, energy, natural resources, including uranium; scientific, technical and engineering advice on nuclear engineering, radiometric equipment, nuclear materials, radioactive materials, radioactive waste, nuclear fuel and monitoring the safety of nuclear installations; maintenance of computer software; evaluation of radioactivity measurements; computer system design; radiation control; development of plans and projects in the field of construction, including the construction of nuclear power plants, storage of nuclear materials, uranium enrichment plants; development of design, engineering, production and technological, regulatory, operational, regulatory and procedural documentation for constructed, operated and reconstruction of nuclear power, water analysis; industrial design; graphic arts design, research and development of new products for others; scientific research; technical research; provision of scientific information, advice and consultancy in relation to carbon offsetting; installation of computer software; consultancy in the field of energy-saving; technical studies and related research and development in the nuclear and energy industry and power engineering; technical studies, including the development of technical safety measures for nuclear facilities; industrial analysis and research in the nuclear and energy industry and power engineering; engineering and technical expertise in nuclear and energy industry and power engineering.

purposes; radiometers; radios; x-ray machines, except for medical purposes; lattice accumulators; management and control systems for nuclear power plants; sonars; spectrometers; processing mechanisms and / or measuring device for carrying out the test materials to obtain information about their properties; particle accelerators; installations for the remote control of production processes in industrial plants; installation for spraying; apparatus control thermonuclear fusion; anti-corrosion apparatus; signaling devices [security alarm]; cyclotrons; screens of x-ray machines used for industrial purposes; galvanic cells; uninterruptible power supply (ups); converters, electric; electrical devices and electrical power distribution products; regulating, controlling, signaling and monitoring apparatus for heating, cooling, ventilation and air conditioning, namely, computer hardware for building automation systems which electrically control building heating, cooling, ventilation and air conditioning; computer hardware for building automation systems which electrically control building heating, cooling, ventilation and air conditioning; computer hardware for building automation systems which remotely control building heating, cooling, ventilating and refrigerating equipment; computer software and hardware for use with smart grid applications having functions of energy load management and control, energy theft detection and control, monitoring and diagnostic of electrical grid, electric power outage management and control, fault detection, network asset management, operation and maintenance of electric grid; fuel cells.

Cl.11;Steam boilers, other than parts of machines (110165); steam generators; air filtering installations; apparatus and instruments for use in cleaning, separation and purification of fluids and gases used in the nuclear industry and industry; filters and filtering devices for air and gas conditioning; nuclear generators; nuclear power plant; water filtering apparatus; water filtering devices for use in the nuclear and energy industry and power engineering; research nuclear reactors; components for nuclear reactors; modular nuclear facilities, including fuel, steam generators, reactor housings, covers for the reactor vessel, the inner part of the reactor control rod drive mechanism; nuclear reactors; light-emitting diodes [led] lighting apparatus; cooling systems or nuclear waste and spent fuel; installations for the reprocessing of nuclear fuel and nuclear moderators, and nuclear waste; categories of household or industrial installations, including removal of nuclear materials; industrial boilers [other than parts of prime movers and engines]; heat pumps; solar furnaces; electric lamps and lighting apparatus.

Cl.16;Graphic prints and representations, in particular design drawings, plans, sketches, photos, instructions, printed or electronic teaching and study materials in nuclear engineering; office requisites, in particular adhesive tape dispensers, correcting fluids, pens, pencils, rubbers, punches, staplers, clasp, paper and cardboard; albums for labels; albums for coins; holiday albums; albums for photographs; commemorative albums; albums for stamps; letterhead; note pads; printed publications, namely, manuals on projecting, guidance on the design, technical guidelines, manuals, periodicals in the field of nuclear energy; printing sets, portable [office requisites]; albums; forms, printed; note books; pamphlets; booklets; typing paper; newsletters; waxed paper; magazines [periodicals]; calendars; index cards; registration cards for register; catalogues; envelopes; carbon paper; wrapping paper; stationery; prospectuses; photosprinting paper; educational materials, training aids (other than apparatus), printed or electronic study publications for nuclear industry and engineering; filter paper; photographs; printing type; drafting paper; newspapers; engravings; printed publications; items of paper or plastics, for packaging; signboards of paper or cardboard.

Cl.17;Caulking materials; plastic films for industrial and commercial use; materials for sealing and insulation; semi-finished plastic for industrial purposes; non-conducting materials for retaining heat; insulating oils; insulating glass; flexible tubes, not of metal; non - metal pipes for uranium mines, plants and storages, storekeeping, isotopic separation, processing, recycling and utilization of fuels, ores, nuclear materials, uranium, plutonium and nuclear wastes; rubber, gutta-percha, gum, asbestos, mica and goods made from these materials; plastics in extruded form for use in manufacture.

Cl.19;Non-metallic transportable buildings for security systems; modular and portable non-metallic and non-metallic construction building materials, in particular, cement blocks, tiles, doors, pillars, slabs, panels, pipes for uranium mines and storage, isolation storage, processing and disposal of nuclear materials, uranium, plutonium, and nuclear waste; water-pipes, not of metal; earthenware pipes; ducts, not of metal, for ventilating and air-conditioning installations; outgoing non-metal pipes or discharge non-metal tubes; tanks, not of metal nor of plastic; storage tanks, for hydrogen (not of metal nor of plastic); container for storage of fluid gases; storage tanks, for hydrogen (not of metal nor of plastic); water supply tanks (not of metal nor of plastic); tanks for storage of gas (not of metal nor of plastic); containers for storage of fluid gas (not of metal nor of plastic).

Cl.35;Advertising and marketing; advertising services, in particular promotion of goods, services, logos and commercial information, third parties` news by means of printed, audio, video and digital mass media and online media; advertising services; assistance and advice in the management of companies in the energy sector; corporate services, in particular promotion of the interests of the nuclear and energy industry and power engineering; administrative activities in the field of business and business management consultancy; administrative activities in the field of business and office management; advice on the administration in the field of business; assistance on administrative activities in the field of business; inquiries and investigations in the field of business; marketing services in business sphere; development of strategy in the field of business; commercial or industrial management assistance; business management; assistance in the management of the corporation; economic forecasting and analysis; import-export agencies; marketing consultancy; development of a marketing plan; marketing services, in particular the promotion and advertising of products and services of third parties; advertising sponsorship of cultural activities in the nuclear and energy industry and power engineering; marketing research; business management and organization consultancy; organization of exhibitions for commercial or advertising purposes; collection and systematization of information in computer databases; business efficiency expert services; commercial information agencies; advertising agencies; cost price analysis; business auditing; updating and maintenance of data in computer databases; providing business information via the websites; sales promotion for others; commercial administration of the licensing of the goods and services of others; advisory services for business management; negotiation and conclusion of commercial transactions for third parties; outsourcing services [business assistance]; market studies.

Cl.37;Construction and repair information of buildings; building sealing; repair and maintenance of water pollution control equipment; repair and maintenance of water purifying apparatus; repair and maintenance, and reconditioning of nuclear machinery and other power generating facilities; services for the construction, installation, maintenance and repair of vehicles, equipment, infrastructure on nuclear power plants and electricity generating plants; construction and repair of storage, including storage of radioactive waste; construction of plants for uranium separation work; installation and maintenance of the equipment for monitoring and safety control at nuclear power plants and power
nuclear fuel and irradiated nuclear fuel assemblies; distribution of energy; electricity distribution; hot water supply
isotopes of uranium and equipment for construction of plants for uranium enrichment, spent fuel and irradiated fuel
uranium oxide, uranium oxide, uranium hexafluoride, plutonium, fuel for nuclear reactors, isotopes for medical and industrial purposes, centrifuges for the separation of isotopes of uranium and equipment for the construction of plants for uranium enrichment, spent nuclear fuel and irradiated nuclear fuel assemblies; transportation of goods, including storage of natural uranium, enriched uranium, depleted uranium, uranium hexafluoride, plutonium, fuel for nuclear reactors, isotopes for medical and industrial purposes, centrifuges for the separation of isotopes of uranium and equipment for the construction of plants for uranium enrichment, spent nuclear fuel and irradiated nuclear fuel assemblies; wrapping information on natural uranium, enriched uranium, depleted uranium, uranium oxide, uranium hexafluoride, plutonium, fuel for nuclear reactors, isotopes for medical and industrial purposes, centrifuges for the separation of isotopes of uranium and equipment for the construction of plants for uranium enrichment, spent nuclear fuel and irradiated nuclear fuel assemblies; distribution of energy; electricity distribution; hot water supply; repair of pumps; construction of industrial plants, including uranium enrichment plants, nuclear power plants and facilities for radioactive waste recycling; services for the construction, maintenance, repair and decommissioning of nuclear power plants, facilities for the production of nuclear fuel reprocessing facilities for nuclear fuel storage facilities for nuclear materials and facilities for the storage of waste, mines, factories and storage centers, processing, reprocessing and disposal of nuclear fuels, ores, nuclear materials, rare earth, ores, plutonium and plutonium; installation services, maintenance, repair and decommissioning of nuclear reactors and pressurized water reactors, facilities that produce nuclear fuel; installation and commissioning of nuclear power plants, nuclear thermal power stations; installation and commissioning of radioisotope devices; installation and repair of heating equipment; installation and repair of air conditioning equipment; installation and repair of electrical appliances; installation, commissioning and maintenance of equipment or apparatus for scientific purposes; installation, maintenance and repair of machinery to monitor and ensure the safety of the nuclear and energy industry and power engineering; installation, maintenance and repair of radioisotope devices, radiation devices related to the nuclear and energy industry and power engineering; installation, maintenance and repair of energy producing machines; installation, maintenance and repair of machines and apparatus for the distribution and control of energy and providing related information; installation, maintenance and repair of radiological devices, maintenance, repair and maintenance of equipment for the detection of nuclear materials; installation, maintenance and repair of machinery, including nuclear power plants, nuclear storage facilities, facilities for the production of nuclear fuel reprocessing facilities for nuclear fuel storage facilities for nuclear materials and facilities for the storage of waste; installation, repair and maintenance of equipment for uranium enrichment and uranium isotope separation; interference suppression in electrical apparatus.

Cl.39; Rescue work for the elimination of nuclear and radiative accidents at nuclear power plants, industrial facilities and other nuclear facilities; transportation information, including transportation of natural uranium, enriched uranium, depleted uranium, uranium oxide, uranium dioxide, uranium hexafluoride, plutonium, fuel for nuclear reactors, isotopes for medical and industrial purposes, centrifuges to separate isotopes uranium and equipment for the construction of plants for uranium enrichment, spent nuclear fuel and irradiated nuclear fuel assemblies; storage information on goods in warehouses, including the storage of natural uranium, enriched uranium, depleted uranium, uranium oxide, uranium hexafluoride, plutonium, fuel for nuclear reactors, isotopes for medical and industrial purposes, centrifuges for the separation of isotopes of uranium and equipment for the construction of plants for uranium enrichment, spent nuclear fuel and irradiated nuclear fuel assemblies; wrapping information on natural uranium, enriched uranium, depleted uranium, uranium oxide, uranium hexafluoride, plutonium, fuel for nuclear reactors, isotopes for medical and industrial purposes, centrifuges to separate isotopes of uranium and equipment for the construction of plants for uranium enrichment, spent fuel and irradiated fuel assemblies; transportation of goods, including transportation of equipment and nuclear fuel for nuclear power plants; rental of warehouses; water supplying; wrapping of goods, including the packaging of natural uranium, enriched uranium, depleted uranium, uranium oxide, uranium dioxide, uranium hexafluoride, plutonium, fuel for nuclear reactors, isotopes for medical and industrial purposes, centrifuges to separate isotopes of uranium and equipment for the construction of plants for uranium enrichment, spent fuel and irradiated fuel assemblies; transportation of goods, including transportation of natural uranium, enriched uranium, depleted uranium, uranium oxide, uranium hexafluoride, plutonium, fuel for nuclear reactors, isotopes for medical and industrial purposes, centrifuges to separate isotopes of uranium and equipment for the construction of plants for uranium enrichment, spent nuclear fuel and irradiated nuclear fuel assemblies; distribution of energy; electricity distribution; hot water supply; repair of pumps; construction of industrial plants, including uranium enrichment plants, nuclear power plants and facilities for radioactive waste recycling; services for the construction, maintenance, repair and decommissioning of nuclear power plants, facilities for the production of nuclear fuel reprocessing facilities for nuclear fuel storage facilities for nuclear materials and facilities for the storage of waste, mines, factories and storage centers, processing, reprocessing and disposal of nuclear fuels, ores, nuclear materials, rare earth, ores, plutonium and plutonium; installation services, maintenance, repair and decommissioning of nuclear reactors and pressurized water reactors, facilities that produce nuclear fuel; installation and commissioning of nuclear power plants, nuclear thermal power stations; installation and commissioning of radioisotope devices; installation and repair of heating equipment; installation and repair of air conditioning equipment; installation and repair of electrical appliances; installation, commissioning and maintenance of equipment or apparatus for scientific purposes; installation, maintenance and repair of machinery to monitor and ensure the safety of the nuclear and energy industry and power engineering; installation, maintenance and repair of radioisotope devices, radiation devices related to the nuclear and energy industry and power engineering; installation, maintenance and repair of energy producing machines; installation, maintenance and repair of machines and apparatus for the distribution and control of energy and providing related information; installation, maintenance and repair of radiological devices, maintenance, repair and maintenance of equipment for the detection of nuclear materials; installation, maintenance and repair of machinery, including nuclear power plants, nuclear storage facilities, facilities for the production of nuclear fuel reprocessing facilities for nuclear fuel storage facilities for nuclear materials and facilities for the storage of waste; installation, repair and maintenance of equipment for uranium enrichment and uranium isotope separation; interference suppression in electrical apparatus.

Cl.41; Organization and carrying out of cultural and educational purposes exhibitions in the field of nuclear and energy industry and power engineering; training and further training for personnel development in nuclear industry; practical training [demonstration]; vocational retraining; tutoring; educational and training services in the form of sections, workshops, training courses at the level of colleges and universities, remote learning, distance learning at the level of colleges and universities, conducting examinations, consultations, provision of information in the field of nuclear industry and energy; publication of books, handbooks; educational services, in particular, organization and conduction training classes, online classes, seminars, presentations and workshops in the field of nuclear and energy industry and power engineering; educational services, in particular, the organization of seminars and training courses in the field of industrial operation of nuclear power plants; publication of electronic books and journals online; publication of texts, other than publicity texts; organization of educational events on market research; education and educational services, in particular the organization and conducting of meetings, seminars, forums, courses, congresses, symposia, conferences, video conferences in areas of nuclear and energy industry and power engineering.

Cl.42; Calibration of radiological and medical apparatus and devices including actinometers, projectors radioactive sources, diagnostic and x-ray machines; chemical consultancy and chemical analysis services in nuclear and energy industry and power engineering; computer programming in areas related to the nuclear and energy industry and power engineering, namely checking of materials, nuclear materials, nuclear security of nuclear power plants; in the field of nuclear and energy industry and power engineering; engineering; feasibility study and technical feasibility of projects and plans in the nuclear and energy industry and power engineering; scientific research, consultancy and information services in the field of environmental protection; research and services in the field of industrial development in respect of
those in the area of pharmaceuticals, apparatus and medical devices for radiology and veterinary radiology; study of technical projects, in particular feasibility studies; computer system analysis; chemical analysis; construction drafting; drawing; geological surveys; measuring radiation, in particular, evaluation of measurements in the field of radiation; engineering design; engineering in the nuclear and energy industry; testing of materials and products, research in the field of science and industry, in particular in the fields of biology, mechanics, geology, physics, chemistry, the production, transmission and distribution of electricity; study of the effect of the atomic energy on the environment in terms of radiation exposure (migration, accumulation and behavior of radioactive substances in natural objects); consultations concerning environment protection; computer software consultancy; architectural and building consultation; advice on construction, including development plans (schedules) and projects in the construction of plants for uranium enrichment; laboratory research in the field of nuclear and petrochemical industries; laboratory testing and engineering services in respect of the nuclear and energy industry and power engineering; research and design work and consultation in the field of nuclear physics, thermal physics, corrosion, neutron physics and technology and neutron scattering, energy, natural resources, including uranium; scientific, technical and engineering advice on nuclear engineering, radiometric equipment, nuclear materials, radioactive materials, radioactive waste, nuclear fuel and monitoring the safety of nuclear installations; maintenance of computer software; evaluation of radioactivity measurements; computer system design; radiation control; development of plans and projects in the field of construction, including the construction of nuclear power plants, storage of nuclear materials, uranium enrichment plants; development of design, engineering, production and technological, regulatory, operational, regulatory and procedural documentation for constructed, operated and reconstruction of nuclear power; water analysis; industrial design; graphic arts design, research and development of new products for others; scientific research; technical research; provision of scientific information, advice and consultancy in relation to carbon offsetting; installation of computer software; consultancy in the field of energy-saving; technical studies and related research and development in the nuclear and energy industry and power engineering; technical studies, including the development of technical safety measures for nuclear facilities; industrial analysis and research in the nuclear and energy industry and power engineering; engineering and technical expertise in nuclear and energy industry and power engineering.

Cl.6; Goods of common metals and their alloys, except those provided for in other classes; manganese; containers of metal; metal cables and wires for the nuclear industry and engineering; metals in powder form; nickel; common metals; cored wire in the form of metal tubes for alloying steel; molds; rolling of hafnium and its alloys; rolling of niobium; rolling of zirconium alloys; rolling of titanium and its alloys; ores of metal, including uranium ores; alloys of niobium and titanium; zirconium alloys; steel alloys; tantalum; pipes (technological channels of nuclear reactors); refractory metals (beryllium, vanadium, wolfram, hafnium, germanium, indium, molybdenum, niobium, titanium, zirconium); chromium; pipes and tubes of metal; buildings, transportable, of metal; building materials of metal.

Cl.7; Pumps; valves for industrial equipment; valves [parts of machines]; emergency power generators; alternators; dynamos; current generators; hydraulic controls for machines, motors and engines; pumps [machines]; radiators [cooling] for motors and engines; pneumatic tube conveyors; turbocompressors; steam engines; welded steel structures, parts and accessories for the above-listed goods, included into class 07; generators of electricity; engines, other than for vehicles; pressure valves [parts of machines]; valves for nuclear power plants and ships; machine, namely, to deactivate and uninstall the nuclear installations; metal cutting machines; pumps, centrifugal particularly for the nuclear industry and engineering; drilling machines; drilling machines for metal treating; machines for metalworking industry; turbines for use in the nuclear industry and engineering; centrifuges (machines) for use in the nuclear industry and the energy sector, including gas centrifuges, centrifuges for enriching uranium and the separation of isotopes; electrical drives.

Cl.9; Apparatus for recording, transmission, processing and reproduction of sound, images and other data; calculating machines (computers), data processing equipment and computers; computer programs and computer software for use in the nuclear industry and engineering; computer software for monitoring and control of production processes in the factory; electromagnets; electronic and optical apparatus and instruments, such as computers and video monitors, scales, set squares, lasers, portable meters and measuring tape for inspection, monitoring, weighing and measuring of physical and geometrical parameters in the industrial facilities in the field of nuclear energy, namely, the production of nuclear power and nuclear fuel cycle, connectors and electronics; electronic semiconductor; decontamination equipment parts plants contaminated with radioactive materials; equipment (apparatus) for non-destructive testing of materials at power plants; electronic chips/ microcircuits; magnetic wires used for manufacture of electromagnets; magnets for industrial use; quantum impurity, namely crystalline semiconductor materials; scientific, optic, weight, measuring, inspecting, controlling, topographic, detecting, testing, analysing and information apparatus and instruments, in particular for construction, service, support, putting out of operation and repair of industrial objects, electric stations, nuclear vaults, equipment for nuclear fuel manufacturing, equipment for nuclear fuel processing, equipment for nuclear fuel storage and equipment for nuclear wastes storage for scientific research use, industrial research, research and development of new products and materials testing; semi-conductor integrated circuit; semi-conductor devices; semi-conductor memory cards; semi-conductors; silicon plates; structured wafers; superconducting tapes; superconducting wires and cables; superconductors; test and measurement equipment for testing the performance and efficiency of power plant equipment; electric accumulators; equipment (instruments) of the automated system of radiation monitoring at nuclear power plants; equipment (instruments) of neutron flux reactor nuclear power plant; equipment (devices) to control radiation safety at nuclear power plants; equipment (devices) display and logging of inspection results on nuclear thermostats; apparatus for the remote control signals electrodynamic; instruments and apparatus for x-ray radiation, except those used for medical purposes, in particular linear particle accelerators to produce high-energy x-ray radiation and x-ray images for use in verification, test materials, industrial applications and use for safety
purposes; radiometers; radios; x-ray machines, except for medical purposes; lattice accumulators; management and control systems for nuclear power plants; sonars; spectrometers; processing mechanisms and/or measuring device for carrying out the test materials to obtain information about their properties; particle accelerators; installations for the remote control of production processes in industrial plants; installation for spraying; apparatus control thermonuclear fusion reactors; ultrasonic anti-corrosion apparatus; signaling devices; security alarm; cyclotrons; screens of x-ray machines used for industrial purposes; galvanic cells; uninterruptible power supply (ups); converters, electric; electrical devices and electrical power distribution products; regulating, controlling, signaling and monitoring apparatus for heating, cooling, ventilation and air conditioning, namely, computer hardware for building automation systems which electronically control building heating, cooling, ventilation and air conditioning; computer hardware for building automation systems which electronically control building heating, cooling, ventilation and air conditioning; computer hardware for building automation systems which remotely control building heating, cooling, ventilating and refrigerating equipment; computer software and hardware for use with smart grid applications having functions of energy load management and control, energy theft detection and control, monitoring and diagnostic of electrical grid, electric power outage management and control, fault detection, network asset management, operation and maintenance of electric grid; fuel cells.

Cl.11; Steam boilers, other than parts of machines (110165); steam generators; air filtering installations; apparatus and instruments for use in cleaning, separation and purification of fluids and gases used in the nuclear industry and engineering; filters and filtering devices for air and gas conditioning; nuclear generators; nuclear power plant; water filtering apparatus; water filtering devices for use in the nuclear and energy industry and power engineering; research nuclear reactors; components for research reactors; modular nuclear facilities, including fuel, steam generators, reactor housings, covers for the reactor vessel, the inner part of the reactor control rod drive mechanism; nuclear reactors; light-emitting diodes [led] lighting apparatus; cooling systems or nuclear waste and spent fuel; installations for the reprocessing of nuclear fuel and nuclear moderators, and nuclear waste; categories of household or industrial installations, including removal of nuclear materials; industrial boilers [other than parts of prime movers and engines]; heat pumps; solar furnaces; electric lamps and lighting apparatus.

Cl.16; Graphic prints and representations, in particular design drawings, plans, sketches, photos, instructions, printed or electronic teaching and study materials in nuclear engineering; office requisites, in particular adhesive tape dispensers, correcting fluids, pens, pencils, rubbers, punches, staplers, clasps; paper and cardboard; albums for coins; holiday albums; albums for photographs; commemorative albums; albums for stamps; letterhead; note pads; printed publications, namely, manuals on projecting, guidance on the design, technical guidelines, manuals, periodicals in the field of nuclear energy; printing sets, portable [office requisites]; albums; forms, printed; note books; pamphlets; booklets; typing paper; newsletters; waxed paper; magazines [periodicals]; calendars; index cards; registration cards for register; catalogues; envelopes; carbon paper; wrapping paper; stationery; prospectuses; photo printing paper; educational materials, training aids (other than apparatus); printed or electronic study publications for nuclear industry and engineering; filter paper; photographs; printing type; drafting paper; newspapers; engravings; printed publications; items of paper or plastics, for packaging; signboards of paper or cardboard.

Cl.17; Caulking materials; plastic films for industrial and commercial use; materials for sealing and insulation; semi-finished plastic for industrial purposes; non-conducting materials for retaining heat; insulating oils; insulating glass; flexible tubes, not of metal; non-metal pipes for uranium mines, plants and storages, storekeeping, isotopic separation, processing, recycling and utilization of fuels, ores, nuclear materials, uranium, plutonium and nuclear wastes; rubber, gutta-percha, gum, asbestos, mica and goods made from these materials; plastics in extruded form for use in manufacture.

Cl.19; Non-metallic transportable buildings for security systems; modular and portable non-metallic and non-metallic construction building materials, in particular, cement blocks, tiles, doors, pillars, slabs, panels, pipes for uranium mines and other installations, storage, storage, processing and disposal of nuclear materials, uranium, plutonium, and nuclear waste; water-pipes, not of metal; earthenware pipes; ducts, not of metal, for ventilating and air-conditioning installations; outgoing non-metal pipes or discharge non-metal tube; tanks, not of metal nor of plastic; storage tanks, for hydrogen [not of metal nor of plastic]; water supply tanks (not of metal nor of plastic); tanks for storage and storage, isotope separation, processing, reprocessing and disposal of nuclear materials, uranium, plutonium, and nuclear waste; nuclear plant machinery and other industrial and power generating facilities; services for the construction, installation, maintenance and repair of vehicles, equipment, infrastructure on nuclear power plants and electricity generating plants; construction and repair of storage, including storage of radioactive waste; construction of plants for uranium separation work; installation and maintenance of the equipment for monitoring and safety control at nuclear power stations and power
generation plants; uranium mining; drilling of wells; restoration of [repair] machines for nuclear power plants for nuclear storage facilities, facilities for the production of nuclear fuel for the plant for reprocessing nuclear fuel storage facilities for nuclear materials, facilities for the storage of waste for mines, for plants and storage centers, processing, reprocessing and disposal of nuclear fuel, ores, nuclear materials, uranium and plutonium; rebuilding of steam generators, turbines, turbo-generators, electric cars at the nuclear power plant; restoration of nuclear reactors, water reactors, machinery for the production, processing and reprocessing of nuclear fuels, metal ores, uranium ores, plutonium (nuclear materials); mining extraction; information and advice on the construction of uranium enrichment plants, installation, repair and maintenance of equipment to enrich uranium and uranium isotope separation; information on the construction of plants for the separation of uranium isotopes; building construction supervision; rustproofing; radiation equipment charging and recharging services; quarrying services; repair and maintenance of nuclear power plants, and related information; repair of pumps; construction of industrial plants, including uranium enrichment plants, nuclear power plants and facilities for radioactive waste recycling; services for the construction, maintenance, repair and decommissioning of nuclear power plants, facilities for the production of nuclear fuel reprocessing facilities for nuclear fuel storage facilities for nuclear materials and facilities for the storage of waste, mines, factories and storage centers, preparation of information and documentation of nuclear fuel and plutonium; installation services, maintenance, repair and decommissioning of nuclear reactors and pressurized water reactors, facilities that produce nuclear fuel; installation and commissioning of nuclear power plants, nuclear thermal power stations; installation and commissioning of radioisotope devices; installation and repair of heating equipment; installation and repair of air conditioning equipment; installation and repair of electrical appliances; installation, commissioning and maintenance of instruments or apparatus for scientific purposes; installation, maintenance and repair of machinery to monitor and ensure the safety of the nuclear and energy industry and power engineering; installation, maintenance and repair of radioisotope devices, radiation devices related to the nuclear and energy industry and power engineering; installation, maintenance and repair of energy producing machines; installation, maintenance and repair of machines and apparatus for the distribution and control of energy and providing related information; installation, maintenance and repair of radiological devices, maintenance and repair of power apparatus; installation, repair of alarm and other apparatus; installation and repair and maintenance of machinery, including nuclear power plants, nuclear storage facilities, facilities for the production of nuclear fuel reprocessing facilities for nuclear fuel storage facilities for nuclear materials and facilities for the storage of waste; installation, repair and maintenance of equipment for uranium enrichment and uranium isotope separation; interference suppression in electrical apparatus.

Cl.39; Rescue work for the elimination of nuclear and radiation accidents at nuclear power plants, industrial facilities and other nuclear facilities; transportation information, including transportation of natural uranium, enriched uranium, depleted uranium, uranium oxide, uranium dioxide, uranium oxide, uranium hexafluoride, plutonium, fuel for nuclear reactors, isotopes for medical and industrial purposes, centrifuges to separate isotopes uranium and equipment for the construction of plants for uranium enrichment, spent nuclear fuel and irradiated nuclear fuel assemblies; storage information on goods in warehouses, including the storage of natural uranium, enriched uranium, depleted uranium, uranium oxide, uranium hexafluoride, plutonium, fuel for nuclear reactors, isotopes for medical and industrial purposes, centrifuges for the separation of isotopes of uranium and equipment for the construction of plants for uranium enrichment, spent nuclear fuel and irradiated nuclear fuel assemblies; wrapping information on natural uranium, enriched uranium, depleted uranium, uranium oxide, uranium dioxide, uranium hexafluoride, plutonium, fuel for nuclear reactors, isotopes for medical and industrial purposes, centrifuges to separate isotopes of uranium and equipment for construction of plants for uranium enrichment, spent fuel and irradiated fuel assemblies; transportation of goods, including transportation of equipment and nuclear fuel for nuclear power plants; rental of warehouses; water supplying; wrapping of goods, including the packaging of natural uranium, enriched uranium, depleted uranium, uranium oxide, uranium dioxide, uranium hexafluoride, plutonium, fuel for nuclear reactors, isotopes for medical and industrial purposes, centrifuges to separate isotopes of uranium and equipment for construction of plants for uranium enrichment, spent nuclear fuel and irradiated fuel assemblies; transportation, spent fuel for nuclear reactors, isotopes for medical and industrial purposes, centrifuges for uranium isotope separation and equipment for the construction of plants for uranium enrichment, spent fuel and irradiated nuclear fuel assemblies; distribution of energy; electricity distribution; hot water supply systems; heat supply; transport and storage of trash; storage of goods, including storage of natural uranium, enriched uranium, depleted uranium, uranium oxide, uranium dioxide, uranium hexafluoride, plutonium, fuel for nuclear reactors, isotopes for medical and industrial purposes, centrifuges to separate isotopes of uranium and equipment for construction of plants for uranium enrichment, spent fuel and irradiated fuel assemblies.

Cl.41; Organization and carrying out of cultural and educational purposes exhibitions in the field of nuclear and energy industry and power engineering; training and further training for personnel development in nuclear industry; practical training [demonstration]; vocational retraining; tutoring; educational and training services in the form of sections, workshops, training courses at the level of colleges and universities, remote learning, distance learning at the level of colleges and universities, conducting examinations, consultations, provision of information in the field of nuclear industry and energy; publication of books, handbooks; educational services, in particular, organization and conduction training classes, online classes, seminars, presentations and workshops in the field of nuclear and energy industry and power engineering; educational services, in particular, the organization of seminars and training courses in the field of industrial operation of nuclear power plants; publication of electronic books and journals online; publication of texts, other than publicity texts; organization of educational events on market research; education and educational services, in particular the organization and conducting of meetings, seminars, forums, courses, congresses, symposia, conferences, video conferences in areas of nuclear and energy industry and power engineering.

Cl.42; Calibration of radiological and medical apparatus and devices including actinometers, projectors radioactive sources, diagnostic and x-ray machines; chemical consultancy and chemical analysis services in nuclear and energy industry and power engineering; computer programming in areas related to the nuclear and energy industry and power engineering, namely checking materials and equipment, security of nuclear and energy industry and power engineering; feasibility study and technical feasibility of projects and plans in the nuclear and energy industry and power engineering; scientific research, consultancy and information services in the field of environmental protection; research and services in the field of industrial development in respect of
those in the area of pharmaceuticals, apparatus and medical devices for radiology and veterinary radiology; study of technical projects, in particular feasibility studies; computer system analysis; chemical analysis; construction drafting; drawing; geological surveys; measuring radiation, in particular, evaluation of measurements in the field of radiation; engineering design; engineering in the nuclear and energy industry; testing of materials and products, research in the field of science and industry, in particular in the fields of biology, mechanics, geology, physics, chemistry, the production, transmission and distribution of electricity; study of the effect of the atomic energy on the environment in terms of radiation exposure (migration, accumulation and behavior of radioactive substances in natural objects); consultations concerning environment protection; computer software consultancy; architectural and building consultation; advice on construction, including development plans (schedules) and projects in the construction of plants for uranium enrichment; laboratory research in the field of nuclear and petrochemical industries; laboratory testing and engineering services in respect of the nuclear and energy industry and power engineering; research and design work and consultation in the field of nuclear physics, thermal physics, corrosion, neutron physics and technology and neutron scattering, energy, natural resources, including uranium; scientific, technical and engineering advice on nuclear engineering, radiometric equipment, nuclear materials, radioactive materials, radioactive waste, nuclear fuel and monitoring the safety of nuclear installations; maintenance of computer software; evaluation of radioactivity measurements; computer system design; radiation control; development of plans and projects in the field of construction, including the construction of nuclear power plants, storage of nuclear materials, uranium enrichment plants; development of design, engineering, production and technological, regulatory, operational, regulatory and procedural documentation for constructed, operated and reconstruction of nuclear power; water analysis; industrial design; graphic arts design, research and development of new products for others; scientific research; technical research; provision of scientific information, advice and consultancy in relation to carbon offsetting; installation of computer software; consultancy in the field of energy-saving; technical studies and related research and development in the nuclear and energy industry and power engineering; technical studies, including the development of technical safety measures for nuclear facilities; industrial analysis and research in the nuclear and energy industry and power engineering; engineering and technical expertise in nuclear and energy industry and power engineering.
