Cl.9; Electrical and electronic controls and associated software for use in controlling, detecting, analysing, transmitting, monitoring and managing of water and wastewater supply, maintenance, treatment, purification and disinfection; doppler radar systems and weather radar systems for the identification, detection and location of rain clouds, and computer hardware and software for the control and operations of radar systems; computer software and hardware for supervisory control and data acquisition ("SCADA"), Human-Machine Interface (HMI) and Advanced Metering Infrastructure (AMI), for water and wastewater industries; computer software for protecting water infrastructure from cyber-attacks; industrial process control software; software for the operation, maintenance, management and billing of water and waste water systems; water safety, quality and security testing systems and instruments; instrumentation for measuring and monitoring water quality and quantity; non-revenue water detecting devices and systems; remote control systems and electric boards for controlling pumping stations, industrial pumps, water treatment plants, desalination plants and sewage treatment plants; computer software and hardware for preventing cyber-attacks; water meters.

Cl.11; Water, waste water and effluent treatment apparatus, installations and plants, namely, reverse osmosis units and plants, forward osmosis units and plants, water filtration units and plants, membrane filtration units and plants, water purifying apparatus, water and wastewater concentration units and plants, water remediation and recovery units and plants, water desalination units and plants, waste water treatment units and plants, water purification and disinfection units and plants; desalination apparatus, installations and plants, namely, water desalination units and plants, intake systems, pre-treatment systems, membrane desalination units, thermal desalination units and post-treatment systems; portable water, waste water and effluent supply systems; equipment for the treatment of wastewater, namely, aeration, diffusers, diffuser headers, clarifiers, water filtering units, complete activated sludge processing plants, and parts thereof; activated sludge reactors, biodigesters, anaerobic and aerobic digesters, biogas generators, being apparatus for treating wastewater; apparatus for thickening and dewatering sludge, water, industrial effluent and waste water; constructed wetlands treatment plants; rainwater and storm water collection systems for residential and commercial use; membrane bioreactors for use in the treatment of water and wastewater; water ionizers; water supply apparatus, namely, water purification, sedimentation and filtration apparatus for clarification, thickening and filtration of water and waste water, regulating accessories for water supply, namely, valves, and pipes; water reservoirs, namely, water tanks, liners and floating covers for sealing and preventing evaporation and water contamination; UV and ozone disinfection systems for water, wastewater and reclaimed water treatment; Advanced Oxidation Process (AOP) units and plants.

Cl.37; Construction, installation, maintenance, repair and retrofit of water, waste water and effluent treatment plants; construction, installation, maintenance and repair of water desalination plants; construction, installation, maintenance, retrofit and repair of water pumps and water pipeline; water well drilling services; drilling, repair and rehabilitation of boreholes and wells; installation, maintenance and repair of water meter and Advanced Metering Infrastructure (AMI) systems; installation, repair and maintenance of cathodic protection systems, for the protection of pipes against corrosion; installation, repair, maintenance, upgrading, retrofit, cleaning, and rehabilitation of water works, waste water treatment plants, water and waste water facilities; construction dewatering, namely, the removal of storm surface water and groundwater to facilitate the construction of structures and pipelines; construction, installation, and maintenance of command and control centers and units for water treatment plants, waste water treatment plants, water pumping stations; construction, installation, and maintenance of water transmission and distribution systems; construction and maintenance of constructed wetlands; construction, installation and maintenance of water, waste water and effluents reservoirs and floating covers; non-revenue water and water leakage control services, namely prevention of water leakage through infrastructure replacement in the nature of installation, repair and maintenance.

Cl.39; Collection, transmission, distribution, supply and storage of water, wastewater, storm water, sewerage and effluent, and providing information relating thereto; advice on water transmission, water distribution and water supply services.

Cl.40; Water treatment and purification services; wastewater and effluent treatment; water recycling services; water desalination services; water reclamation services; water disinfection services; water treatment services, provided through water reclamation and reuse systems; provision of water treatment and wastewater treatment facilities; water treatment services provided through water transmission and distribution systems; custom manufacturing of water pumps for others.
Cl. 42; Hydrogeological consulting services; scientific laboratories services; chemistry, biology and bacteriology laboratory services; laboratories services in the field of water security, water safety, water testing; research laboratory services in the fields of water, waste water and effluent treatment and purification, chemical analysis services, chemical research services; water sampling services; research and advisory services in the fields of water, waste water and effluent management, supply, operation and maintenance; scientific research and advisory services relating to boreholes and wells drilling, water pumping, pumping equipment, pumping stations, pipeline and cathodic protection; scientific research and advisory services in the field of water and wastewater treatment, disinfection, remediation and purification; scientific research and advisory services relating to command and control SCADA and HMI systems, hydraulic models, Advanced Metering Infrastructure (AMI) systems hardware and software, hydrology, water quality and safety analysis and monitoring, and rain enhancement; research and advisory services in the fields of watersheds analysis and management, reducing water system energy consumption; research and development services in the fields of water and clean-tech technologies; rain enhancement through cloud seeding; hail suppression; scientific technological services in connection with water supply; computer services, namely hosting and maintenance of software for supervisory control and data acquisition ("SCADA") and Human-Machine Interface (HMI) systems; consulting services in the field of water security, namely, water quality and safety; cyber security services, namely, protecting water infrastructure software from cyber attacks; hydrologic engineering services; design services for others in the field of water and wastewater treatment facilities and equipment; computer modelling of plants for others; design and development of water reservoirs, water pumps, water pipeline, water and waste water treatment plants, water desalination plants, water meters and cathodic protection systems, design and development of control centres for water treatment plants, waste water treatment plants, and water pumping stations; design and development of water, waste water and effluent apparatus, installations and plants; non-revenue water and water leakage control services, namely prevention of water leakage through measuring and monitoring water pressure and water balance.
