markers for DNA/RNA synthesis; reagents for luminescence; reagents for gene expression quantification; reagents for polymerase chain reaction processes; reagents for rolling circle amplification processes; reagents for DNA cloning and vectors, enzymes for modification and restriction; reagents for labeling, sequencing and fragment analysis of nucleic acids and proteins and customized synthesis; reagents for recombinant protein expression and purification; chromatography media; reagents for electrophoresis, biocomputing, spectrophotometry and fluorometry; radiochemical products for scientific research; reagents for scintillation proximity assay; test kits and products for high data rate analysis for producing medicines; reagents for high-resolution laser microscopy, fluoroscopic microscopy and confocal microscopy; specialized chemicals for use in industry, science and research; gases and gas mixtures for use in industry, research and science; chemical products and substances for the manufacture of pharmaceutical products, diagnostic products and substances; chemical testing reagents, saline solution and paper coated with reagents, all for scientific use and for use in laboratories; fissile chemicals for scientific research; radioactive elements and isotopes for use in industry, science and research; radioactive norms and sources for radiographic technology; radioactive sources for non-destructive sterilization, purification and testing, technology; radionuclides for scientific research; chemical compounds and chemicals for use in the treatment of water supply systems, wastewater treatment systems, cooling water circuits, boiler water and steam generating systems, boiler condensate systems, liquid separation systems, systems for water purification and dehydation in aqueous systems, conditioning systems, gas purification systems, industrial process systems, fuel treatment systems, hydrocarbon and gas treatment systems, petrochemical systems and oil and gas treatment systems, paper and pulp making systems, plastic and metal coating systems, metal processing systems; chemicals, namely chemical additives for gasoline, additives for heating oil and additives for improving the efficiency of turbine engine fuel; chemically-treated bagged water-absorbing granular materials for placement into fuel tanks; testing kit comprising reagents for determining the presence of algae and active organic organisms in diesel fuel; bacterial cultures and nutrients for sludge and wastewater treatment; polymeric chemicals for dispersing particles in steam generating equipment; chemicals and chemical compounds used as anti fouling and demulsifying agents in operations for producing coke by-product operations of steel industries; chemicals, catalysts, plastic semi-processed goods used as materials, filtering materials for removing acid gases, unprocessed plastics, crystal whiskers and zinc oxide; radio-pharmaceuticals for scientific use and for research; polymeric membrane materials for liquid separation.

Cl.2;Paints, varnishes, lacquers; preservatives against rust and against deterioration of wood; colorants; mordants; raw natural resins; metals in foil and powder form for painters, decorators, printers and artists; corrosion inhibitors in the form of coatings for use in the metal finishing industry, namely acid aqueous products for final rinsing; corrosion inhibitors in the form of coatings, namely resinous coatings for metal and masonry surfaces; coating materials, etching fluids; toner cartridges for printers; ink cartridges for printers; toners, toners for copiers, toners for facsimile machines.

Cl.3;Bleaching preparations and other substances for laundry use; cleaning, polishing, degreasing and abrasive preparations; soaps; perfumery, essential oils, cosmetics, hair lotions; dentifrices; cleaning preparations containing chemicals and chemical compounds for cleaning steel, aluminum, galvanized and mixed metal surfaces for general industrial use in the manufacture of metal products; cleaning agents containing chemicals and chemical compounds for industrial use for removing contaminants in industrial process systems; paint stripping preparations containing chemicals and chemical compounds for removing paint from equipment surfaces in spray-painting booth operations.

Cl.4;Industrial oils and greases; lubricants; dust absorbing, wetting and binding compositions; fuels (including motor spirit) and illuminants; candles and wicks for lighting.

Cl.5;Pharmaceutical and veterinary products; sanitary products for medical purposes; dietetic food and substances for medical or veterinary use, food for babies; food supplements for humans and animals; plasters, materials for dressings; material for dental fillings and dental impressions; disinfectants; products for destroying vermin; fungicides, herbicides; pharmaceutical preparations for diagnosis; veterinary pharmaceutical preparations for diagnosis; pharmaceutical and veterinary uses for medical use; diagnostic reagents and preparations for medical use; contrast substances for medical imaging; scanning diagnostic reagents for use in vivo; diagnostic imaging agents for magnetic resonance imaging (MRI); radiopharmaceuticals for clinical and medical use; radiopharmaceuticals for nuclear medicine; radioactive pharmaceutical preparations and nonradioactive reagents for producing radiopharmaceuticals for in vivo diagnosis or for therapeutic use; gases and mixtures for medical imaging; pre-filled vials containing reagents for medical diagnosis; pre-filled cartridges containing chemical solutions for medical use; pre-filled cylinders containing gases and gas mixtures for medical use; implantable radiotherapy devices consisting of encapsulated radio-isotope brachytherapy sources; radiotherapy administration system consisting of radioactive pellets and of a bioabsorbable carrier set; disposable paper or cellulose diaper-pants, diapers and napkins.

Cl.6;Common metals and their alloys; building materials of metal; transportable buildings of metal; materials of metal for railway tracks; non-electric cables and wires of metal; ironmongery and small items of metal hardware; pipes of metal; safes; ores; locks of metal; metal security casings, namely key cabinets, security key storage tubes and boxes; sealed post boxes of metal for industrial, residential, real estate and vehicle sales; metal key cabinets for locking, tracking and storing of keys, safes for key locks, safe deposit lockers, machined alloys in bar, sheet, wire, rod, band and cast form; chains for keys; trolley wires for wiring; doors of metal, barriers of metal, electric garage doors, acid-resistant highpolymer coatings, sheet steel, steel panels for office floors, welding wires; small hardware of metal; small goods of metal; soundproofed sheets and plates of metal.

Cl.7;Machine tools; motors and engines (other than for land vehicles); machine couplings and transmission components (other than for land vehicles); agricultural implements other than hand-operated; incubators for eggs; automatic distribution machines; apparatus, equipment and instruments for electricity production, namely electrical and wind energy generators generating electricity; turbines; turbines for energy production; wind turbines for energy production; wind turbines linked to wind farms, turbine-powered production installations, namely installations for electricity production; power-generating engines; and parts and components of all the aforesaid goods; solar powered energy electricity generators; machines and machine systems, including parts and accessories for electricity production, transformation and conversion; dynamos, electric motors of all kinds, steam and gas turbines and their parts, electrical generators and their parts, aircraft engines, compressors; laundry washing machines, dishwashers, waste grinders and compactors; pumps, namely centrifugal pumps, diaphragm pumps, bellows pumps, pumps and transfer pumps; liquid control devices, namely valves, regulators, actuators, ejectors, liquid separation cartridges and their parts, including
semi-permeable membranes; filtering cartridges for various industrial machines for filtering applications, including for filtering of coating solutions for the manufacturing of magnetic tapes and for filtering of petrochemicals, drinking water, beer in the brewing industry and other special chemicals; machines for supplying and applying chemicals for industrial use; axial-flow and centrifugal compressors; reciprocating compressors; screw and sliding-vane compressors; rotary, vacuum, and refrigeration compressors; submersible pumps; turf, electric, gas, and liquid film pumps; heavy-duty pumps, namely, all electric pumps for fuel and liquid fuel applications; refrigeration equipment; nitrogen refrigeration systems; LNG refueling facilities for land vehicles and industrial equipment and accessories and parts of all the aforesaid goods, namely pumps, valves, filters, filter housings, distributor rotors, blades, bearings and mechanical joints; steam condensers; boat engines; turbo-compressors for engines; fuel injectors; welding machines, industrial robots, machines for insertion of electronic components, dry etching machines, micro-electro-discharge machines, optical discs productions systems, precision connection equipment, treatment machines for printed wiring panels, welding rods, machines for assembling parts, braising machines, machines for fixing screws, electrical tools; electric motors, electric generators; elevators (lifts); washing and drying machines, electric washing machines, electric dishwashers; compressors (non-surgical); pumps, electric pumps; mixing, cutting and chopping machines, blender machines; electric centrifuges, electric food processors, electric meat grinders, electric can openers, electric knife sharpeners, electric coffee grinders, electric ice crushers, electric waste-processing machines; garden tools, electric lawnmowers, garden vaporizers for disinfectants and insecticides; electric apparatus for cleaning; electric vacuum cleaners, electric floor polishers; electric window cleaners; hand-held electric tools and implements; welding machines, metal cutting machines by arc, gas or plasma; blenders, centrifuges, hand-held mixers, food processors; electric door-opening devices; carbon electrodes for welding; electric arc-welding apparatus; welding electrodes; electric wrenches (tools); fuel pumps for service stations for aircraft engine refueling; fuel distribution equipment, namely calibrated fuel pumps; belts for conveyors; transmission belts for land vehicles; belt conveyors; brakes for machines; hydraulic hoses, not of metal, as parts of machines; non-metallic hoses for transferring hydraulic power in machines; non-metallic hoses for use in hydraulic systems in machines; hydraulic quick release couplings for high pressure hoses used in machines; plastics pipes (fitted parts of machines); hydraulic connectors (pipes) being parts of machines; tire reparing machinery; pressure chambers as parts of tire reparing machinery; tire buffers as parts of tire reparing machinery; tire tread rollers and stitching machines as parts of tire reparing machinery; tire tread cutters and bonding agent applicators used in recapping tires as parts of tire reparing machinery; pneumatic shock absorbers (air springs, for machine elements not for land vehicles); rubber springs for non-vehicular suspension systems.

C19.10: Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signaling, checking (supervision), life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; apparatus for recording, transmission or reproduction of sound or images; magnetic recording media, sound recording disks; compact disks, DVDs and other digital recording media; mechanisms for coin-operated apparatus; cash registers, calculating machines, equipment for data processing and computers; software; fire-extinguishing apparatus; protective helmets for sports; glasses, sunglasses, sports goggles, software; fuel distribution equipment, namely electric fuel-level gauges, control valves; software for regulating gas flow and lines; automated systems for service-station management comprising operating software for calibrated fuel pumps, flow control panels, fuel lines and pump nozzles for refueling of land vehicles, marine vehicles and aircraft; gas meters; on-board and roadside signaling and communication systems, train inspection systems, crossing notification systems, apparatus for electric control of switching; GPS tracking and monitoring systems for the transit and railway industries; electrical distribution devices and products, namely capacitors, circuit breakers, circuit-breaker patch boards, circuit closers, contact breakers, commutators, contactors, current rectifiers, current limiters, electric contacts, electric collectors, electric conductors, electric connectors, electric controllers, electric inductors, electric power supply systems, distribution boards and branch boxes (electricity), electrical distribution consoles, electrical switchboards and switchboxes; software for persons in charge of troubleshooting and maintenance of programmable controllers, software for cardiac vessel analysis, including heart vessel analysis, also with calculation functions with regard to blood vessels, software for medical patient-monitoring equipment, software for receiving, processing, transmitting and displaying data, software for developing customized programs for asset allocation; software for use on line enabling vendors of office equipment to place orders, to manage portfolios and communicate with the company; software for accessing mortgage and insurance information, software for collecting data concerning vital signs, software for analyzing electrical systems and electronic instruction manuals sold as a unit therewith, software for employees of financial institutions used for assisting in the purchase of shares and the sale of the identify investments and products, software for the recommendation of information on the risk of flooding with regard to real property, software for developing graphic user interfaces and displaying data, software for calculating mortgage payments, software for controlling and managing vehicle fleet maintenance services, software for using and accessing commercial computer services, software used by clients to obtain information regarding lease portfolios, software for a radiology information system for radiologists and radiology departments, software for managing databases containing information on employees and patients for archiving purposes and patient monitoring, software installed on and used with PCs and medical monitoring equipment for graphic user interfaces, software for sending encrypted and compressed data to radio-paging (transport) systems, software for providing access to web sites so that buyers and sellers can carry out business transactions by electronic means, and software for subterranean navigation, namely navigation of the assembly of a depth probe for oil drilling and drilling assemblies so as to route subterranean installations; electronic, nuclear, industrial and laboratory, testing, measuring, calculating, monitoring instruments and products, electroremediation equipment and products and voltage surge protection products, namely lightning conductors, armored rods; condensers (capacitors); switches for lighting; input/output controls and devices; fuses; controls for lighting; switch boxes, LEDs, namely light-emitting diodes, voltage regulators for electric power, voltage surge protectors, voltage surge limiters, voltmeters, electrical circuit boards, relays and timers, solenoids and limit switches, manual full-voltage starters, reduced-voltage starters, electric switches and disconnecting switches, splitters for circuit boards and pumping panels, circuit breakers and disconnecting switches, transformers, electric circuit and electric lighting boards, electric wires, cables, connectors and conductors, electric wiring and accessories, lightning conductors, electricity meters, wattmeters, grounding resistances, humidity and temperature sensors; industrial calibration sensors, push buttons, engine and motor control centers and their electric controls and voltage regulators included in this class; computer programs and software for medical use, industrial use and for research; electrophoresis apparatus; chromatography columns and pumps; apparatus for particle or beaker suspension; apparatus for mass spectrometry; imaging computer systems; scintillation apparatus; software for bio-information systems; imaging systems; software for radioactive and luminescent emissions; integrated synthesis and purification systems; oligonucleotide-producing apparatus; optical laser systems for digital imaging; glassware for laboratories; vials and micro-vials; microtiter plates; software for managing hospital operating rooms; software for intensive care information management; software for industrial operation control; software and manuals therefor sold as unit for factory management; graphic interface
controlled oscillators, phase-locking circuit synthesizing modules, wireless communication module units, optical transmission components, printed wiring boards, loudspeaker components, electricity supplies, AC (alternating current) adaptors, focusing magnets, inductors (coils), capacitors for electric apparatus, electric signal filters, transformers, deflection coils, thermostats, varistors, piezoelectric ceramic components, acoustic-optical components, resistances, potentiometers, encoders, printing units, hybrid integrated circuits, switching components, heat-welding wiring boards, transparent touch panels, electroluminescent components, remote control units, magnetic resistance elements, thermal disconnects; data processing equipment, in particular for financial applications; operating system programs; computer hardware and software, in particular for local and wide-range computer networks development, maintenance and use; systems for reading memory cards and systems for reading stored data including integrated circuit memories and bank cards; robotic machines, including printers, storage devices for reading memory cards, integrated circuit cards, including reading memory cards and with integrated circuit memory; bank cards, credit cards, debit cards, including such cards equipped with integrated circuits and microprocessors; memory cards (smart cards); automated teller machines (ATMs); data processing equipment and computers including cards equipped with microprocessors and integrated circuits; computer hardware in the form of integrated circuit cards and card readers containing transponders and other proximity payment devices; mouse pads; machines and machine systems, including parts and accessories for transmission, distribution and control of electricity; induction devices, electrical displacement devices, electricity control and regulation devices, electricity measuring instruments, electrical protection devices, switchboards, switchboard apparatus, wiring devices and supplies; liquid control devices, namely, flowmeters, manostats, sequential timers, electric switches and controls; audio amplifiers for keyboards, external memories for musical instruments; systems for managing and preserving archives in the field of radiology; gradient coils, namely magnetic gradient coils, for magnetic resonance imaging; alarm devices for tire pressure; pressure gauges in vehicle tires; rubber testing machines.

Cl.10: Surgical, medical and dental apparatus and instruments, artificial limbs, eyes and teeth; orthopaedic articles; suture material; test kits for clinical medical use comprising test tubes, test plates and indicator diagrams for evaluation kits; systems and accessories for administering medical preparations; vials for medical use; vials for medical use; syringes for medical use; injectors for medical use; cartridges for medical use; infusion pumps used for intravenous administration of liquids; needles for medical use; cardiac output monitors; heat and humidity exchangers for medical use; bacterial filters for medical use; gas analyzers for medical use; patient monitoring systems, namely gas monitors; pulse oximeters, multi-parameter monitors, ECG monitors, invasive and non-invasive blood pressure monitors, neuromuscular transmission monitors, vital signs monitors, and spirometers for anesthesia, intensive care and diagnostic applications; anesthetic machines and ventilators; intensive care and anesthesia accessories for a single patient, namely gas sampling lines, airway adapters, respiratory circuits, spirometry sensors and tubes, tubes, water separators, pulse oximetry sensors, non-invasive sphygmomanometers, rinsing sets, anesthesia masks, carbon dioxide absorbers, temperature-sensing probes and nebulizers; central nervous system monitors; gastric tonometers; medical diagnosis devices, namely bone densitometers; fetal monitoring apparatus, namely fetal pulse and vital sign monitors; patient monitoring apparatus, namely, cardiac and vital sign monitors, medical imaging systems, namely ultrasound imaging machines for medical diagnosis, imaging devices for screening and diagnostic applications for planning operations and surgery, and their parts and accessories; medical diagnosis apparatus for displaying diagnostic images, namely spot film apparatus, image intensifiers, fluoroscopes, mobile x-ray devices, x-ray film viewers, CAT scans, magnetic resonance apparatus, ultrasound scanners, magnetic resonance apparatus, positron emission tomography apparatus (PET scans) and their parts and accessories, including tables and pads; electronic apparatus for measuring blood pressure, laser apparatus for medical treatment, ultrasound diagnosis equipment, acoustic apparatus, laser scalps, electric massaging apparatus, portable vibrators for medical use, low-frequency muscle stimulators for medical use, high-frequency apparatus for medical use, electric air mattresses for preventing bedsores, electric inhalers for therapeutic use, electrically heated pads, CCD (charge-coupled device) sensor systems, medical apparatus for measuring bone density.

Cl.11: Apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, water supply and sanitary purposes; solar panels, panels for capturing solar energy; solar lighting accessories, namely lighting units and solar light fixtures for indoor and outdoor use; solar-thermal installations, namely solar-thermal modules; solar water-heaters; gas and electric cooking apparatus for household use, namely cooking rings, electric and gas cookers; gas and electric ovens and cooktops; heat exchangers; heavy-wall chemical reactors and nuclear reactors and accessories and components thereof, namely, heat pumps, valves for steam systems and valves for regulating gas and liquid flow; electric lamps of all kinds and their parts; electric lighting accessories and their parts; freezers, air-conditioning apparatus, electric ovens, cookers, electric refrigerators; microwave ovens for cooking; wall-mounted cooking ovens for household use; food warming devices; convection ovens, electric and gas cooktops; electric and gas cookers and cooking ovens; ventilation hoods for stairs and exhaust fans; water filters; water softeners; laundry dryers; electric fans, ceiling fans, flashlights; lamps and lights for vehicles; electric lights for Christmas trees; liquid separation devices; liquid concentration devices; liquid recycling devices; filters for filtering of solids from gas and liquids or for filtering of liquids from gas and for filtering of an immiscible liquid from another; spiral elements or cartridges - contained in a tabular plate apparatus for concentrating goods and removing impurities in liquid treatment systems; water conditioning devices for residential use; reverse osmosis apparatus; devices and systems for reverse osmosis consisting of clarification units, electric deionization systems, condensate polishing filters, vacuum degassing devices, ultrafiltration devices, ultraviolet sterilization devices, ion exchangers, systems for regeneration of acids and caustic products, reverse osmosis systems, forced-air carbonate removal devices, filters, systems for supplying chemicals and devices for storage of bulk goods, sold with automatic controls and instruments for monitoring device and system operation parameters, electrochemical purification devices for liquids for industrial, commercial and municipal use; water filtering devices for household, industrial and commercial use; wastewater purification units; drinking water purification devices; water treatment equipment, namely cartridges; water treatment equipment for household use, namely water softeners and water conditioners; support filters and depth filters for removing deposits, iron, sulfur, tastes and smells from water; reverse-osmosis water purification devices; depth filter units and cartridges for

8516
filtering liquids and air for household, industrial and commercial use; disposable cartridge filters for filtering industrial water; apparatus and installations for lighting, incandescent lamps, gas discharge starters, grooved fluorescent lamps, fluorescent lamps, tungsten halogen lamps, pocket flashlights, fluorescent lanterns, other lamps, fluorescent lighting apparatus, dynamo lighting kits for bicycles, gerrmicidal lamps, other lighting apparatus; cooking apparatus and installations, automatic bread-making machines for household use, electric kettles, electric rice cookers, gas rice cookers, slow cookers, electric grills, cooking ovens, toasters, coffee machines, cookers, electric thermal-insulating coffee makers, gas cookers, induction cooktops, electric barbecue grills, microwave ovens, gas cookers with ovens, electric saucepans, sink trays, other kitchen ranges; refrigerating and freezing apparatus and installations, refrigerators, freezers, cold/hot water dispensers, freezing and refrigerating display cases, electric water coolers, ice-making apparatus; ventilation apparatus and instruments, electric fans, fans, electric air purifiers, extractor hoods for cookers, electric dehumidifiers, electronic humidifiers, blowers, blinds propelling cold air, air exhaust units, ceiling fans, ceiling ventilators, electrostatic precipitators, their parts and components, all included in this class, other ventilation apparatus and installations; heating apparatus and installations, apparatus for steam generating, drying, cooling and air conditioning, air conditioners, blade fans for air conditioning, apparatus for cooling air by evaporation, stoves, electric radiators, electric blankets, electric floor carpets, kerosene-powered fan heaters, electric foot warmers (kotatsu), wireless gas radiators, other heating/cooling and air-conditioning installations; water distribution apparatus; sanitary installations, electric bidets, toilets, self-cleaning toilet seats, portable toilets, systems for wastewater treatment by aeration, water purifiers, incinerators (waste incinerators), household waste processors, saunas, bathtubs, bath installations, electric showers; water heaters, gas-powered instantaneous water heaters, other water heaters; driers, dish driers, electric hair dryers, laundry driers, other driers; electric lamps, electric driers, electric-resistance heating cables; metallic sinks

Cl.12; Vehicles; apparatus for locomotion by land, air or water; electric motors and diesel engines for land vehicles; bicycles, tires and tubes for bicycles, automatic vehicles, electric bicycles; tires for passenger cars; tires for trucks; tires for buses; tires for racing cars; tires for automobiles; retreaded tires for passenger cars; retreaded tires for trucks; retreaded tires; tires of passenger car tires; inner tubes for truck tires; inner tubes for bus tires; inner tubes for racing car tires; inner tubes for automobile tires; wheels and rims for passenger cars; wheels and rims for trucks; wheels and rims for racing cars; wheels and rims for automobiles; tread rubber for retreading tires for the above-mentioned vehicles; tires for two-wheeled motor vehicles; inner tubes for two-wheeled motor vehicles; wheels and rims for two-wheeled motor vehicles; bicycles and their parts and fittings; tires for bicycles; inner tubes for bicycles; wheels and rims for bicycles; adhesive rubber patches for repairing tubes or tires; tread rubber for repairing tires for aircraft; treads for retreading tires; preformed tire treads; rubber patches for repairing vehicle treads; shock absorbers (for land vehicles); air springs for land vehicles; air springs for railway cars; suspension shock absorbers for vehicles; tricycles for infants; tires for off-the-road vehicles; tires for scrapers; tires for motor graders; tires for shovel loaders; tires for tire rollers; tires for wheeled cranes; tires for cranes; tires for snow plows; tires for pavers; tires for mining machinery; rubber tracks for use with crawlers on agricultural machinery; rubber tracks for use with crawlers on mining machinery; rubber tracks for use with crawlers on construction, cargo handling machinery; rubber pads to be attached to shoe plates of metal crawlers; rubber tracks for use with crawlers on snow removers; parts and fittings for all the aforesaid goods

Cl.14; Coins, ingots and medals in precious metals or in their alloys, commemorative or not; jewelry, precious stones; pins; timepieces and chronometric instruments; key rings

Cl.16; Paper, cardboard; printed matter, in particular stamps; newspapers, periodicals, books, photographs and posters; bookbinding material; stationery; adhesives for stationery or household purposes; artists’ materials; paintbrushes; typewriters and office requisites (except furniture); instructional or teaching material (except apparatus); plastic materials for packaging (not included in other classes); printing type; printing blocks; computer printouts; chequebooks, punched cards; newspapers and periodicals in the field of information technology; paper shredders, electric staplers, battery-powered letter openers, electric pencil sharpeners, electric perforators, electronic typewriters, ribbon cartridges for electronic typewriters, apparatus for printing cheques, thermal paper

Cl.17; Rubber, gutta-percha, gum, asbestos, mica; plastics in extruded form for use in manufacture; packing, stopping and insulating materials; flexible pipes not of metal; silicone mastic for various uses, particularly for caulking of bathtubs, boats and automobiles; impervious and road covering material made of silicone, roofing coating made of silicone rubber; plastic compounds for glazing windows; materials for windows; materials in the form of sheets, plates, blocks, balls, rods, tubes, and wires; plastic insulating materials, electric insulation devices, including insulating varnish, silicone rubber compounds; plastic materials in the form of sheets, rods or plates, modeling materials; soundproofing materials; thermal insulation materials; insulating materials; Valves of rubber or vulcanized fiber; materials of rubber for seismic isolation; synthetic rubber; natural rubber; rubber compounds; rubber for retreading and repairing tires and repairing tubes; rubber material for recapping tires

Cl.18; Leather and imitations of leather, not included in other classes, leather vanity cases [not fitted], leather bags for mountain-climbing, leather rucksacks [backpacks], leather wallets [purses], briefcases [leather goods], leather attaché-cases, leather duffel bags, leather sports bags, racing hand bags, key suitcases [leather], leather straps; animal skins; trunks and suitcases; umbrellas, parasols and walking sticks; whips, harness and saddlery

Cl.19; Building materials, not of metal; non-metallic rigid pipes for building; asphalt, pitch and bitumen; transportable buildings not of metal; monuments not of metal; thermoplastic building and construction materials, namely thermoplastic molded and extruded materials used as substitutes for wood, metal or glass, for supporting or covering; doors (not of metal), rain gutters, ceiling panels, folding doors, wooden floors, roofing tiles, prefabricated houses, laminates, connecting tracks, building materials with soundproofing properties; non-metallic roofs, with solar cells; plastic panels for building and construction; building materials with thermal insulation properties; thermoplastic materials used as building materials for insulation, covering (roofing) and glazing; water pipes made of PVC (polyvinyl chloride); antisepsic construction materials, not of metal; antiseismic rubber building materials; roofing and bituminous waterproof membranes; non-metal bridge construction materials, covered with rubber

Cl.25; Clothing, footwear, headgear

Cl.28; Games, toys; gymnastic and sporting articles not included in other classes; decorations for Christmas trees;
playing cards; electric floats for fishing, apparatus for tying fishing lines to hooks; electronic apparatus for practicing
golf, wax applicators for skis, stationary exercise bicycles and rollers; rubber balls; golf clubs; golf bags; golf balls; golf
gloves; golf club heads; golf club head covers; golf irons; golf putters; golf equipment; sports bags shaped to contain specific sports apparatus; tennis rackets; tennis balls.

Cl.29; Meat, fish, poultry and game; meat extracts; preserved, dried and cooked fruit and vegetables; jellies, jams, compotes; eggs, milk and dairy products; edible oils and fats.

Cl.30; Coffee, tea, cocoa, sugar, rice, tapioca, sago, artificial coffee; flours and preparations made from cereals, bread, pastry and confectionery, edible ices; honey, treacle; yeast, baking powder; salt, mustard; vinegar, sauces (condiments); spices; ice for refreshment.

Cl.32; Beers; mineral and aerated waters and other non-alcoholic beverages; fruit drinks and fruit juices; syrups and other preparations for making beverages.

Cl.35; Advertising; dissemination of advertising matter via all media, in particular in the form of thematic messages centered on human values; advertising by sponsoring; commercial business management; commercial administration; office functions; promoting the goods and services of others, by means of contractual agreements, in particular sponsoring and licensing agreements, enabling them to gain additional notoriety and/or enhanced image and/or a surge of sympathy derived from the notoriety and/or enhanced image resulting from cultural and sporting events, in particular international events, and/or a surge of sympathy generated by the above; promoting the goods and services of others by means of what is referred to as the initial interest factor leading the public to consider, among a multitude of competitors, goods or services presented to the public bearing signs, emblems or messages able to capture its attention; promoting the goods and services of others by means of the so-called image transfer; rental of advertising space of all type and on all media, whether digital or not; business administration of the participation of national teams to an international athletic competition, and promoting the support to said teams with the public and the concerned circles; inventory management services; consultation relating to stock monitoring services; advertising by means of direct marketing for others consisting in marketing of databases; consultation services in connection with business reorganization; truck and automobile fleet management services, namely billing and consulting in connection with the administrative management of truck and automobile fleets; business administration consultancy; administrative management of power plants of others; business consultation in connection with the management of power plants, commercial services, namely administration of contracts for repair and servicing, supply chain management services and consulting services relating to the purchase and supply of chemical services and products, supply management and product inventory, limitation of costs; consulting, marketing, analysis of prices and costs concerning devices for electrochemical purification of liquids for industrial use; administrative, commercial and technical management of computer files; data input and processing services; retail sale of electric and electronic machines and apparatus (the bringing together, for the benefit of others, of a range of goods so as to enable customers to view and purchase said goods at their convenience in a retail store carrying electrical goods), information concerning the sale of raw materials, commercial information, commercial information agencies, rental of reproducers; promoting the sale of goods and services of others including by means of advertisements, promotional competitions, awarding of prizes and bonuses in the form of promotional lotteries, discounts, reduction tokens and value-added offers in connection with the use of payment cards; promoting sporting competitions and events for use by others; promoting concerts and cultural events for others, organization of exhibitions for commercial or advertising purposes; provision of documentation, namely direct mail advertising, distribution of advertising material, distribution of samples, reproduction of documents; advertising concerning the promotion of commercial sales of goods and services for retail sale purposes; provision of information in connection with e-commerce and electronic retail sale; provision of information concerning the purchase of goods and services on line via the Internet and other computer networks; tourist documentation services through tourist agencies, namely advertising concerning transport, travel, hotels, accommodation and meals, sports, entertainment and sightseeing tours; food; maintenance of computerized databases; computerized file management, namely, digital file management comprising a portfolio of images and video sequences intended for use under license in traditional advertising and in the promotion of behavior (moral advertising); retail services or wholesale services for tires; retail services or wholesale services for sports goods; retail services or wholesale services for bicycles and parts and fittings for bicycles.

Cl.36; Insurance underwriting; financial affairs; banking services; monetary affairs; real estate affairs, credit card services; financing of sporting and cultural activities; rental of buildings and outbuildings designed for hosting corporate entertainment events; equity and private mark financing services; financial analyses and consultation; financial services in connection with credit cards; credit card services, namely granting credit to others; financial asset management for others; insurance and reinsurance services, namely underwriting of all types of insurance; equity capital investment services; insurance underwriting services in the field of bonds; financial security underwriting services; personal loan financing; lending against collateral; acquisition financing services; commercial financing services; commercial real estate agency services; mutual funds; loan and private equity investments; information, assistance and consultancy in all the aforesaid fields, lease-purchasing of mobile and modular structures, insurance brokerage services, credit agency services in the field of commercial and consumer credit, financing of real estate loans and financial and banking services; monetary operations particularly by means of bank cards or customer loyalty cards; financial clearing services; issuance of checks and letters of credit; financial services; insurance services; financial operations; bill payment services; debit card services; payment cards services; pre-paid card services; electronic transactions by credit and debit card; electronic funds transfer; smart card and e-money services; liquidity provision services; credit card and payment services replacing cash payments; electronic transfer of capital; check verification; check cashing services; automated teller and safe deposit system services; payment processing services; transaction authentication and verification services; provision of financial information via a global computer network; financial sponsoring of festivals and concerts; financial services for purchasing goods and services sold in retail at points-of-sale for promotion purposes; information services in the field of tourism, namely financial information; financial services for tourist assistance purposes; lease-purchasing of telephones, facsimile machines and other telecommunication equipment; lease-purchasing of transport containers; financial sponsorship, namely, implementation of financial programs for support and assistance in the field of sport.

Cl.37; Construction; replacement, overhaul and maintenance of power plants, motors and engines, turbines, wind turbines and apparatus, equipment and instruments for energy and electricity production and their parts, components and accessories; installation, maintenance and repair services for compressors and pumps, namely machines, turbo-
expanders, fuel pumps and fuel distribution equipment, CNG refueling equipment, gas turbines, steam turbines, air-cooled heat exchangers, steam condensers, heavy-wall reactors and tubular reactors; maintenance and repair services for oil and gas pipelines; drilling and pumping of oil and gas; drilling for crude oil; installation of tubes and pipelines for drilling of oil wells; rental of tools for drilling oil and gas wells; remote monitoring, diagnosis, repair and maintenance for the repair and maintenance of airplane engines, turbines, electrical equipment, medical equipment, locomotives, including parts and accessories of all the aforesaid goods; rental of construction equipment; chemical cleaning services for glass-coated reactor vats used in the chemical and pharmaceutical treatment industries; maintenance services for heat transfer systems and of condensers; maintenance and repair services for equipment with computerized cooling systems; repair and maintenance services for machines, instruments, apparatus and electrical equipment; maintenance and repair services in the oil and gas field; services relating to installation of point-of-sales terminals in stores; computer maintenance services; installation and repair of electric apparatus; repair of radio receivers and television receivers; repair and maintenance of electric apparatus and instruments for communication; repair and maintenance of electric household appliances; repair and maintenance of electric lighting apparatus; repair and maintenance of electric apparatus for distribution and control; repair and maintenance of electric motors; repair and maintenance of machines and instruments for measuring and/or testing; repair and maintenance of medical apparatus and instruments; repair and maintenance of metalworking machines; repair and maintenance of tools; repair and maintenance of automatic vending machines; repair and maintenance of water purification apparatus; repair and maintenance of musical instruments; repair and maintenance of watches and clocks; repair and maintenance of gas-fired water heaters for household use; repair and maintenance of bathtubs; repair of toilets with water points; installation or repair and maintenance of computer hardware; repair and maintenance of air-conditioning apparatus; installation, maintenance and repair of office equipment and machines; installation, repair and maintenance of machinery equipment; repair of vehicles; repair and maintenance of computers; repair and maintenance of electronic printers; repair of telephones; electricity works and installation of telecommunication equipment; installation, maintenance and repair of compressors, pumps, namely, machines, turbo-expanders, fuel pumps and fuel distribution equipment, CNG refueling equipment, gas turbines, steam turbines, air-cooled heat exchangers, steam condensers, heavy-wall reactors and tubular reactors; repair and maintenance of oil and gas wells; repair and maintenance of tires for automobiles; retreading of tires; repair and maintenance of tires for two-wheeled motor vehicles; repair and maintenance of bicycles and their parts; repair and maintenance of bicycles for motorcycles; tire repair and recappping services.

Cl.1: Filtering media of chemical and non-chemical substances; chemical substances, chemical materials and chemical preparations, and natural elements for use in science; salts for industrial purposes; chemical and organic compositions for use in the manufacture of goods and beverages; biological preparations, other than for medical or veterinary purposes; proteinaceous preparations for scientific and medical research; chemical reagents for the extraction of nucleic acids, other than for medical or veterinary purposes; buffer reagents, namely for reducing background noise levels of detection of detection chemicals; kits comprising reagents to isolate ribonucleic acid protein complexes with intact ribonuclease of full length for analysis, for use in the laboratory; kit comprising chemical reagents for use in the quantitative detection of nucleic acid for scientific and laboratory purposes.

Cl.5: Diagnostic materials and diagnostic preparations for medical purposes; monoclonal antibodies; biological preparations for medical purposes for use in biotechnology, in cell cultures and in the production of diagnostic products; chemical, biological and biochemical reagents for medical or veterinary purposes; reagents for maintaining embryonic stem cells, stem cells and/or embryos in in vitro culture prior to implantation into a host and/or host cell for use in hospitals, medical and veterinary clinics and medical and veterinary science; mouse embryonic stem cells for medical, pharmaceutical or veterinary use; diagnostic test kits consisting of reagents, control slides and instructions for clinical or medical laboratory use; kits of reagents (buffers, controls, substrates, inhibitors, fluorophores) for fluorimetric assays for medical purposes; detection materials for the detection of reagents, blood, germs (for medical or veterinary purposes); biological reagents for use in embryology and molecular biology; preparations for maintaining embryos in culture; pharmaceutical preparations and substances, namely leukaemia inhibitory factor; analysis reagents for use in the pharmaceutical and medical sectors; reagents for quality control for use in the pharmaceutical and medical sectors; reagents for sample preparation for use in the pharmaceutical and medical sectors; reagents for sample digestion for use in the pharmaceutical and medical sectors; reagents for sampling for use in the pharmaceutical and medical sectors; media, preparations and/or substances for use in chromatography, in chromatographic procedures or in molecular separation procedures for medical purposes; products for purifying biological molecules (for medical or veterinary use); foetal bovine serum albumin; cells, proteins, peptides, nucleic acids and compositions thereof for medical or veterinary use; cell culture media; medical diagnostic reagents for use for biomolecule detection, optical imaging, cell suspension, and calibration; reagents for blood group determination; all aforementioned goods excluding test strips and indicator paper, in particular for proof of glucose; chemical reagents for the extraction or nucleic acids for medical use; chemical reagents for use in polymerase chain reactions for medical and veterinary purposes; immunoassay reagents for medical purposes.

Cl.7: Dust removing installations for cleaning purposes; filters [machine parts], filter cartridges for filter machines, filter housing as machine components; apparatus and filter for tangential flow filtration; disposable filters [machine parts], disposable cartridges for filter machines; stirring and mixing apparatus; disposable filters [parts of machines]; filling machines for filling bottles, vials and syringes and single use disposable non-metal connectors; power-operated crimping tool for sealing and cutting tubing; crimping tool for sealing and cutting tubing; parts and fittings for all the aforesaid goods; all of the above for laboratory, medical, pharmaceutical, biological, microbiological applications and for applications for the scientific and laboratorial manufacture and processing of foodstuffs, and for the industrial microbiological testing of liquids; all of the aforesaid goods excluding machines and mechanical apparatus for the generation of compressed air, vacuum and air flow, machines for pre-printing, printing or type-setting purposes, papermaking machines, shredders (electrical) and other household apparatus, electric machines for cutting, breaking, crushing of ceramic, natural stone and other stony materials, motors and engines (except for land vehicles); agricultural implements other than hand-operated; automatic vending machines; valves [mechanical] to regulate gas and liquid flows.

Cl.9: Scientific, laboratory and measuring apparatus and instruments, namely analyzers and analysis apparatus; filtering units for laboratory use; filters for filtering solutions used in the semiconductor industry; filter cartridges, filter housing; automatic ion exchange chromatography apparatus for laboratory use; filtration plates, filter carrier racks and trays, column loaders, vials and vacuum manifolds; filter punch assay apparatus and instruments; testing apparatus; mass flow controllers; pressure sensors; ultrafiltration filters; kits for analysis, determination and/or identification of biological and/or chemical molecules and/or species; sterility testing devices; electronic testing apparatus, air monitoring units; ultrafiltration membranes as part of scientific apparatus; bioluminescence system for detecting contamination in liquids;
equipment for performing chromatographic separation and parts thereof; purification units, apparatus, instruments and cartridges for laboratory use; adsorpive separation devices; computer software for management of biopharmaceutical purification processes; test units for determining the integrity and/or-pore-size distribution of membrane filters; laboratory sample concentrator unit; laboratory equipment, tissue testing equipment; magnetically controlled pore glass; inserters and culture plates for laboratory use; electro-elution apparatus; equipment for use in cell culture, membranes and membrane cartridges; fluid separation apparatus; microprocessor-based pressure control units; clinical or laboratory sample concentrator unit; electronic and electrical testing apparatus for laboratory contaminants and clinical analysis, electrophoresis separators; incubators for microbiological samples on filters; ultraviolet sterilizers for filter holder between filtrations and for water supplies for laboratory or scientific use; pressure sensors, temperature sensors and other sensors; membrane filters for laboratory and scientific use; membranes and apparatus used in dialysis, reverse osmosis and ultrafiltration for laboratory or scientific use; bioreactors; bioreactors for industrial use; spectrometers used for the detection and quantification of proteins; stands, test tube and vial stand kits for incubating venous endothelial cells; stands for fixing the laboratory instruments and apparatus (equipment especially made for laboratories); probes and detection probes; instruments for molecular biological and immunological testing; diagnostic apparatus and instruments for scientific use; test kits, namely microscope slides for different colourings for positive controls; immunoprecipitation kit for laboratory (laboratory apparatus); microscope slides and liquid cover glass; closures and closure systems for containers seals and stoppers for laboratory bottles containing chemicals, medical and pharmaceutical substances as well as solutions for injection; antibody specificity array scanners, readers and image analyzers for detecting chemileuminescent signals in antibody specificity array experiments in drug development and pharmaceutical research; antibody specificity array scanners, readers and image analysis units for use in antibody specificity array experiments in drug development and pharmaceutical research; computer software for use with antibody specificity array scanners, readers and image analyzers for analysis and quantification of specificity and reactivity of biological molecules; histone antibody specificity assay kits consisting of microarray membranes, chemical reagents for use in histone antibody specificity research, readers and image analysis units for the detection and analysis of antibodies and computer software for use in antibody-specific testing scanners, readers and analysis units for the analysis and quantification of specificity and reactivity in biological molecules; scientific apparatus and instruments all for use in cytology; cell culture apparatus for use in laboratories, namely culture dishes, culture flasks, culture tubes, vials; blood cell analysis apparatus (other than for medical use); automated microbiology and haemostaining instruments, replacement vessels and lids and recirculation, and electronic water bath units used as laboratory equipment; electrical apparatus for the evaluation of enzymatic activity; chromatography devices for laboratory purposes; other laboratory machines and instruments; chromatography columns for measuring purposes; chromatography devices for measurement purposes and corresponding accessories; chromatography columns for laboratory use and corresponding accessories; chromatography columns for use in laboratory purification and corresponding accessories; devices for concentrating and purifying samples as pretreatment of quantitative analysis; solid phase extraction cartridges for laboratory use; solid phase microextraction fibres, fibre holders, and fibre assemblies for concentrating and purifying samples as pretreatment of quantitative analysis; apparatus for the synthesis of peptides; automatic immune detection devices used for laboratory purposes; disposable dispenser syringes for laboratory use; reusable dispenser syringes for laboratory use; electrodes for laboratory research; laboratory consumables, namely pipette tips; laboratory equipment, specifically crucibles, funnels, callipers, pipette racks, test tube racks, pipettes, and microarrays; laboratory glassware, namely measuring vessels, pipettes, test tubes, beakers, flasks and glassware with measuring scales; magnetic stir bars; micrometers; carbon nanotubes for use in extremely small scale electronic and mechanical applications; plates, glass slides or chips having multi-well arrays that can be used in chemical analysis, biological analysis or patterning for scientific, laboratory or medical research; pipettes; protective clothing especially made for use in laboratories; scalpels for laboratory use; incubators for bacteria culture; laboratory smear devices other than for medical purposes; equipment with pears (laboratory devices for medical purposes), used for the calibration and quality control for the analysis, diagnosis and testing of biological samples; biological sample collection and preparation equipment.

Cl.10; Syringes, pincers, suckers, ice packs, material for artificial eardrum membranes, material for prostheses and fillings for medical implants; devices for mixing pharmacinals and diluents for patient use; laboratory swab devices for medical purposes.

Cl.11; Gas regulators.

Cl.14; Stopwatches.

Cl.35; E-commerce services, notably the supply of information and advice for consumers in the selection of products that are on sale for advertising and distribution purposes in academic research, agriculture, test development and in test procedures, biotechnology, chemical research and development, in clinical testing procedures, in cosmetics and personal care, in the manufacture of diagnostic materials, in environmental protection and industrial hygiene, in the sector of flavours and fragrances, food and beverages, forestry, medicinal materials and acquisition for the pharmaceutical industry, notably in the purchasing of chemicals for third parties.

Cl.39; User-defined packaging of chemicals and pharmaceuticals.

Cl.40; Material processing with biochemical, biological and pharmaceutical materials; material processing with chemicals; water treatment; water purification; treatment of metal; user-defined, client-specific production of chemical products for use in manufacturing, research and science; user-defined, client-specific production of mixtures for use in pharmaceuticals; filtration services; pharmaceutical filtration service; processing of chemicals; processing of biocatalysts for third parties; client-specific production of peptides with a highly productive parallel system as a range of services for researchers in the Life Science sector.

Cl.42; Medical and pharmacological research services; natural science services; testing, authentication and quality control in the medical and pharmaceutical research industries; pharmaceutical research and development services; laboratory research services in connection with medicinal products; Platform as a Service [PaaS]; hosting of e-commerce platforms on the Internet; hosting of transaction platforms on the internet; hosting of communication platforms on the internet; user-defined weighing of chemicals and pharmaceuticals; scientific research services in the fields of molecular and cell biology including custom-made cell lines and development and implementation of associated assays, protocols or kits for scientific, diagnostic, industrial or research use.

Cl.1; Chemical substances for industrial or manufacturing processes, namely, detergents for industrial or manufacturing processes, preparations for degreasing inanimate objects in the commercial field of meat packing plants and other food processing industries, compounds for softening water, chelating agents, acid removers, scale removers, rinse aid compositions, anti-foam agents, cooling brines, additives to cooling brines, additives used in water treatment, cooling water treatment scale and corrosion inhibitors, boiler water treatment sludge conditioners, oxygen scavengers and dispersants.

Cl.2; Durable floor finish in the form of a coating that is applied to flooring substrates for commercial, industrial and institutional use; concrete sealer in the form of a coating for commercial, industrial and institutional use; sealing and protective coating preparations for porous surfaces; protective and decorative coatings in the nature of an ultra-high speed floor varnish; floor sealing and filling agent in the nature of a varnish.

Cl.3; All-purpose cleaning, degreasers other than for use in manufacturing processes, polishing and finishing preparations and cleaning preparations with disinfecting properties for use on inanimate surfaces, namely, floor cleaning preparations, floor polishing preparations, floor finishing preparations, floor wax and polish removing preparations; furniture polish, glass cleaning and polishing preparations; stainless steel cleaning preparations; cleaning preparations for use in the internal and external cleaning and maintenance of all types of vehicles; sink, toilet, shower and tub cleaners; tile cleaning preparations; non-medicated hand soaps and hand lotions; shampoo; carpet cleaning solutions and stain removers; cleaning preparations for use on fabrics, upholstery and carpets, with and without deodorant properties; laundry products for commercial use, namely, detergents, bleach, fabric softeners, laundry sour/neutralizers, starch and stain removers; germicidal detergents for commercial laundry; washing products, namely, machine dishwashing detergents and rinse additives, hand dishwashing detergents, flatware presoaking detergents, dishware cleaning preparations in the nature of destaining preparations, acid cleaning preparations for use in machine dishwashers, detergent rinse aids, soak tank cleaning preparations; cleaning preparations for bottle washing; oven cleaning preparations, pipe and drain cleaning preparations; preparation for cleaning tanks, pipelines, floors, walls and ceilings; degreasers other than for use in manufacturing processes; floor waxes; floor finish remover; starch for use in commercial laundries.

Cl.4; Industrial greases, oils, and lubricants.

Cl.5; All-purpose sanitizing preparations, general purpose germicides and deodorant preparations for industrial use for use on inanimate surfaces; all-purpose disinfectants and sanitizing preparations; air fresheners, namely, air deodorizers and room air deodorizers; carpet, fabric and upholstery deodorizers; veterinary preparations, namely, teat sanitizers, algaeicides, sterilizing materials, namely, sanitary sterilizing preparations; disinfecting handwash; disinfectants for hygiene purposes; disinfectants for sanitary purposes; hand-sanitizing preparations; sanitizing preparations; disinfectant bathroom cleaners; disinfectant toilet bowl cleaners; all-purpose disinfecting and deodorizing preparations; air
deodorizing preparations; all of the foregoing for commercial and institutional use.

Cl.7; Cleaning and polishing machines, instruments and apparatuses, namely, floor cleaning and polishing machines; vacuum cleaners and cleaning machines for carpets and rugs and structural parts thereof; machines, namely, rug and carpet beaters; machines for dry cleaning carpets and rugs; power operated floor scrubbers, floor polish and foam generating machines and structural parts thereof; electric sweepers; vacuum cleaners and electric sweepers.

Cl.9; Web based tracking and monitoring system consisting of computer hardware and software used to track and monitor floor cleaning machines that are used to clean and sanitize retail, industrial and commercial facilities; computer software for the control and operation of automatic machines, namely, automatic floor scrubbers, vacuum cleaners, and industrial robots in the field of interior maintenance of industrial and commercial buildings; downloadable software program for remote monitoring of floor cleaning; automated dispensers for commercial laundry detergent; electronic automated laundry detergent dispenser for laundry machines; caliper for measuring the thickness of human skin folds; automatic laundry detergent dispenser with data logging capability; automated systems comprising software, hardware and communications devices for monitoring, collecting data on, and reporting on industrial cleaning and sanitation, worker hygiene practices and product temperatures, conditions and safety; computer software that allows multiple sensors to identify specific floor areas to be cleaned, and to connect multiple areas for cleaning, by commercial robotic floor scrubbers and vacuums; automated process control and monitoring system for use in connection with commercial dishwasher systems, namely, computer hardware, computer software, electronic sensors, and communication devices that provide monitoring and control of automated chemical and cleaning product dispensing functions, information and recordkeeping for hygiene compliance, troubleshooting of deficiencies and breakdowns, optimizing water, energy and chemical usage, and maximizing productivity of commercial dishwasher systems; automated process control and monitoring system for use in connection with commercial laundry washer and dryer systems comprised of computer hardware, computer software, electronic sensors, and communication devices that provide monitoring and control of automated chemical and cleaning product dispensing functions, information and recordkeeping for hygiene compliance, troubleshooting of deficiencies and breakdowns, optimizing water, energy and chemical usage, and maximizing productivity of commercial laundry washer and dryer systems; mobile tracking and quality control systems, consisting of barcode scanners, RFID sensors, computer hardware and software used to create, collect, process and transmit data for monitoring, reporting and training in connection with cleaning and hygiene services in the retail, industrial and commercial fields; web based tracking and monitoring system consisting of computer hardware and software used to track and monitor floor cleaning machines that are used to clean and sanitize retail, industrial and commercial facilities; video-based tracking, monitoring and control system consisting of computer hardware and software used to track, monitor and control floor cleaning machines that are used to clean and sanitize retail, industrial and commercial facilities.

Cl.21; Dispensers for cleaning and disinfecting preparations; cleaning instruments, namely, scrubbing brushes, mops, sponges and cleaning cloths; dispensers and dispensing systems comprising dispensers and controlled dose pouring nozzles for cleaning and sanitizing preparations; dispensers containing a portion control delivery system for handling of cleaning and sanitizing solutions.

Cl.35; Data processing services, collection of market research data, and monitoring data for business purposes, all provided in the field of retail, industrial and commercial cleaning and hygiene; monitoring, collecting data on, and reporting on cleaning and sanitation, worker hygiene practices, and product temperatures, conditions, and safety, for business purposes; retail services by direct solicitation by sales agents in the field of vacuum cleaners and power-operated floor scrubbers; consultation in business management of floor cleaning programs.

Cl.36; Financial services, namely, providing financing for the lease and purchase of floor cleaning machines, accessories and supplies.

Cl.37; Rental of floor cleaning machines, repair and maintenance services for floor cleaning machines; consultation in implementation of floor cleaning programs; restoring the appearance of building facades and structures; deodorizing and cleaning human, animal, and fish habitat buildings and related equipment, and food preparation and serving facilities; removing silicones from processing equipment; removing product spills in processing facilities; removing graffiti and rust stains, and polishing metal surfaces, in the field of restoring and decontaminating, namely, cleaning manholes and steam tunnels; drain and portable toilet maintenance; and installing and maintaining drip systems for use in drain maintenance, waste treatment, air scrubbing, septic tank systems, grease trap systems, trash chutes and trash receptacles, water treatment, waste water treatment, clarifying equipment and skimming equipment; consulting performed in the field of restoring the appearance of building facades and structures, in the field of deodorizing and cleaning human, animal, and fish habitat buildings and related equipment and food preparation and serving facilities, in the field of removing silicones from processing equipment, in the field of treating and removing product spills in processing facilities, in the field of removing graffiti and rust stains, and polishing metal surfaces, in the field of restoring and decontaminating, namely, cleaning, manholes and steam tunnels, and in the field of drain and portable toilet maintenance.

Cl.41; Educational services, namely, providing training, seminars and workshops, and publication of information materials concerning hygiene, cleaning, floor care and laundry and concerning proper food safety practices and procedures with respect to cleaning of kitchens and food service equipment, proper floor and carpet care, proper hygiene procedures for food service employees, and proper cleaning and disinfection of food processing plants and areas, and consultation relating to such training, seminars and workshops; training in implementation and business management of floor cleaning programs.

Cl.42; Diagnostic services and monitoring of automated process control systems in connection with commercial laundry washer and dryer systems to ensure proper functioning; control in the nature of remote management and monitoring of computer hardware, computer software, electronic sensors, and communication devices that provide monitoring and control of automated chemical and cleaning product dispensing functions, information and recordkeeping for hygiene compliance, troubleshooting of deficiencies and breakdowns, optimizing water, energy and chemical usage, and maximizing productivity of commercial laundry washer and dryer systems; application service provider, namely, hosting, managing, developing, analyzing, and maintaining applications and software for use by businesses in the food service, food retail, hospitality and catering industries and their suppliers in the fields of food safety, quality monitoring, supply chain and traceability, regulatory compliance, reporting and analysis; providing temporary use of non-downloadable software that allows users to create, store, record, manage, and maintain checklists and audit records.

calibration or qualification of analytical instruments; ph indicator sticks; degreasing and cleaning solvents and deuterated
chemical solvents for use in industry and science; silicates for use in industry and science; reconstituted cells for
examination purposes, proteins; peptides, nucleic acids and compositions containing cells, proteins, for scientific,
laboratory or medical research; peptides and nucleic acids for use in gene expression technology, biological, genetic,
chemical and scientific research and development; analytical test kits for determination, identification and quantification
of biological and chemical molecules by chromatographic methods.

Cl.1; Chemicals for use in industry and science, namely, standardized analytical solutions used for titrations and
calibration purposes; chemical reagents for research, analysis, synthesis, quality control, production and for sample
preparation, sample digestion, cleaning and extraction; culture media for the detection of microorganisms in the air, in
liquids and on surfaces; chemical reagents for detection toxic substances; test strips for the semiquantitative detection
of ions, organic substances and inorganic substances; chemically-treated nonmedical test strips for pH determination;
sorbent materials for use in gas chromatography; nucleoside derivatives and nucleotide derivatives for scientific and
medical research use and for the synthesis of oligonucleotides particularly for use in the manufacture of diagnostic
preparations, therapeutic preparations and pharmaceuticals; chemical products the extraction of lipophilic components
from body fluids; chemical products for use in chromatography; culture media for microorganisms and rapid test strips
for analysis, quality and process control for use in manufacturing pharmaceutical and medical preparations or products;
chemical reagents for the determination of the degree of deterioration of fats used for deep-frying; test kits consisting of
chemical reagents and test paper for assessing the hygiene status of surfaces; chemical reagents used for analytical
moisture determinations; high purity acids for use in elemental analysis; phosphorous pentoxide desiccator drying agent;
chemical fluxes for use in X-ray fluorescence analysis; ampules of biological indicator solution for checking sterilization,
ultrapure solvents for use in environmental analysis; chemicals for primary use in gas chromatography detection;
solvents for use in gas chromatography detection; concentrated laboratory reagent solutions prepacked in ampules;
solvents for scientific ultraviolet and infrared spectroscopy; chemical preparations, namely, chemical reagents for the
calibration or qualification of analytical instruments; ph indicator sticks; degreasing and cleaning solvents and deuterated
chemical solvents for use in industry and science; silicates for use in industry and science; reconstituted cells for
examination purposes, proteins; peptides, nucleic acids and compositions containing cells, proteins, for scientific,
laboratory or medical research; peptides and nucleic acids for use in gene expression technology, biological, genetic,
chemical and scientific research and development; analytical test kits for determination, identification and quantification
of biological and chemical molecules by chromatographic methods.

Cl.3; Cleaning, polishing, scouring and abrasive preparations; bleaching preparations; detergents.

Cl.5; Pharmaceutical products, namely reagents for research, analysis, quality control, synthesis and for sample
preparation, sample digestion and extraction; culture media for diagnostic purposes, namely growth and detection of
bacteria and fungi; nutrients, foodstuffs, nutritive media and nutritional liquids for micro-organisms, bacteria and
bacterial cultures; diagnostic reagent packed in the form of a column used for extracting fat-soluble substances from
secreting liquid of the human body; oiled paper for medical purposes, pharmaceutical water; empty capsules for
pharmaceuticals; bacteriological products for autoclaving control; peptides, nucleic acids and compositions containing
cells and proteins for pharmaceutical purposes; peptides and nucleic acids for medical and veterinary use.

Cl.7; Vacuum pumps; machines consisting of cleaning machines and devices for removing contaminants from liquids;
filters [machine parts]; liquid filters; filter covers; dispensing machines for membrane filters, membrane filters made of
plastic or polymer being parts of machines; paper filters; accessories for the goods stated above, namely bags, tubes and
transfer ports for use in the pharmaceutical manufacturing environment for transferring liquids and powders; parts,
namely pipes and parts as well as fittings for all of the items stated above, if included in this class; mixers, namely,
disposable industrial mixer for mixing liquids in the pharmaceutical and chemical industries; filling machines, namely,
disposable filling assemblies and liquid filtration manifolds; power-operated crimping tools for sealing and cutting
laboratory tubing and vials; pumps for dispensing fresh solvents and draining titrated solutions, which are used with
computerized titrators for analytical moisture determinations in solids, liquids and gases; machines consisting of
cleaning machines and devices for laboratory purposes for removing contaminants from liquids.

Cl.9; Vials and bottles for laboratory chemicals and reagents, other than for medical or veterinary purposes; measuring
glasses, test tubes, laboratory trays, in particular sedimentation trays; pipettes; measuring and control [surveying]
devices for determination of airborne; air samplers, comprising housings with air direction outlets and electrical and
electronic circuitry, stands and mounting fixtures as well as test strips, all sold as a unit, for the detection, measurement
and control of airborne germs; laboratory equipment, namely, prepacked columns for the extraction of lipophilic
components from body fluids; reflectometers, photometers, colorimeters and optical cameras for reflectometrical, optical
and electronic measurement, control and analyses; computer software, in particular for controlling, data transmission and
data evaluation; apparatuses for data recording, processing and output; chromatography apparatus for laboratory use; laboratory equipment for use with chromatography instruments, namely, stands for use with chromatography equipment, compression modules, air manifolds, electrical grounding wires for dissipating static electrical charges, and sample injection modules in the nature of containers for loading separation samples into chromatography apparatus; laboratory kits comprising compression modules and valves for use in chromatography apparatus and for use in the analysis of chromatographic components; computer workstations for use in the purification of organic compounds, consisting of computer hardware, computer software for controlling chromatography apparatus and managing related data, automated sample injectors for making simultaneous sample injections into multiple flowpaths, multiple flowpath detectors, multiple pre packed chromatography columns and multiple fraction collectors, and manuals sold as a unit therewith; prepacked columns for liquid chromatography; portable hygiene monitoring equipment, namely instruments for determining the cleanliness of food processing facilities and the efficacy of cleaning routines in food processing facilities; spectrosopes; specimen sampling tubes; laboratory equipment, namely, empty glass columns, cartridges, frits, adapters and adaptor clamps, extraction units, drying attachments for extraction units [all for use in chromatography]; computerized titrators used for analytical moisture determinations in solids, liquids, and gases, and accessories thereto, namely, evaporators, samplers, and titration cells; apparatuses and instruments for sample preparation and sample digestion, namely, photometers, spectrophotometers and colorimeters measuring in the visible and ultraviolet wavelength range, thermoreactors for decomposition and sample preparation, microwave ovens for decomposition and sample preparation; operating software for the aforementioned goods; software for data transmission and data evaluation in the field of optical measuring, optical control and optical analysis; data processors; computers for data recording, evaluation and output, in the field of optical measuring, optical control and optical analysis; equipment and instruments for the determination of the turbidity of aqueous solutions; equipment and instruments for the ph-measurement; equipment and instruments for use in chromatography, namely, high performance thin layer chromatography plates and thin layer chromatography plates and kits comprised of high performance thin layer chromatography plates, thin layer chromatography plates and chemicals used in industry and science; separation columns for use in chromatography; laboratory testing system comprised of a filter contained within a filtration funnel and parts therefore sold as a unit for the collection, isolation and counting of micro-organisms; laboratory filters; microbiological filters; filter contained within a filtration funnel and parts therefore sold as a unit for the detection of contamination in liquids in the beverage industry; electronic testing device, namely an air monitor for performing microbial analysis of the air in clean rooms; scientific apparatus, namely, a laboratory testing system comprised of a filter contained within a filtration funnel and parts therefore sold as a unit for the collection, isolation and counting of micro-organisms; biofilters; filters for biological samples; laboratory filters, namely, liquid filtration, purification and concentration devices for ultrapure solvent or water based pharmaceutical preparations; scientific laboratory and measuring apparatus and instruments, namely laboratory filters for liquids, housing for laboratory filters for liquids, and instruments for detection of filter condition, namely filter integrity testers; analysers and analysis apparatus, namely sensors for detection of temperature, oxygen, pH levels, CO2 and other parameters; laboratory filters, namely liquid and gas purification filters; filter holders and housings for liquid and gas purification filters for laboratory purposes; ion exchange apparatus and instruments, namely liquid and gas purification filters for laboratory purposes; testing apparatus, namely liquid and gas purity testing apparatus; downloadable publications in electronic format or on data carriers, namely, manuals and technical documentation featuring information on liquid and gas filtration; computer software for monitoring liquid and gas filtration; pressure sensors; equipment for analysis, determination and identification of biological and chemical molecules and species comprising reaction containers in the nature of beakers, reagents, and instructions; sterility testing devices, namely electronic apparatus for testing the sterility of filtration equipment; ultrafiltration membranes, namely scientific apparatus in the nature of cellulose mixed ester membranes and thermoplastic membranes for use in the science and research industry; fluorescence, electrochemiluminescence and bioluminescence system comprising detectors for indicating the presence of one of fluorescence, electrochemiluminescence and bioluminescence signals, an image device in the nature of a camera or microscope to show the detected signal, a filter for capturing the contamination from the liquid to be detected and detectors for contamination detection by this system for chromatographic separations and parts thereof, namely chromatography columns for laboratory use and control systems for liquid filtration machines for laboratory purposes; purification units, apparatus, instruments and cartridges for laboratory use, namely laboratory apparatus in the form of liquid and gas filters; adsorptive separation devices, namely laboratory filters having one or more chemical or charged entities for the absorption of impurities; components and accessories for all of the items stated above, namely liquid dispense nozzles in the nature of automatic liquid dispense nozzles, liquid tubes in the nature of laboratory storage tubes, laboratory test tubes, liquid pumps in the nature of pumps for laboratory testing purposes; accessories for the goods stated above, namely bags and transfer ports for use in pharmaceutical laboratories for liquids, powders and sterility testers; laboratory devices, namely a closed vial and piping to dilute soluble powered products for sterility testing; testing devices and resulting machines for testing the integrity of filters.

Cl.11; Apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, water supply and sanitary purposes; filtration manifolds; devices for removing contaminants from water or liquids; liquid purifying apparatus; industrial chromatography apparatus and instruments; filters used for removing endocrine disrupting molecules from water; other filters used for water purification devices, filters for use in the food and beverage industries; components and accessories for all of the items stated above, if included in this class; distillation unit for liquid concentration; liquid filtering device [parts of industrial installations]; industrial treatment plants, namely liquid concentration fluid filtration system; point-of-use water dispensers and water purification membranes for laboratory use; membranes for industrial use; liquid treatment equipment; industrial treatment plants, namely apparatus used in dialysis, reverse osmosis, ultrapure liquid filtration and concentration devices; parts of household or industrial installations; air purifying apparatus and machines; cooling installations and machines; electric radiators; water distribution installations; electric heating apparatus; lighting apparatus and installations; filters used for removing endocrine disrupting molecules from water; filtration apparatus for industrial use; air filters.
Cl.42: Scientific and technological services and research and design relating thereto; industrial analysis and research services; analytical services for the research or screening of molecules and biological samples; chemical research; biological research; scientific, measuring and testing services; sterility testing of liquids and powders; molecular based assays in the pharmaceutical and biopharmaceutical industries, specifically in the determination and identification of microorganisms.

Cl.11; Apparatus for lighting, heating, steam generating, cooking, refrigerating, drying and ventilating purposes; sterilization, disinfection and decontamination apparatus and parts of all the aforesaid products, including lights; lighting apparatus, lamps and lighting equipment, including LED lamp, LED fixture, LED night light, ceiling light, LED floodlight, halogen lamp, LED, LED TV mood light, LED room lamp, LED floor lamp, LED desk lamp, LED retro filament lamp, LED downlight, UV lamp for nails, wake up light, (LED) sport light, LED mirrors being lighting installations, table lamp, string light, Christmas light, disco ball, link spotlights, mirror ball ball, mirror ball, pin spot light, plasma light ball, LED torch, headlamp, LED garden light, remote controlled LED lamp, decorative laser light, party light, party string lights; camera ring light; smart lighting, smart light fitting, smart lamp, smart humidifier, smart air purifier; refrigerator, fridge, freezer; strip fridges/freezers to be used for vending purposes; fans, fan heater, towel heater, portable air conditioner, portable oil radiator, quartz patio heater, humidifier, replacement air cleaner filter, convection heater, infrared heater, split air conditioner, dehumidifiers, air purifier; electric steam sterilizer, microwave steam sterilizer; bread toaster, bread baking machines, egg cookers, fryers, deep fryers, hot air fryers, coffee machine, coffee percolators, temperature-controlled beverage dispensing units, other than vending machines, kettles, ovens, stove, microwave ovens, induction cooker, cooker hoods, cooker hood carbon filter, cooker
hood grease filter, crepe maker, waffle maker, ice cream maker, table grill, raclette grill, fondue set, bottle warmers, electric steamers, vapour extractors, sous-vide cooker, barbeque, electric barbeque; hair dryers, steam facial apparatus, facial sauna apparatus, tanning beds, foot warmer, hand warmer, electric blanket; drain hoses; shower hoses; heat pumps; tumble dryers; dryer machines.

Cl.12; Vehicles; apparatus for locomotion by land, air or water; land vehicles and conveyances; parts and fittings for land vehicles, including for bicycles, e-bicycles, e-scooters, e-steps, balance boards/hoover boards; car seat covers, anti-theft, security and safety devices and equipment for vehicles, snow chain; drones [other than toys]; speaker trolley.

Cl.14; Horological and chronometric instruments; time instruments, including wall clocks, alarm clocks, table clocks, wall clocks, radio alarm clocks, multifunctional alarm clocks.

Cl.17; Unprocessed and semi-processed rubber, gutta-percha, gum, asbestos, mica and substitutes for all these materials; plastics and resins in extruded form for use in manufacture; packing, stopping and insulating materials; flexible pipes, tubes and hoses, not of metal; flexible pipes, tubes and hoses, and fittings therefor, not of metal, including 3D filaments for printing machines [semi-worked thermoplastic filaments used for 3D printing, semi-worked PLA filaments used for 3D printing, semi-worked ABS filaments used for 3D printing], laminating films; flexible plastic hoses, plastic outlet hoses, plastic inlet hoses, flexible plastic outlet hoses for use with ventilation systems; inlet hoses with water block, gas hoses, air outlet hoses; strips of rubber, for protecting walls and fences.

Cl.20; Furniture, mirrors, picture frames; containers, not of metal, for storage or transport; furniture and furniture fittings, not of metal; containers, not of metal [storage, transport]; closures, not of metal, for containers; ergonomic accessories [furniture], including foot rests, adjustable tables, standing desks, back support cushions, not for medical purposes, and arm rests for furniture; stacking kits for washing machines and tumble dryers (stacking trays of plastic); drip trays, not of metal, for washing machines; hanging racks, storage drawers, pedestals [furniture]; brochure and file holders [furniture]; cable ties.

Cl.21; Household or kitchen utensils and containers; combs and sponges; brushes, except paintbrushes; brush-making materials; articles for cleaning purposes, including brushes, combi floor brushes, parquet floor brushes, dusting brushes, brushes made of cat and dog hair, radiator flexible brushes; ironing board covers, shaped; non-electric slow juicer, non-electric citrus press, coffee grinder; induction plates scrapers for household purposes; smart pet feeder; mosquito stop light trap; electronic fly swatter.

Cl.28; Games, toys and playthings; video game apparatus, including video game consoles, steering wheels, handheld joystick controllers, flight stick, portable gaming devices, and interactive gaming chairs; radio controlled (r/c) cars, boats, scooters and drones.

Cl.35; Advertising; business management; business administration; office functions, including retailing and wholesaling and advertising in relation to cleaning products, machines and apparatus for household use, apparatus for personal use, hand tools, electric and electronic apparatus, and parts and accessories therefor; sales (retailing and wholesaling) and advertising in the field of furniture, lighting, audiovisual apparatus, apparatus for information technology, video game apparatus and parts and accessories therefor.

Cl.38; Providing user access to Internet platform offering cloud storage for data and images, audio and video data.

Cl.42; Hosting platforms offering cloud storage for data and images, audio and video data, gateway services.

transfer cases integrated into automatic gears; mechanical and hydrostatic variators for adjusting the speed increasing ratio in automatic infinitely variable change-speed gears; power shift transmissions for lorries, buses, special purpose vehicles and rail vehicles; hydrostatic and hydrodynamic power shift transmissions for special-purpose vehicles and rail vehicles; transfer cases for passenger vehicles and special purpose vehicles with and without all-wheel drives; self-locking and limited slip differentials for passenger vehicles, lorries and special purpose vehicles; gear systems, gear preselectors, automatic switching apparatus, in particular for automatic gear shifting; synchronizing rings and synchronizing devices for gear boxes; transmission for tracked vehicles; electric, electromechanical and electrohydraulic drives and drive systems and hybrid drives for passenger vehicles, lorries, buses and special purpose vehicles; wheel hub drive systems and wheel hub gears; drives for rail vehicles; planetary gears for hydrostatic and electric drives; helicopter rotor blade adjustment devices; mechanical, hydraulic, electrohydraulic and electrically-assisted steering mechanisms and steering systems for passenger vehicles, lorries, buses, special purpose vehicles and track vehicles; axles; axle systems and axle drives for passenger vehicles, lorries, buses, special purpose vehicles and rail vehicles; apparatus for roll stabilization and for level regulation of land vehicles; differentials; chassis components; torque converters; couplings; retarders; brakes; clutches; auxiliary drives; axle drives; suspension shock absorbers; shock absorbing springs; tie rods; stabilizers; panhard rods and track rod ends; handle bars; wheel joints; four-point links; triangular links; axle struts; electric, electrohydraulic, hydraulic and mechanical steering; steering columns; wheel drives; electric motors for motor vehicles; internal combustion engines for motor vehicles; electric motors for motor cars; hybrid drives for motor vehicles; wheelchairs for transporting invalids; motors for land vehicles; bodywork parts for vehicles; parts and fittings for interior fitting of motor vehicles in the form of precision plastic molds and assemblies, pipes and fastenings; brakes and brake systems for vehicles, namely anti-lock braking systems, traction controls and vehicle stability control braking systems; base brakes; disc brakes; drum brakes; rotors; brake shoes; actuators for brake systems, in particular master cylinders;
seat belts and seat belt pretensioners; child restraints; airbag coverings; air bags; integrated vehicle safety systems; anti-theft protection systems for vehicles; wheel suspensions; steering racks; steering gears; wheel suspension ball joints; steering linkages; hydraulic steering systems; power steering systems; electrically powered steering; electrically powered hydraulic steering; integrated steering and wheel suspension modules; steering wheels; intermediate columns; metal guides and seat inserts of metal for vehicles; valve lifters; valve train rotators, retainer caps and retainer locks; wheel cylinders for vehicles; parking brakes; hydraulic boosters; mechanical brake assistance systems; vacuum boosters; slip control boost actuation; electric hydraulic braking systems; electric mechanical brakes; electric parking brakes; electro-hydraulic brakes; belt and rack drive electronic power steering; column drive electronic power steering; rear wheel steering systems for motor vehicles; steer-by-wire systems; manual mechanical steering systems; active dynamic wheel suspensions; semi-active roll control; active roll control; axle boots for vehicles; vehicle parts, namely, suspension linkages and suspension struts; advanced steering systems; steering fluid supply; integral steering gear; active and adaptive restraint systems; active control retractor systems for safety belts; retractor and buckle assemblies for safety belts; vehicle seat height adjustment devices; single stage airbag inflators; dual stage airbag inflators; assistance systems for bypassing the blind spot for automobiles; disk brake pads; drum brake pads; cantilever brakes; distribution cable yokes for cantilever brakes; brake kits; clutch slave cylinders; brake boosters; racks and pinions for steering of vehicles; bellows for cardan joints of motor vehicles; drag links; radius rods; automatic emergency braking systems for vehicles; active front axle steering systems; collision mitigation braking systems; front impact multi-stage airbag inflators; side impact multi-stage airbag inflators; steering accessories, namely cardan joints, angular gears, steering columns, valves valves for vehicle tyres and work cylinders for steering systems; worm gears for steering mechanisms; fixed and adjustable steering columns, steering axles, steering brakes, steering valves, intermediate steering gear; torsional vibration dampers; valves; separate and integrated primary and secondary retarder brake systems for lorries, buses, special purpose vehicles and rail vehicles; parts and components for the aforesaid goods for motor vehicles; transmissions for helicopters, aircraft and airships; engine transmissions for helicopters; actuators for aircraft; transmissions and transmission parts for ships; parts for drive trains of ships between gears and propellers, namely couplings, propeller shafts and flanges; marine propulsion units; surface drives for ships; reversing gears and step-up gears for water vehicles; gear shift knobs for vehicles.

Cl.37;Building construction; conducting of maintenance and repair work on apparatus for locomotion by land, air, on water or in water, and parts therefor; conducting of maintenance and repair work on vehicles and parts therefor; conducting of maintenance and repair work on computer hardware.
