development of computer programs; construction project development; technical project development in the field of engineering; development of prostheses; development of computer networks; development of coatings for products not of metal; development of coatings for metals; development of software application solutions; development of software solutions for Internet access providers and Internet users; development of measuring probes for biotechnological applications; development of systems for data transmission; Development of data processing systems; development of data storage systems; development of computer systems; development of energy and power management systems; development of manufacturing methods; development of technologies for the protection of electronic networks; development of vehicles; development and design of digital image and sound carriers; development and creation of computer programs for data processing; development and testing of software; development and maintenance of computer database software; development and maintenance of software; development and updating of software; development and testing of computing methods, algorithms and software; development, updating and maintenance of software and database systems; development, programming and implementation of software; error diagnosis (information systems via the use of software); programming of computer hardware systems; development and implementation of software; duplication of computer programs; writing of computer software; writing of computer programs; writing of computer programs for biotechnological applications; commissioned writing of software, codes and computer programs for the creation of web pages on the Internet; development (design) of software for others; software development (design); software development [design]; development of computer languages; software development; encoding of digital multimedia data; data transmission; electronic data; recording by devices; recording of data concerning electronic data; recording on data carriers; recording and evaluation of the services of others for certification purposes; testing, analysis and evaluation of the services of others; testing of electronic data processing systems; testing of apparatus in the field of electrical engineering; testing of software; computer hardware testing; computer-aided scientific testing; geological assessment and research; estimates in the scientific fields provided by engineers; estimates in the technological fields provided by engineers; geological assessments and research; reporting linked with chemical research; reporting concerning projects in the field of graphic arts; reporting relating to computer programming; toxicological information study for risk assessment; comparative analysis studies on the performance of computer systems; comparative analysis studies on the efficiency of computer systems; feasibility studies in the field of analysis of material; feasibility studies in information technology; technical feasibility studies in the field of engineering; project studies concerning software; engineering project studies; technical project studies in the field of computer hardware and software; technical project studies; technical project studies in the field of construction; technical project studies in the field of carbon offsetting; environmental surveys; technical research projects and studies; geophysical studies; technical studies related to computer programming; technological studies; technological studies concerning machine tools; evaluation (quality control) of product development; evaluation (quality control) of product design; evaluation of chemical information to estimate risk levels; evaluation of chemical information relating to risks; evaluation of toxicological information relating to risks; evaluation of the performance of computer systems in comparison with standards; quality assessment; product quality evaluation; performance evaluation of data processing standards for cost-benefit analysis; evaluation of cost-benefit analysis; evaluation of environmental risks; material testing and evaluation; qualitative evaluation of minerals or oils; quality evaluation of pharmaceutical products; quality evaluation of standing timber; quality evaluation of wool; evaluations in the scientific fields provided by engineers; evaluations in the technological fields provided by engineers; environmental assessments within civil engineering structures; technical evaluations concerning design [engineering work]; performing chemical analysis; conducting feasibility testing for computer hardware; software; environmental valuations for oil and gas exploration; data navigation; oil and gas exploration; Application service provider [ASP], namely hosting of third-party application software; provision of virtual computer environments via cloud computing; provision of information in connection with medical and scientific research in the field of pharmaceutical products and clinical trials; provision of information relating to scientific technology; providing information on clinical
shopping centers; architectural services for the design of office buildings; on-line support services for users of computer programs; technical support services relating to software; authentication (control) services of data transmitted by telecommunications; sampling and analysis services for assessing pollution levels; sampling and analysis to determine the presence of pollution; software writing services; computer program writing services for medical applications; writing services of data processing programs; writing services of computer programs; software writing and updating services; electronic storage of data; calibration services relating to medical equipment; feasibility studies relating to software; design feasibility studies; feasibility study services relating to computer hardware; technical project study services; demographic study services; geoseismic survey services; scientific study services; technical study services; evaluation services in the field of pyrotechnics; services for evaluating the efficiency of medicines for veterinary use; evaluation of the efficacy of pharmaceutical products; services for assessing the effectiveness of agricultural chemical products; measuring assessment services; assessment of the effectiveness of industrial chemical products; expert evaluations relating to information technology; expertise services with respect to information technology; hosting and software as a service, and rental of software; illustration services [design]; non-medical ultrasound imaging services; architectural services, namely, information concerning the harmonization of colors, paints and furniture for interior design; information services in connection with the application of computer networks; information services concerning computer programming services; computer engineering services; computer systems integration services; chemical laboratory research services; calibration services relating to software; certification of data transmitted by telecommunication; data encryption services; data encoding services; design services; architectural design services concerning exhibitions; architectural design services in the fields of traffic and transportation; architectural design services; computer aided part and mold design services; computer-assisted design services in the field of engineering; computer-aided design services relating to architecture; computer-aided design services for manufacturing processes; computer-aided design services for building projects; computer-aided design for engineering and industrial design; computer-aided design services; design services connected with the interior decoration of houses; design services related to data processing testing tools; design services related to real estate, including the interior decoration of offices and the design of retail and public services relating to residential property [architecture]; design services relating to plants for the biotechnological industry; design services related to the publication of documents; design services relating to data processing tools; design services concerning the creation of basic cells; design services concerning the installation of bath tubs; design services concerning data processors; design services concerning software; design of packaging; interior design services concerning interior design; design services concerning carpentry, woodwork and other woodworking; design services concerning jewelry; design services concerning the installation of sanitary accessories; design services in the field of network creation; design relating to furnishing fabrics; civil engineering design [architecture]; design services for civil engineering [architecture]; design services relating to mapping; design services relating to architecture; design services relating to graphics for glazed surfaces [storefronts]; website design and development services; design and planning services relating to telecommunication equipment; computer programming and development services; computer programming and development services [custom]; computer programming and development services; graphic design services; graphic design services concerning retail sale; design services linked to presses for metalworking; modeling design services for entertainment purposes; design services linked to modeling for recreational purposes; design services linked to modeling for display purposes; design services relating to modeling for display
software engineering services; software engineering services for data processing programs; biological research laboratory services; medical research laboratory services; research laboratory services in dentistry; laboratory research services in the field of optics; analytical laboratory services; scientific laboratory services; laboratory services with respect to agricultural research; laboratory services concerning soil analysis; software maintenance services; maintenance and support services and software; data migration services; updating of computer programs; computer system memory bank updating services; software update services related to security and computer risk prevention; software updating services; computer firewall services; time sharing of data processing apparatus; software customization services; planning services in the field of design; weather forecasting services; computer programming services; computer programming services for commercial analysis and reporting; software programming services; computer programming services for electronic data security; computer programming services for data storage; computer virus protection services; computer anti-virus protection services; technology expert reports; conducting services of early assessments of new pharmaceuticals; agricultural research services; agrochemical research services; biomedical research services; research services relating to construction; biochemical research services; laboratory research services concerning pharmaceutical products; laboratory research services linked with dermatology; research and development of new products for third parties; research and development services in the field of physics; advice and research services relating to software; chemical research and analysis services; research and advice relating to computer hardware; research and development in the field of antibodies; research and development services in the field of gene expression systems; research and development with respect to vaccines; research and development in the field of chemistry; Research and development services in the field of immunology; research and development in the field of bacteriology; research and development in the field of cytology; research and development with respect to fertilizers; research and development in the field of immunohistology; research and development services in the field of computer hardware; research and development relating to motor vehicle tires; research and development services in the field of engineering; research and testing services in the fields of bacteriology and virology; pharmaceutical research and development services; pharmaceutical research and development services; geophysical research services; computer-assisted industrial research services; industrial research services; research services in connection with cell separation; medical research services; oceanographic research services; research services relating to tires; scientific research services; technical research; Computer research services; mathematical research services; medical and pharmacological research services; pharmaceutical research services; computer-aided scientific research services; data recovery services; computer network services; data backup services; remote computer backup services; back-up services for computer hard drive data; information security services [firewalls]; computer security services for protection against unauthorized network access; security services for computer networks, computer access and computer-based transactions; electronic storage services for archiving databases, images and other electronic data; electronic storage services for electronic data archiving; electronic storage services for database archiving; electronic data storage and backup services; support services relating to information technology; monitoring services of computer security systems; remote aerial surveillance services for scientific exploration; monitoring services of computer systems; chemical synthesis and evaluation services; digital tattooing services; security technology testing services; testing services for use of a website; Computer program testing services; scientific testing services; information technology services; earth science services; natural science services; outsourced services relating to information technology; computer services concerning electronic data storage; data analysis computer services; electronic data processing software design services; software design services; services for reproducing computer programs; professional services relating to architectural design; scientific computer-programming services; scientific services with respect to the isolation and cultivation of human cells and tissues; scientific and technological services; scientific services and design services relating thereto; scientific services and research services relating thereto; technical support services with respect to computer software downloading; technical support services with respect to video games downloading; technical support services with respect to digital data downloading; technical design services; technological services and research relating thereto; technological services relating to design; geological survey [exploration] of building sites; station for analyzing the maturation of oil; online data storage; storage of digital video files; storage of digital audio files; electronic storage of digital audio files; electronic storage of digital photographs; electronic storage of entertainment content produced by the media; electronic data storage; temporary electronic storage of information and data; computerized storage of business information; monitoring of computer systems to detect breakdowns; monitoring of computer systems for the detection of unauthorized access or data protection breaches; monitoring of contaminated lands in search of gas; electronic monitoring of credit card transactions for the detection of fraud via the Internet; electronic monitoring of personal identification information for the detection of identity theft via the Internet; monitoring of computer systems by remote access; testing, analysis and evaluation of the goods and services of others for certification purposes; testing of computer hardware; IT testing; computer testing; testing, analysis and monitoring of telecommunication signals; testing, analyzing and controlling navigation signals; testing of apparatus in the field of electrical engineering for certification purposes; toxicity testing for research purposes; testing and analysis of materials; genetic testing on laboratory animals for research purposes; Technical evaluations concerning design (engineers’ services); scientific research; technical research; design of computers for others; computer development; software design; software development; research and development of new products for others; conducting of technical project studies; architecture; design of interior decor; software development (design); software installation; maintenance of software; updating of software; software rental; programming for computers; computer system analysis; computer system design; services provided by consultants relating to computer hardware design and development; digitization of documents; software as a service (SaaS); cloud computing; information technology (IT) consultancy; hosting of servers; vehicle roadworthiness testing; graphic arts design services; styling (industrial design); authentication of works of art; energy auditing; electronic data storage.

Cl.9; Computer programs for connecting remotely to computers or computer networks; software; wireless controllers to remotely monitor and control the function and status of other electrical, electronic, and mechanical devices or systems; software and applications for mobile devices; network operating system programs; privacy protection software; communication software for connecting computer network users; computer software for use in computer access control; computer programmes [programs], recorded; computer software for the processing of positioning data; mobile apps; character verification instruments (term considered too vague by the International Bureau - rule 13 (2) (b) of the Common Regulations); computer software for the dissemination of positioning data; computer software applications, downloadable; computer programmes relating to local area networks; application software for social networking services via internet; cards encoded to access computer software; cloud network monitoring software; computer programs for the enabling of access or entrance control; computer application software for mobile telephones; computer groupware; computer software for administration of local area networks; wireless controllers to remotely monitor and control the function and status of security systems; application software; computer application software for mobile phones; computer software for testing vulnerability in computers and computer networks; computer software for the monitoring of computer systems; downloadable computer security software; computer programs for accessing and using the internet; authentication software; communication software for connecting global computer networks; computer software; application software for cloud computing services; software to control building environmental, access and security systems; downloadable software; information technology and audiovisual equipment; computer software for mobile applications that enable interaction and interface between vehicles and mobile devices; computer application software; process controlling software; application software for wireless devices; computer software for the remote control of security apparatus; electronic control systems; computer software for wireless network communications; security software; downloadable cloud computing software; decoders; software for network and device security (term considered too vague by the International Bureau - rule 13 (2) (b) of the Common Regulations); communication software; computer software for wireless content delivery; computer firewall software; computer antivirus software; computer application software for use with wearable computer devices; adaptive software; mobile software (term considered too vague by the International Bureau - rule 13 (2) (b) of the Common Regulations); computer software for authorising access to data bases; firmware.
Cl.38; Live transmissions accessible via home pages on the internet [webcam]; providing user access to the internet (services providers); transmission of electronic mail [e-mail data services]; communication of information by electronic means; e-mail data services; transmission of user-generated content via the internet; wireless broadband communication services; providing high speed access to computer and communication networks; communication services, namely, electronic transmission of data and documents among users of computers; transmission of data and information by computer and electronic communication means; transmission of data via the internet; communication via virtual private networks; provision of internet access services; provision of communication facilities for the interchange of data by electronic means; transmission of information via computers connected to the same telematic network; collection and delivery of messages by electronic mail; providing of access to telecommunication warehousing services (term considered too vague by the International Bureau - rule 13 (2) (b) of the Common Regulations); transmission of information by computer; telecommunications routing and junction services; wireless electronic transmission of images; providing multiple-user access to a global computer network; providing multiple use access to global computer
information networks for the transfer and dissemination of a wide range of information; electronic network communications; electronic data interchange services; communication services over computer networks; transmission of information via wireless or cable networks; transfer of data by telecommunications; provision of telecommunication access and links to computer databases and to the internet; information transmission services via digital networks; provision of multiple-user access to conventional, dedicated access to the internet; digital network telecommunications services; electronic transmission of data; providing telecommunications connections to the internet; data transmission services between networked computer systems; communication services provided electronically; transmission of data by electronic means; providing access to computer networks; computer communications for the transmission of information; on-line communication services; internet service provider services; provision of access to electronic messaging systems; communication of information by computer; worldwide computer network access services; providing access to information via the internet; data bank interconnection services (term considered too vague by the International Bureau - rule 13 (2) (b) of the Common Regulations); consultancy services relating to data communications; provision of wireless application protocol services including those utilising a secure communications channel (term considered too vague by the International Bureau - rule 13 (2) (b) of the Common Regulations); distribution of data or audio visual images via a global computer network or the internet; electrical data transmission over a global remote data network, including distribution of information by the internet (term considered too vague by the International Bureau - rule 13 (2) (b) of the Common Regulations); telecommunications services provided by means of optical fibre networks; provision of telecommunications access to databases and the internet; wire agency [communication] services; telecommunication services; communication network consultancy; data communication services accessible by password; provision of access to content, websites and portals; transmission of video, movies, pictures, images, text, photos, games, user-generated content, audio content, and information via the internet; transmission of information via national and international networks; providing information relating to wireless communication; wireless transfer of data via the internet; transferring information and data via computer networks and the internet; local area networks (operation of -) (term considered too vague by the International Bureau - rule 13 (2) (b) of the Common Regulations); providing user access to global computer networks; transmission of information by electronic communications networks; transfer of information by facsimile service via on-line service provision by on-line service providers; transmission of messages, data and content via the internet and other communications networks; wireless electronic transmission of data; communications services for the exchange of data in electronic form; consulting services in the field of electronic communications; providing frame relay connectivity services for data transfer; transmission of digital files; provision of on-line communications services; transmission of information via computer networks; providing multiple-user access to a global computer information network; transmission of information on-line; telecommunications services provided via fiber optic, wireless and cable networks; digital transmission of data via the internet; electronic communications services; audio, video and multimedia broadcasting via the internet and other communications networks; electronic communications consultancy; communications by fibre optic networks; providing electronic telecommunication connections; telecommunications services, namely providing fiber optic network services; internet service providers (isps); transmission of information between computers and workstations; providing access to the internet and other communications networks; internet based telecommunication services; on-line information services, relating to telecommunications; operating of electronic communications networks; communications services provided over the internet; provision of access to television by decoding apparatus; provision of electronic data links; wireless transfer of data via wireless application protocols; electronic transmission and retransmission of sounds, images, documents, messages and data; wireless communications services; transmission of data, audio, video and multimedia files, including downloadable files and files streamed over a global computer network; transmission of data via isdn lines; rental of access time to a database server; providing access to and leasing access time to computer networks; automatic transfer of digital data using telecommunications channels; rental of access time to global computer networks; high bit-rate data transmission services for telecommunication network operators; streaming of data; providing telecommunications connections to a global computer network or databases; providing access to data in computer networks; information services relating to electronic communication networks; secure e-mail services; communications via computer networks; telecommunication services; links and websites and portals; providing access to electronic communications networks and electronic databases; transmission of written communications (electronic -); communication services between data banks; wireless transfer of data via digital mobile telephony; data communication services; provision of electronic communication links; communication services for the transmission of information by electronic means; telecommunications services between computer networks; communication services for the transmission; operating of electronic communications systems; transmission of information by electronic means; computer communications services for the transmission of information; providing access to electronic communications networks; data communication services accessible by access code; telecommunications services provided via the internet, intranet and extranet; mobile telecommunication network services; computer data transmission services; transmission of database information via telecommunications networks; communications by computer terminals; electronic transmission of instant messages and data; voice over internet protocol [voip] communication services; mobile telecommunications services; remote transmission of data by means of telecommunications; providing access to global computer networks and other computer networks; internet access services; telecommunication of information (including web pages); providing computer access to communication networks; provision of central switching services for electronic communications networks (term considered too vague by the International Bureau - rule 13 (2) (b) of the Common Regulations); providing access to telecommunication networks; data communication by electronic means; provision of access to the internet for others; information services relating to broadcasting; providing access to information via data networks; providing telecommunications connections to the internet or databases; computer communication services; wireless electronic transmission of facsimiles; telecommunications services for the distribution of data; transmission of data through the use of electronic image processing by telephone link (term considered too vague by the International Bureau - rule 13 (2) (b) of the Common Regulations); provision of access to an electronic on-line network for information retrieval; secure transmission of data, sound or images; providing access to a global computer network for the dissemination of information; providing access to a global computer network for information; data transmission; telecommunication services provided via internet platforms and portals; secured data, sound and image transmission services; providing virtual private network (VPN) services; transmission of data or audio visual images via a global computer network or the internet; computer communication and internet access; transmission of digital information; provision of access to computer networks and the internet; data transmission and data communication services; advisory and consulting services relating to wireless communications services and telecommunications equipment; telematic [data communication] services; electronic transmission of information (services for the -); communications via a global computer network or the internet; transmission of audio and video content via computer networks; providing access to information on the internet; providing telecommunications connections to a global
communication network or databases.

**Cl.41:** Education and instruction; arranging of displays for educational purposes; conducting training seminars for clients; video library services; arranging and conducting of symposiums; provision of instruction relating to data processing; training services relating to data communications; publishing services (including electronic publishing services); organisation and holding of fairs for cultural or educational purposes; demonstration [for instructional purposes]; organisation of congresses and conferences for cultural and educational purposes; organisation of seminars relating to training; organisation of seminars relating to education; training in the operation of computer programs; training services provided via simulators; publishing services carried out by computerised means; providing on-line videos, not downloadable; education services relating to the application of computer systems; arranging and conducting conferences and seminars; arranging, conducting and organisation of conferences; training in the development of software systems; arrangement of conferences for educational purposes; training of personnel to ensure maximum security protection; provision of computer related training courses; training services relating to computer systems; arranging and conducting of training seminars; educational services relating to information technology; instructional seminars; training services relating to the application of computer software; provision of online training services relating to training; electronic viewing guide services (term considered too vague by the International Bureau - rule 13 (2) (b) of the Common Regulations); arranging of lectures; arranging and conducting educational conferences; fetes (organisation of -) for educational purposes; arranging of courses for educational purposes; organisation of courses using distance learning methods; conducting of exhibitions for educational purposes; training in the use of data processing programs; organisation of conferences, exhibitions and competitions; workshops for educational purposes; training services relating to the installation of computer controlled test systems; training in the operation of computerised systems; arranging of workshops and seminars; conducting of seminars and congresses; electronic data processing training; training services relating to computer-aided testing; education services relating to the application of computer software; arranging, conducting and organisation of workshops; arranging, conducting and organisation of symposiums; workshops for training purposes; providing online training seminars; arranging of training courses; training courses relating to computer software; provision of online training seminars and courses relating to seminars; arranging and conducting of seminars and workshops; arranging of exhibitions for educational purposes; seminars; organisation of webinars; audio-visual display presentation services for educational purposes; arranging of demonstrations for training purposes; training services relating to the maintenance of computer controlled test systems; services for setting up data processing teaching programs (term considered too vague by the International Bureau - rule 13 (2) (b) of the Common Regulations); training relating to data processing techniques; organisation of seminars and courses for training purposes; arranging, conducting and organisation of exhibitions; providing computer assisted courses of instruction; education services relating to computer systems; organisation of training courses; provision of education on-line from a computer database or via the internet or extranets; arrangement of conventions for educational purposes; training in the use and operation of data processors; audio-visual display presentations; arranging of displays for training purposes; arranging of demonstrations for educational purposes; conducting of educational events; arranging and conducting of seminars; arranging and conducting of lectures; arranging of seminars for educational purposes; arranging, conducting and organisation of congresses; training services relating to the repair of computer controlled test systems; conducting of educational courses; arranging of exhibitions for training purposes; training services in the field of computer software development; arranging of conventions for training purposes; training in the operation of software systems; programming [scheduling of programs] on a global computer network.

**Cl.42:** Engineering services relating to the design of electronic systems; monitoring of computer systems to detect breakdowns; computer system design; troubleshooting of computer hardware and software problems; design and development of networks; analysis and evaluation of product design; database design and development; technical services for the downloading of software; programming of operating software for accessing and using a cloud computing network; design services relating to the development of computerised information processing systems; design services relating to data transmission test tools; internet walled garden services; digital watermarking; development of computer firmware; computer diagnostic services; programming of internet security programs; design of data storage systems; design and development of firmware systems; administration of mail servers; consultancy and information services relating to computer system integration; the nature of diagnostic problems with computer systems; design and development of electronic products; backup services for computer hard drive data; product design and development; design services relating to data processing tools; consultancy in the field of security software; configuration of computer networks by software; development of data processing apparatus; it security, protection and restoration (term considered too vague by the International Bureau - rule 13 (2) (b) of the Common Regulations); consultancy relating to the design and development of computer software programs; computer software consultancy; diagnosis of faults in computer software; design services relating to the creation of networks; data recovery services; design of software for multimedia data storing and recalling; creation of control programs for electric operation control and drive modules; design and development of software for importing and managing data; comparative analysis studies of the efficiency of computer systems; diagnosing computer hardware problems using software; design and development of computer software for reading, transmitting and organising data; design and development of operating software for accessing and using a cloud computing network; consultancy services for designing information systems; design and development of testing and analysis methods; design of computer databases; design and development of telecommunications networks; development of computer software for use with computer-controlled switching systems; application service provider [asp], namely, hosting computer software applications of others; consultancy in the field of computer system integration; internet security consultancy; design of data processing apparatus; electronic data storage and data back-up services; design and development of electronic data security systems; design and development of software for database management; conducting of quality control tests; monitoring of computer systems for detecting unauthorized access or data breach; hiring of computer firmware (term considered too vague by the International Bureau - rule 13 (2) (b) of the Common Regulations); creation, updating and adapting of computer programs; programming of operating software for computer networks and servers; software design and development; professional consultancy relating to computer security; research in the field of data processing technology; design of hardware for processing and distribution of multimedia contents; information services relating to the development of computer networks; development of systems for the transmission of data; monitoring of network systems; comparative analysis studies of the performance of computer systems; design and development of computer firmware; installation of firmware; technical advisory services relating to data processing; computer security consultancy; designing computer software for controlling self-service terminals; development and testing of computing methods, algorithms and software; maintenance of software for internet access; computer system design and development; development of technologies for the protection of electronic networks;
research relating to security (term considered too vague by the International Bureau - rule 13 (2) (b) of the Common Regulations); design and development of computer software for process control; maintenance of data processing software; remote server administration; software engineering; computer system analysis; development of computer systems; data security consultancy; computer firewall services; on-line computer services (term considered too vague by the International Bureau - rule 13 (2) (b) of the Common Regulations); computer programming for data processing and communication systems; design of operating system software; programming of software for internet platforms; design and development of wireless computer networks; technological services and design relating thereto; analytical services relating to computers; design and development of antivirus software; provision of security services for computer networks, computer access and computerised transactions; computer virus protection services; testing of electronic data processing systems; advisory services relating to computer systems design; technical advice relating to safety (term considered too vague by the International Bureau - rule 13 (2) (b) of the Common Regulations); server administration; installation and maintenance of internet access software; data security services; configuration of computer firmware; rental of internet security programs; design and development of systems for data input, output, processing, display and storage; anti-spamming services (term considered too vague by the International Bureau - rule 13 (2) (b) of the Common Regulations); software creation; surveys (conducting -); computer services concerning electronic data storage; computer programming services for electronic data security; electronic data back-up; providing information about the design and development of computer software, systems and networks; design of hardware for compression and decompression of multimedia contents; consumer product safety testing; design and development of data display systems; computer network design for others; consulting in the field of cloud computing networks and applications; computer programming services for data warehousing; development of systems for the processing of data; consumer product safety testing and consultation; data migration services; temporary electronic storage of information and data; computer analysis; design and development of operating system software; configuration of computer systems and networks; information technology support services; maintenance of computer software relating to computer security and prevention of computer risks; design of hardware for multimedia data storing and recalling; analysis and evaluation of product development; data encryption and decoding services; computer services for the analysis of data (term considered too vague by the International Bureau - rule 13 (2) (b) of the Common Regulations); integration of computer systems and networks; electronic data storage; data security services (firewalls); development of computer software for use with programmable controllers; installation and maintenance of database software; design and testing of new products; design and development of data storage systems; design and development of electronic database software; design of information systems; design services for data processing systems; safety technological testing services; design of hardware for data and multimedia content conversion from and to different protocols; software customisation services; consultancy in the field of computer system analysis; administration of user rights in computer networks; design and development of wireless data transmission apparatus; design and development of data processing apparatus; creation of control programs for automated measurement, assembly, adjustment, and related visualisation; online data storage; design and development of data entry systems; design and development of data processing systems; writing of control programs; creation, maintenance and adaptation of software; development of software for secure network operations; computer security services for protection against illegal network access; technical services for the downloading of digital data; development of computer based networks; installation and actualisation of programs for data processing; computer network configuration services; computer system monitoring services; design services relating to integrated circuits; software development, programming and implementation; engineering services relating to automatic data processing; off-site data backup; monitoring of computer systems by remote access; computer security services in the nature of administering digital certificates; design and development of wireless data transmission apparatus, instruments and equipment; cloud computing; design and development of internet security programs; computer network services; data back-up services; updating of memory banks of computer systems; engineering consultancy relating to data processing; computer security threat analysis for protecting data; design and development of operating software for computer networks and servers; design services relating to data processing test tools; computer security system monitoring services; development of systems for the storage of data; consultancy services relating to quality control; configuration of computer software; design, development and implementation of software; updating of computer software relating to computer security and prevention of computer risks.

Cl.45; On-line social networking services; online social networking services accessible by means of downloadable mobile applications; monitoring of security systems; providing authentication of personal identification information [identification verification services]; licensing of databases; licensing of computer software [legal services]; electronic monitoring services for security purposes; safety, rescue, security and enforcement services (term considered too vague by the International Bureau - rule 13 (2) (b) of the Common Regulations); advisory services relating to consumers rights [legal advice]; security assessment of risks; information services relating to consumer rights (term considered too vague by the International Bureau - rule 13 (2) (b) of the Common Regulations); identity validation services (term considered too vague by the International Bureau - rule 13 (2) (b) of the Common Regulations); licensing [legal services] in the framework of software publishing; information services relating to safety; licensing of technology; consultancy relating to computer software licensing; licensing of wireless communication system; computer licensing (term considered too vague by the International Bureau - rule 13 (2) (b) of the Common Regulations).

NIPPON STEEL & SUMITOMO METAL CORPORATION
6-1, Marunouchi 2-chome, Chiyoda-ku Tokyo 100-8071 Japan

Proposed to be Used

IR DIVISION

Cl.1: Industrial chemicals; acenaphthenes; alkalis; alkaline iodides for industrial purposes; alkaline earth metals; alumina; aluminium chloride; aluminium hydrate; aluminium silicate; ammonia; ammonium sulphate; anhydrides; anthracene; argon; auxiliary fluids for use with abrasives; barium compounds; barytes; bases [chemical preparations]; Bentonite; benzene derivatives; benzoic acid; biphenyls; bisphenol A; brazing fluxes; carbon; carbon black for industrial purposes; carbon for filters; catalysts; ceramic materials in particulate form, for use as filtering media; compositions for the manufacture of technical ceramics; chemical preparations for facilitating the alloying of metals; chemical reagents other than for medical or veterinary purposes; calcium silicate; cyclohexene; cyclohexane; cresol; coumarin; carbazole; cement blending agents; chemicals for use in the manufacture of liquid crystals; chemicals for the manufacture of resists for liquid crystal display [LCD] color filters; dry ice [carbon dioxide]; decahydroanaphthalene; dithiocoumarin; divinylbenzene; foundry binding substances; fluorene; helium; hydrogen; indoles; indenes; isoquinolines; krypton; lime carbonate; magnesium carbonate; methanol; methylphenanthrenes; naphthalene; neon; nitrogen; organometallic compounds and oxides; phenol for industrial purposes; pyrene; phenanthrene xylenol; phthalic anhydride; para-benzyl biphenyl; pyridine; photographic chemicals; plastic molding compounds for use in the manufacture of plastic sheets and films; quinoline; rare earths; salt; raw; salts [chemical preparations]; salts for industrial purposes; salts from rare earth metals; salts of alkaline metals; salts of precious metals for industrial purposes; silica gel; silicates; silicon; skatole; soda ash; soap; solvents for dioxide for industrial purposes; toluene; terphenyl; tetrahydronaphthalene; tetrachlorophthalic anhydride; thioephene; welding chemicals; welding fluxes; xenon; zirconia; sealant for use in manufacture of electronic components and electronic circuits; sealant [chemicals]; barium titanate; aluminium nitride; alumina spherical particles; particles of metallic oxides for filler; particles of metallic oxides; agglutinants for concrete; solvents for varnishes; adhesives for industrial purposes; adhesives for wallpaper; fertilizers; salts [fertilisers]; ceramic glazings; acrylic resins, unprocessed; artificial resins; unprocessed; epoxy resins, unprocessed; plastics, unprocessed; synthetic resins, unprocessed; coumarone resin; fenolic resins; polystyrene resins; polypropylene resins; filtering materials [unprocessed plastics]; polymer resins, unprocessed.

Cl.2: Anti-corrosive preparations; creosote for wood preservation; ink [toner] for photocopiers; pigments; blacks [colorants or paints]; carbon black [pigments]; paints; primers; agglutinants for paints; fireproof paints; protective preparations for metals; thickeners for paints; thinners for lacquers; thinners for paints; printing ink; inks for screen printing; metals in powder form for printers, decorators, printers and artists; anti-rust greases.

Cl.4: Lubricants; solid lubricants; lubricating graphite; coke; foundry coke; benzene [fuel]; xylene [fuel]; coal tar oil; vaporized fuel mixtures; industrial oil; ester based oil; cutting oils; lubricating grease; lubricating oil.

Cl.6: Balls of steel; cast iron, unwrought or semi-wrought; cast steel; iron, unwrought or semi-wrought; iron wire; heavy plate steel; hot-rolled steel sheets and coils; cold-rolled steel sheets and coils; tin free steel sheets and coils; electrical steel sheets; galvanized sheets and coils; steel pipes; steel sheets; steel strip; steel, unwrought or semi-wrought; steel wire; steel alloys; sheets and plates of metal; steel bars; steel strips; steel shapes; stainless steel; steel foil; alloys of common metal; aluminium; aluminium foil; aluminium wire; boxes of common metal; brass, unwrought or semi-wrought; brazing alloys; common metals, unwrought or semi-wrought; copper, unwrought or semi-wrought; lead, unwrought or semi-wrought; cables of metal, non-electric; cobalt, raw; soldering wire of metal; wire of common metal; wire of common metal alloys [except fuse wire]; wire of metal for machines; gold solder; indium; ingots of common metal; metals in powder form; nickel and its alloys; niobium; silver plated tin alloy; silver solder; tantalum [metal]; tin and its alloys; tinfoil; tinfole; tinplate packings; titanium; titanium iron; tombac; tubes of metal; tungsten; vanadium; zirconium; copper wire, not insulated; cermet; metals in foil or powder form for 3D printers; rods of metal for brazing and welding; copper ores; cobalt ores; iron ores; brackets of metal for building; building boards of metal; metal fittings for furniture and doors and windows; crash barriers of metal for building roads; framework of metal for building; linings of metal [building]; pillars of metal for buildings; reinforcing materials of metal for building building for cement use; metal ceiling panels, metal cove bases, metal fence posts, metal floors, metal gates and fencing panels, metal linte; metal pantile, metal roofing, metal roofing panels, metal tiles, metal window frames; joists of metal; manhole covers of metal; manifolds of metal for pipelines; materials of metal for funicular railway permanent ways; poles of metal; posts of metal; props of metal for construction purpose; railroad ties of metal; rails of metal; railway material of metal; sheet piles of metal; strap-hinges of metal; trellis of metal; rods of metal for building preparation; wire of metal for building; cladding of metal for building; pre-fabricated buildings of metal; metal beams for buildings; steel buildings; foundry moulds of metal; turntables [railways]; flanges of metal [collars]; pipe muffs of metal; containers of metal for storage, transport; containers of metal for compressed gas or liquid air; containers of metal for liquid fuel; containers of metal for storing acids; wire rope; wire gauze; metal nails; screws; cable joints of metal, non-electric; nuts of metal; metal sleeves [metal hardware]; hardware of metal [small]; stop collars of metal; stops of metal; steps [ladders] of metal; metal joinery fittings.
Cl.7; Electric arc welding apparatus; welding apparatus, gas-operated; welding machines, electric; bending machines;
    cutting machines for metalworking; apparatus for dressing for metalworking; finishing machines for metalworking;
    grinding machines for metalworking; hand-held tools, other than hand-operated; holding devices for metal working
    machine tools; apparatus for machining for metalworking; metalworking machines; moulding machines for metalworking;
    paring machines for metalworking; machines and apparatus for polishing [electric] for metalworking; robots for metal
    working; rolling mills; slide rests [parts of machines]; trimming machines for metalworking; crushing machines for
    metalworking; generators of electronic components for transportation for construction; crushing machines for construction;
    condensing installations for chemical processing; heat exchangers for chemical processing machines; bookbinding
    apparatus and machines for industrial purposes; inking apparatus for printing machines; papermaking machines;
    printing machines; printing presses; printing rollers for machines; rotary printing presses; atomisers [machines];
    moulding machines for plastic processing; stone working machines; exhaust manifold for engines; mufflers for motors and
    engines; filters for use on windows; extruded plastic in the form of pipe, tubes, rods, sheets and tubes for use in
    bearings [parts of machines]; journal boxes [parts of machines]; journals [parts of machines]; transmissions for
    machines; shaft couplings [machines]; waste compacting machines; waste crushing machines for industrial purposes;
    3D printers; industrial robots; moulding machines.

Cl.9; Material testing instruments and machines; hygrometers; capacitors; connections, electric; contacts, electric;
    contacts, electric, of precious metal; distribution consoles [electricity]; readers [data processing equipment]; resistances,
    electric; solar batteries; batteries, electric; accumulator jars; plates for batteries; batteries, electric, for vehicles;
    intercommunication apparatus; juke boxes for computers; portable telephones; telephone apparatus; transmitters
    [telecommunication]; transmitting sets [telecommunication]; video telephones; magnetic data media; magnetic encoders;
    optical data media; color filters for liquid crystal display; covers for smartphones; Integrated circuit cards [smart cards];
    electronic agendas; bar code readers; central processing units [processors]; chips [integrated circuits]; computer
    operating programs, recorded; computer programs [downloadable software]; computer software [recorded]; computers;
    data processing apparatus; lasers, not for medical purposes; monitors [computer programs]; optical character readers;
    printed circuits; semi-conductors; wafers [silicon slices]; flexible print circuits; inkjet printers; printed circuit boards;
    light-emitting diodes; covers for tablet computers; digital color copiers; anodes; cathodes; collectors, electric; 3D
    spectaculars; conductors, electric; spectacle frames; spectacles; goggles for sports.

Cl.11; Heat exchangers for chemical processing; distillation apparatus; drying apparatus for chemical processing;
    evaporators; coolers for industrial furnaces; furnaces; heating elements; heating apparatus for solid, liquid or gaseous
    fuels; lighting apparatus and installations for industrial purpose; electric lamps; light bulbs for directional signals for
    vehicles; light-emitting diodes [LED] lighting apparatus; lighting apparatus for vehicles; lighting installations for air
    vehicles; lights for automobiles; lights for vehicles; portable headlamps.

Cl.12; Air vehicles; aeronautical apparatus, machines and appliances; amphibious airplanes; automobile bodies;
    automobile chassis; automobile hoods; automobiles; axles for vehicles; bicycle cranks; bicycle frames; bicycle
    handlebars; bicycle kickstands; bicycle mudguards; bicycle pedals; bicycle saddles; bicycle wheel hubs; bicycle wheel
    rims; bicycle wheel spokes; bicycle wheels; bicycles; boats; bodies for vehicles; bogies for railway cars; brake discs for
    vehicles; brake linings for vehicles; brake pads for automobiles; brake segments for vehicles; brake shoes for vehicles;
    brakes for vehicles; bumpers for automobiles; cable cars; camera drones; camping cars; canoes; civilian drones; doors
    for vehicles; robotic cars; ejector seats for aircraft; electric bicycles; electric vehicles; hoods for vehicle engines;
    luggage carriers for vehicles; motor buses; motor racing cars; motorcycle frames; motorcycle handlebars; motorcycle
    kickstands; motorcycle saddles; motorcycles; railway carriages; rims for vehicle wheels; rolling stock for funicular railways;
    rolling stock for railways; ship hulls; undercarriages for vehicles; upholstery for vehicles; vehicle bumpers; vehicle chassis;
    vehicle seats; vehicle suspension springs.

Cl.17; Insulating oils; electrical insulating materials; insulating varnish; dielectrics; electrical insulators; electrical
    insulating plastic films; electrical insulating plastic sheets; plastic film other than for wrapping; plastic substances, semi-
    processed; semi-finished synthetic resins for molding; adhesive-coated plastic sheets for use in manufacture; laminated
    plastic sheeting for use on windows [parts of buildings]; cable for plastic in the form of roll to be used in manufacturing;
    plastic in the form of bars, blocks, pellets, rods, sheets and tubes for use in manufacture; synthetic rubber; synthetic resins
    [semi-finished products]; plastic fibers, not for use in textiles; plastic sheeting used in the construction industry as a vapor barrier;
    semi processed prepreg thermoplastic epoxy; mesh of fiber-reinforced plastic; nets of fiber-reinforced plastic; thermoplastic
    epoxy; thermoplastic resins reinforced with natural fibers [semi-finished products]; plastic sheet materials for use in manufacture;
    carbon fibers, other than for textile use; caulking materials; foils of metal for insulating; reinforcing materials, not of metal, for pipes.

Cl.19; Tar; pitch; coal tar; non-metallic minerals for building or construction; bricks; door casings of carbon fiber
    plastics and plastics; doors frames of carbon fiber plastics and plastics; door panels of carbon fiber plastics and plastics;
    fences of carbon fiber plastics and plastics; construction materials of plastics; non-woven textiles made of synthetic
    fibers for use in the building industry; synthetic building materials; lime building or construction materials; rockslide
    retention nets of textiles [construction materials]; palings of concrete, carbon fiber plastics and plastics; palisading of
    concrete, carbon fiber plastics and plastics; building panels of ceramic, concrete, carbon fiber plastics and plastics;
    buildings, not of metal; cement posts; cement slabs; cement for furnaces; grout; concrete building elements; artificial
    stone; building stone; slag [building material]; moulds for forming cement products, not of metal; angle irons, not of
    metal; armor-plating, not of metal; binding material for road repair; building materials, not of metal; building panels, not of
    metal; ceilings, not of metal; cladding, not of metal, for building; coatings [building materials]; crash barriers, not of
    metal, for roads; drain pipes, not of metal; floors, not of metal; framework, not of metal, for building; geotextiles;
    latticework, not of metal; moldings, not of metal, for building; mortar for building; penstock pipes, not of metal; pilings,
    not of metal; pillars, not of metal, for building; refractory construction materials, not of metal; reinforcing materials, not of
    metal, for building; road coating materials; sheet piles, not of metal; slabs, not of metal, for building.

Cl.22; Glass fibers for textile use; carbon fibers for textile use; plastic fibers for textile use; raw fibrous textile; textile
    fibers; network; knitted cords; string; ropes, not of metal.

Cl.37; Construction and repair services, namely reinforcement and repair of buildings or structures using reinforcing
    material; construction information; construction consultancy; building construction supervision; general building
    construction works; building construction; dredging; construction and maintenance services relating to civil engineering;
masonry; glass installation services; steel structure construction works; plastering; carpentry; tile laying, bricklaying or block laying; joinery; painting; scaffolding; construction services in the nature of earthworks; construction services using concrete; upholstery; building damp-proofing; roofing services; plumbing; repair of water supply installations; construction of waste disposal facilities; construction of sludge and sewage treatment plants; repair or maintenance of vessels; shipbuilding; repair of bicycles; motor vehicle maintenance and repair; repair or maintenance of railway rolling stocks; repair or maintenance of two-wheeled motor vehicles; repair of sports equipment; repair of buildings; repair of concrete structures; repair or maintenance of nuclear power plants; repair or maintenance of chemical plants; operation, serving, maintenance of building installations; repair or maintenance of textile machines and apparatus; repair or maintenance of plastic processing machines and apparatus.

Cl.42; Research relating to building construction or city planning; research relating to civil engineering; research relating to machines, apparatus and instruments; architectural services; architectural consultancy; civil engineering structures consultancy services; testing, inspection and research services in the fields of composite materials; providing information on research relating to building construction or city planning; providing information on research on civil engineering; providing information on architectural services; providing information on civil engineering; providing information on testing, inspection and research services in the fields of composite materials.
