Cl.3; Laundry preparations; industrial cleaning agents; auxiliary preparations, namely washing preparations and cleaning preparations, for use in printing machines and/or offset printing machines and/or coating machines and/or digital printing and/or marking machines; auxiliary preparations, namely washing preparations and cleaning preparations for use in installations, equipment, apparatus, filters, separators, suction and conveying devices for air-technology cleaning, dust removal and air separation from machines and spaces equipped therewith, air filters, fans, fibre separators, air compressors and air ejectors for machines, collecting devices, machines, equipment and apparatus for compacting, filling and pressing particles, dust and fibres separated from machines; auxiliary preparations, namely washing preparations and cleaning preparations for use in lacquering machines, drying machines, drying ovens, pallet changing and pallet transfer machines, stacking machines, machines for handling sheets and plates of metal, food dispensing machines, apparatus for the surface treatment of metals, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on
cans, printing machines for use on hollow bodies, marking machines, hot stamping equipment, thermal transfer equipment, photo printing machines, labelling machines, engraving machines, inkjet printing equipment, laser marking equipment, and laser printing equipment; auxiliary preparations, namely washing preparations and cleaning preparations for use in ventilation installations, ventilation apparatus, air conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air conveying devices, in particular ventilators, blowing machines and compressors, air heaters, air coolers, air filters, and nozzle chambers for humidifying; auxiliary preparations, namely washing preparations and cleaning preparations for use in drying ovens, drying apparatus, heat stores, heat exchangers and parts thereof, in particular catalytically active coatings, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purification installations, thermal energy stores, solar collectors, solar modules for heat generation, regulation and safety accessories for gas appliances; auxiliary preparations, namely washing preparations and cleaning preparations for use in printing machines and/or offset printing machines and/or flexographic printing machines and/or laquerating machines and/or packaging machines and/or coating machines and/or digital printing and marking machines; auxiliary preparations, namely substances for laundry use and cleaning preparations for use in flexographic printing machines, laquerating machines, packaging machines, coating machines, pallet changing and transfer machines, stacking machines, machines for the handling sheets of metal and御用 plates of metals, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, marking machines, hot stamping apparatus, thermal transfer apparatus, photo printing machines, labelling machines, engraving machines, inkjet printing apparatus, laser marking apparatus, and laser printing apparatus; auxiliary preparations, namely washing preparations and cleaning preparations for use in machines for producing product security means, identification features, security features, security labels, securities, banknotes and/or components therefor; auxiliary preparations, namely washing preparations and cleaning preparations for use in machines for applying product security means, identification features, security features, security labels and/or components therefor; auxiliary preparations, namely washing preparations and cleaning preparations for use in machines for applying product security means, identification features, security features, security labels and/or components therefor; auxiliary preparations, namely washing preparations and cleaning preparations for use in machines for applying product security means, identification features, security features, security labels and/or components therefor; auxiliary preparations, namely washing preparations and cleaning preparations for use in machines for applying product security means, identification features, security features, security labels and/or components therefor.

Cl.4: Lubricating agents (mainly consisting of industrial oils and greases) and/or lubricants for printing machines, offset printing machines, coating machines, digital printing and marking machines, and for machines and mechanical apparatus for the graphics industry, and for machines and mechanical apparatus for the further processing of printed matter or printed material, in particular paper or plastics; lubricating agents (mainly consisting of industrial oils and greases) and/or lubricating oils, greases, lubricants, equipment, installation, exhaust air purification installations, thermal energy stores, solar collectors, solar modules for heat generation, regulation and safety accessories for gas appliances; lubricants (mainly consisting of industrial oils and greases) and/or lubricants for machines for applying product security means, identification features, security features, security labels, securities, banknotes and/or components therefor; lubricants (mainly consisting of industrial oils and greases) and/or lubricants for machines for producing product security means, identification features, security features, security labels, securities, banknotes and/or components therefor; lubricants (mainly consisting of industrial oils and greases) and/or lubricants for machines for applying product security means, identification features, security features, security labels, securities, banknotes and/or components therefor; lubricants (mainly consisting of industrial oils and greases) and/or lubricants for machines for applying product security means, identification features, security features, security labels, securities, banknotes and/or components therefor.
materials; conveying machines, conveyor belts, conveying apparatus for conveying printed matter or paper or paper reels or plastics or plastic reels or metal or organic or inorganic materials; machines and mechanical apparatus for the further processing of printed matter or paper or plastics or metal or organic or inorganic materials; machines or mechanical apparatus for the folding of paper or plastics or metal or organic or inorganic materials; machines and mechanical devices for changing and/or bending and/or punching printing plates and/or flexographic printing plates; machines and mechanical apparatus for the storing of printing plates for printing machines; conveying machines, conveyor belts, conveying apparatus for conveying printing plates for printing machines; machines and mechanical apparatus for the cleaning of rollers in inking apparatus or damping units and/or cylinders and/or lacquering units and/or inkjet print heads and/or laser systems in printing machines, offset printing machines, flexographic printing machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines; machines and mechanical apparatus for the adjustment of web tension settings in printing machines; offset printing machines, flexographic printing machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines; machines and mechanical apparatus for the further processing of printed matter or paper or plastics or metal or organic or inorganic materials; machines and mechanical apparatus for the storing of printing plates for printing machines; offset printing machines, flexographic printing machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines; machines and mechanical apparatus for the adjustment of web tension settings in printing machines; offset printing machines, flexographic printing machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines; machines and mechanical apparatus for the adjustment of web tension settings in printing machines; offset printing machines, flexographic printing machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines; inkjet printing machines, inkjet printers, in particular having one or more inkjets, single-colour or multi-colour inkjet printers and in machines and mechanical apparatus for the graphics industry, and in machines and mechanical apparatus for the further processing of printed matter or paper or plastics or metal or organic or inorganic materials; machines and mechanical apparatus for the adjustment of registers and/or register marks in printing machines, offset printing machines, flexographic printing machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines; inkjet printing machines, inkjet printers, in particular having one or more inkjets, single-colour or multi-colour inkjet printers and in machines and mechanical apparatus for the graphics industry, and in machines and mechanical apparatus for the further processing of printed matter or paper or plastics or metal or organic or inorganic materials; machines and mechanical apparatus for the adjustment of web tension settings in printing machines; offset printing machines, flexographic printing machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines; inkjet printing machines, inkjet printers, in particular having one or more inkjets, single-colour or multi-colour inkjet printers and in machines and mechanical apparatus for the graphics industry, and in machines and mechanical apparatus for the further processing of printed matter or paper or plastics or metal or organic or inorganic materials; machines and mechanical apparatus for the adjustment of web tension settings in printing machines; offset printing machines, flexographic printing machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines; inkjet printing machines, inkjet printers, in particular having one or more inkjets, single-colour or multi-colour inkjet printers and in machines and mechanical apparatus for the graphics industry, and in machines and mechanical apparatus for the adjustment of web tension settings in printing machines; offset printing machines, flexographic printing machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines; inkjet printing machines, inkjet printers, in particular having one or more inkjets, single-colour or multi-colour inkjet printers and in machines and mechanical apparatus for the graphics industry, and in machines and mechanical apparatus for the adjustment of web tension settings in printing machines; offset printing machines, flexographic printing machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines; inkjet printing machines, inkjet printers, in particular having one or more inkjets, single-colour or multi-colour inkjet printers and in machines and mechanical apparatus for the graphics industry, and in machines and mechanical apparatus for the adjustment of web tension settings in printing machines; offset printing machines, flexographic printing machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines; inkjet printing machines, inkjet printers, in particular having one or more inkjets, single-colour or multi-colour inkjet printers and in machines and mechanical apparatus for the graphics industry, and in machines and mechanical apparatus for the adjustment of web tension settings in printing machines; offset printing machines, flexographic printing machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines; inkjet printing machines, inkjet printers, in particular having one or more inkjets, single-colour or multi-colour inkjet printers and in machines and mechanical apparatus for the graphics industry, and in machines and mechanical apparatus for the adjustment of web tension settings in printing machines; offset printing machines, flexographic printing machines, lacquering machines, packaging machines, coating...
apparatus; air handling installations; air conveying devices (air conditioning), in particular fans; air heating apparatus; air coolers; filters for air conditioning; nozzle chambers for humidifying; ventilating installations and apparatus for air conditioning; air conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, and parts thereof, in particular for rooms, buildings, trains, ships and vehicles; fans, air reheaters, air cooling apparatus and filters for air conditioning, included in this class; nozzle chambers for humidifying and washing out air; spray nozzles, air-flow control valves and shut-off valves being parts for air-conditioning installations; individual air treatment systems, air ducts, air outlets, nozzles, induction devices and fan coil units for heating and cooling rooms, room cooling devices with fans; air outlets and inlets being parts for ventilating installations, including in combination with fume cupboards; facade air-conditioning modules for decentral heating, cooling, fresh-air supplying, air recirculating and ventilating, for rooms and buildings; air filters for process air technology, for filtering dust, fibres, chips, granules and paper; drying ovens; drying apparatus; heat stores; heat exchangers and parts therefor (included in this class), in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations; thermal energy stores; solar collectors (heating); solar modules for heat generation; regulating and safety accessories for gas appliance (included in this class); parts for the aforesaid goods, included in this class.

Cl.16; Printed matter; printers’ blankets, not of textile, rubber blankets for offset printing machines, all the aforesaid goods included in this class; printing blocks, printing type and inking sheets for duplicators; goods of paper, namely product security means, security labels, securities, banknotes; goods of paper, cardboard and carton, namely stickers and labels, printed and/or embossed cards; graphic representations; advertising and communications material, included in this class, in particular printed matter on internal and external communications in the form of brochures, invitations, flyers, customer magazines, company presentations, newsletters, advertisements and printed matter on objects in the construction of exhibition stands; numbering machines, in particular for the graphics sector, the packaging sector and data processing.

Cl.38; Providing of access to data on computer networks, transmission of data on computer networks.

Cl.40; Custom manufacture of metal parts for others; metal processing; assembling of materials for others; millworking; soldering; grinding; sawing [saw mill]; cutting other than hair cutting services; blacksmithing; metal casting; galvanizing; burnishing by abrasion; chromium plating; metal tempering; rental of printing machines, machines for the graphics industry, and machines for the further processing of printed matter.

Cl.41; Providing of electronic publications and publication of printed matter in electronic form, including on the internet and intranets.
